—A. G. Guthrie went in to Zion Tuesday after a consignment of cars for Price Garage company.

—Mrs. Alice Sage of the Tavern is back home after an automobile trip to Salt Lake City this week.

—Henry Farnley of Mt. Pleasant and A. H. Bryner of Hiawatha were guests of the Tavern Saturday last.

—Miss Inez Scott got back to Price last week after her summer vacation to take up her work in the Carbon high school.

—J. C. Traddie is back at Sunnyside after a visit with his daughter, Mrs. W. B. McCue, and family at Green River.

—W. E. Stiner, manager of Sewco-crofts, went in to Provo Wednesday to bring his family here. They will arrive tomorrow.

—M. E. Motley of Salt Lake City has been visiting with his daughter, Mrs. E. F. Chamberlain, at Price this week and a portion of last.

—Miss Emma B. Johnson has returned to Salt Lake City after a visit of several weeks with her brother, J. F. Johnson, and wife at Price.

—Miss Dorena Hartley has returned to her home at Mt. Pleasant after a visit of several weeks with relatives and friends at Standardville and Castle Gate.

—Mrs. I. A. Lauder and children got back Wednesday evening from Maui, Mrs. Lauder being called there several weeks ago on account of the death of her father.

—Mr. and Mrs. R. M. Murray and Mr. and Mrs. C. N. Orr of Hiawatha were in Price last Friday going to and coming from Panther. The ladies did some shopping here on route.

—Miss Beulah Knappe has returned from a two weeks' billiard purchasing trip East. Her stock has been arriving for several days and much of it is now on display.

—Mr. and Mrs. Charles H. Lewis left Sunday morning for an extended automobile trip through Idaho and Wyoming and the Northwest. They will be absent about six weeks.

—Prof. Orson Ryan visited Beaverville, Winter Quarters and Clear Creek last Friday and Saturday in the interests of the public schools. He was accompanied by Mrs. Ryan.

—Miss Maudie Burke is back in Price from her summer vacation spent at Boulder, Colo. She will teach in the high school this year. Her sister, Miss Ruth, will teach at Morgan.

—Mr. and Mrs. L. A. McGinn and daughter, Miss Jane, are home from Yellowstone Park. They were there a couple of weeks or longer and had a most delightful outing.

—W. I. Norton, ex-chief of police at Ogden, was a Tavern guest last Saturday. He was here looking after his coal interests in Carbon county, which are big. He is a large stockholder in Peacock Coal company up Spring Canyon.

—I. P. Curry, chief electrician at Hiawatha for United States Fuel company, was in Price Tuesday returning from a trip to Panther. "We are working six days a week and sometimes seven," said he. "The output at all four camps is the greatest in their histories."

—M. H. Lesite of Helper was in Price last Saturday and paid his respects to The Sun. He finds more money and quite as much satisfaction working at his trade painting and contracting as in being a deputy sheriff. He reports having about all the work he can take care of.

—Preston Nutter was in Price over Monday last, going to Nine Mile after a short visit with his family at the state capital. He expects to ship, he says, three trainloads of cattle out of Carbon and Duchesne counties this fall, but is not yet decided on the date. They will likely be loaded at Woodside.

—Judge George Christensen, Frank M. Alder and Attorney Lewis Larsen passed through town Monday on their way to attend court at Monticello. Judge Christensen was accompanied by his family who are visiting Mrs. Knox Patterson while court is in session in Monticello and Moab.—Moab Independent, 14th.

—Max Gilmore got home last evening from his two weeks' trip through Yellowstone Park, returning by train. He had a most pleasurable outing and "loves the part." He brought home a number of fine trout specimens packed in grass and salt, but whether he bought or caught them this great family newspaper has not as yet had the time to inquire into.

—Sophus Olson, mayor of Woodside, came up to Price last Wednesday with Peter Bartholomew by automobile and after spending a portion of the day in the metropolis of Eastern Utah returned home by train. "We have the biggest alfalfa crop during our way in many years and it is bringing the best price ever," he said. "The Sun." "Live stock on the ranges are doing well and many cattle will be ready for shipment out within a short time."

—R. Grover Frye, the Tom Thumb of this section of the country, was in the city yesterday from Helper. He is the newspaperman for the DeWey and the Grande at that point and he tells us that last month he pulled down two hundred and sixty-eight dollars in salary. "Pretty fair for a man my size," said he. "And he's not bigger than a minute, for he has to stand on his tiptoes to look over the ordinary showcase sitting on a counter. But size doesn't always count for all of it. What he lacks in stature he makes up in brains and ability to do things. He told the News that out in Utah they are working women on the sections. This is also common in California. Women are even going into the machine shops as assistants to boiler-

makers.—Grand Junction (Colo.) News, 21st.

