SHORT STORIES OF THE PAST WEEK

More men heard to safely deposit vaults and others bury their money in their backyards, but when it has to have it the government will get it in either place.

Price Rooms now has its club rooms in the library building. After the lifting of the quarantine the club will resume its meetings in both the civic and library departments.

Assessment No. 8 of the Paloma Gold and Silver Mining company is due November 8th, next Friday. It is for half a cent a share and is payable to J. H. Bratton, secretary of the company, Judge building, Salt Lake City.

Miss Audrey Cook has been quite ill lately at Sacred Heart academy at Ogden, but is now considerably improved. Her mother, Mrs. Gertrude Cook, recently visited with her daughter and remained there until the young lady was improved.

Organizers of the First National bank of Monticello have been notified from Washington, D. C., that their application has been approved and a charter will be forwarded at once. The new institution, capitalized at \$25,000, will open at an early date.

J. H. Hodgson of Provo held an examination at Price last Saturday for postmaster at Grandville. An examination will be conducted at Provo on November 12th for the postmaster-ship at Sunnyside. Any citizen who is a resident of the latter place is eligible to take the test. Salary, fifteen hundred dollars a year.

Miss Bonnie Fields, formerly one of the teaching force of the Price schools, is now in France, her address being 1 Rue de France (American Red Cross), Paris. She has gone as a nurse. Miss Fields has been at Yonkers, N. Y., training for Red Cross work for several months. A young lady friend accompanied her overseas.

Tests made by Marcus E. Jones, plant biologist and chemist who has been studying the rubber plant of Utah under the direction of the University of California, show that the plant yields as much as 18 per cent of its weight in rubber. Unless later investigations shall prove that the plant cannot be utilized successfully, the waste lands of the state will develop into its richest regions, Jones believes.

New express rates involving average increases of about 10 per cent, being mainly on short hauls, will be initiated shortly by the American Railway Express company with the approval of Director General McAdoo to raise \$24,000,000 added revenue, half of which will go to the express company to meet contemplated wage advances and the other half to the railroads for transporting express matter.

Another promotion has been won by Lieut. B. E. Spry, who is in the disbursing division of the quartermaster general's department at Washington, D. C. He enlisted as a private and was commissioned as a second lieutenant. Now word has been received that he has advanced to the rank of first lieutenant. Young Spry was formerly a clerk in the office of Utah Fuel company at Sunnyside.

During the past week the secretary of state has mailed out notices to the various corporations of the state calling upon them for their annual state license. The amount of the license is based on the capitalization of the companies and the time for payment is before November 15th. The delinquent date is December 15th and a flat penalty of ten dollars will be added in the event payment is not made before the 15th of December.

Speakers of international prominence will come to Utah when the allied labor unions of the state open their drive for more members. It has not been decided by the committee in charge when the drive will be started, but it will not be until after the influenza epidemic has subsided, declared J. K. Harvey recently, who is in charge of the membership campaign. It is the plan of the membership committee, according to Harvey, to hold a meeting in every town in the state.

The 1918 issue of war savings stamps by the government will be the issue of 1918. New rules for the placing of this issue on sale are just announced by the federal authorities. The rule prohibiting a purchase of more than one hundred dollars worth of stamps at one time by any individual has been straggled and purchases of one thousand dollars in stamps will be permitted under the 1918 issue. Those purchases may be made regardless of the fact that individuals hold the maximum amount under the 1917 issue.

Mrs. E. M. Cohen, Utah pension commissioner, in response to several letters of inquiry sent to Henry B. Floyd, chief of the Indian wars division of the United States bureau of pensions, has received reply that the work of the bureau is being much retarded by the influenza epidemic. Floyd writes that the bureau forces have been sadly disorganized and that he himself was off duty for three weeks. Influenza having developed head and lung complications in his case. Veterans of the Black Hawk wars are asked by Mrs. Cohen to be patient under the circumstances.

Mohrland again leads Blinn county in subscriptions to the fourth Liberty loan, having subscribed \$19,400 to date. Two hundred forty-four individuals are enrolled on the list. Such are the figures furnished by Leo Kennedy, campaign director at Mohrland. Green river is "right there" too, with \$17,500 subscribed and about one hundred and ninety-seven subscribers, according to B. J. Killian, director at that place. Green River was still going it strong, however, when Bullman reported, and has probably gone over those figures by

MRS. LEE S. THOMAS

Democratic Candidate For Recorder of Deeds of Carbon County.