HIS BEST EFFORTS SHOWN

D. W. Griffith's "Hearts of the World" Coming to the Eko.

"Hearts of the World," the supreme triumph of D. W. Griffith, to be presented at the Eko theater for two days, August 26th and 27th, twice daily at 2 o'clock of the afternoon and at 8 o'clock of the evening, inaugurating a new era in the realm of the screen drama. Here, with the great war as a background, Mr. Griffith has filmed a simple little love story, old as the ages, yet ever new. "Hearts of the World" has proven the latest sensation in the screen world. Mr. Griffith realized that the public, which became enthralled over "The Birth of a Nation" and "Intolerance," would expect something big from him in this latest picture, and therefore instead of trying to outdo himself in staging gigantic battle scenes, he used the great war only as a background for the filming of a simple and attractive story of tremendous human interest. "Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror war reared its ugly head over the horizon. The scenes that led up to the war are shown; the meeting of the English parliament on the eve of the night when the vote was cast for war; the session of the French senate voting upon the declaration of war; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude, then the great drama begins when the German border enters France.

In taking the public picture for "Hearts of the World," Mr. Griffith had the assistance and co-operation of the English parliament on the eve of the night when the vote was cast for war; the session of the French senate voting upon the declaration of war; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude, then the great drama begins when the German border enters France.

Industry division is now on an inspection trip in the northern part of the state. Since this work was started last spring a number of farmers have embarked in the sheep business and find outcove land valuable for grazing sheep. Several companies in this district have been interested in financing farmers in buying sheep.

Breeders Make Appeal.

WASHINGTON, D. C., Aug. 17.—An appeal for government aid to live stockraisers in the West and southwest reached Senator Hitchcock of Nebraska today in a letter from H. H. Tomkin, Jr., of the food administration at Denver, Colo., who said the breeding industry is threatened with a 40 to 50 per cent liquidation this fall. It is practically impossible to borrow money on breeding cattle.

WITH THE LIVE STOCKMEN OF THIS SECTION OF UTAH

One of the most successful ram sales in its history is expected to result beginning on August 27th, when the National Woolgrowers' association holds its third annual sale in Salt Lake City. Increased interest in the stockmen. Stock from all parts of the United States and Australia will be brought here for the sale.

With the organization of co-operative live stock associations, the old method of sheepowners to dip their stock individually has been replaced by co-operative sales in Duchesne and Uintah counties, each vat accommodating as many as sixteen thousand sheep, according to announcement made by Dr. H. W. Hoggan and Secretary Thomas Redmond of the state live stock board.

Utah Indians at the White Rocks agency are going to send competing animals to the next fat stock show to be held in Salt Lake City. They have now under cultivation of the reservation seventy thousand acres of land and among their activities they have gone rather extensively into live stock. As a consequence, the aborigines have some of the best cattle to be seen in that region, some of the animals receiving special attention for the purpose of entering them in competition at the next fat stock show.

Nine per cent fewer eggs were in hand on July 1, 1918, as compared to July 1, 1917, in the four hundred and sixty-two cold storage plants which recently made reports to the bureau of markets. The movement of eggs from storage for consumption purposes began nearly a month earlier this year than usual. This condition, according to poultry specialists of the United States department of agriculture, should be a special incentive to every poultry producer to work faithfully for good production in the early winter.

What's the Matter ?

Buy goods from merchants you know, not from traders you have never seen. After the Pilgrim Fathers landed they didn't send to James I for dry goods. When the Israelites reached Canaan they didn't write to Pharaoh for canned pork and beans.

This is not time to clutter up Uncle Sam's railroads with mail orders. Give him a free hand to feed the boys in France.

Shipments of anthracite for July reached a new high level of 7,044,775 gross tons, as compared with 4,867,440 tons in June and 6,724,252 tons in July of last year. There was a substantial increase in the output of domestic sizes, which in the earlier months of the year had shown a relative decline. The shipments of domestic sizes, including pen coal, in July were 4,434,551 tons, an increase of 123,675 tons over June.

"Thousands of tons of coal are being saved monthly by the railroads in their great fuel conservation campaign," is the word of H. V. Platt, vice president of the Oregon Short Line, who is just back at Zion from a conference of operating heads at Pocatello, Ida. "The campaign, though barely under way," says Platt, "is producing wonderful results. The men are taking to the fuel saving plan with a will, and the householders and manufacturers of the country will profit by huge quantities of fuel released for their use by the roads."

Agitation has been started in England to prevent Germany's warlords and steel magnates from getting control of Spitzbergen, the el dorado of the Arctic Ocean. Should Germany be forced to give up Almes-Lorraine, with its coal and iron deposits, a far richer prize, though more distant, would be won should her plunderers get possession of Spitzbergen, a group of islands lying about a thousand miles north of Norway and a thousand miles east of Greenland. The territory of twenty-four thousand square miles has two thousand square miles of known coal and iron deposits.