Mrs. Thomas is the wife of Lee S. Thomas, now fighting on the first line for his country at the western front. He was among the first to volunteer and at the time left his crop unsaved in the field on the home ranch up between Scofield and Winter Quarters. What money he had, not a great deal, Thomas invested in Liberty bonds for his wife and children. The husband and wife were each profitably reared in the upper end of the county and each also members of pioneer families. Mrs. Thomas before her marriage was a housewife, daughter of Mr. and Mrs. Walter Tomblin, while her husband is the son of the late T. H. Thomas. His mother is a resident of Helper. The subject of this sketch is a graduate of the Scofield high school and is in every way qualified for the duties of the position to which she has been nominated. Mr. and Mrs. Thomas have two children, their eldest, which is about as certain as anything of this kind goes, will be a testimonial of the appreciation in which Carbon county folks hold their soldier boys. After receiving the Democratic nomination unanimously Mrs. Thomas was endorsed by the Liberty party.

Woodside is included with Green River in this total, which also includes some fifty subscribers and five thousand dollars subscribed to the railroad men.

H. M. Tiffany, soda fountain expert, has resigned his position with Sutton Drug company. He came here from Vernal a short time ago.

Local honey producers are building what remains of this year's crop for a price around twenty-five cents. The same is true of Emery county raisers. About the highest price so far paid is twenty-two cents a pound.

Surgeon General Bliss has notified Dr. T. H. Healy, state health commissioner, that he has applied to a Jones large cities in a vain attempt to secure nurses to send to Utah. None is available and another call has been sent out by the Red Cross for volunteer nurses.

With eggs selling in Utah cities from sixty to sixty-five cents a dozen, now is the time to get into the poultry business, according to Prof. H. W. Bamberg, extension poultry husbandman at the Utah Agricultural college. He is urging the householder to stock up with a few hens, which can be carried over as breeding stock for next season. These, he warns, should be kept in the best of health.

Glassman & Lewis, who recently purchased several carloads of damaged canned fruit from a wreck on the Denver and Rio Grande, are this week closing the same out at unheard-of prices. The wreck occurred at Montrose one day last week. The only damage is to the outside of the cans. The firm absolutely guarantees the goods being offered. Sales rooms are in the Smart-Nixon building on South Ninth street.

STORED SUGAR IN UTAH IS NO INDICATION OF SURPLUS

Although there are huge quantities of sugar stored up at sugar manufacturing centers in Utah and Idaho because of arrangements having not yet been made for its distribution, there will be no increase of the monthly allowances of sugar on account of this. Just because it happened to be stored here is no sign that there is not a dire need of it somewhere in the United States or in the countries of the American allies, W. W. Armstrong, federal food administrator for Utah, says.

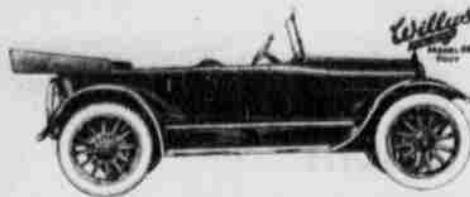

According to Stephen H. Lott, a member of the sugar distributing committee for the West, much sugar is stored in Utah and Idaho, but the company expects soon to have to supply all the country west of Buffalo and Pittsburg, as the two Pacific Coast refineries will be closed next month.

Several millions of dollars in sugar are now tied up waiting for a market to be found where it is most needed.

GREATLY BENEFITED BY CHAMBERLAIN'S TABLETS.

I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good, writes Mrs. M. P. Harwood, Astoria, N. Y.—Adv.

When party control of the legislative branch changes, the government falls. Reversal at the polls of the party in control of the government is interpreted as popular disapproval of the party's policies and the government is speedily changed that it may be in harmony with the lawmaking power. Read the appeal of President Wilson appearing on the second page of this impression of The Sun.—Adv.

THAT TRIP WITH YOUR CAR

Often proves the most enjoyable you can take. Go when you like, stop when the notion strikes you and remain as long and where you please. Or, you can spin for hours, through miles of lovely country, enjoying every minute of the time.

But, be sure you have a good car—one that may be depended upon to almost run itself, and your trip will be a real vacation, one that you will remember long and long to repeat.

An Oakland, Overland or Willys-Knight is sturdy, easy running and safe and is ideal for touring. See us about it soon, before the touring season is too far gone. We handle the International truck, we think, the best made.

Vigila-Bonomo Bldg., Price, Utah

"Spokes"—and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim—and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and fresh; and who knows that if he doesn't do it, his competitor will.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes were done away with?
