

### SHEPHERDER CUTS WIDE SWATH

Burns Money and Red Fire in Mad Career.

ENDS WITH A MARRIAGE

WINE, WOMEN AND AUTOMOBILES ARE PRELIMINARIES.

After painting the town a bright red for three days and "burning" money at a rate that made the natives stand against, William Evans, the "shepherd-herd" from Montana, ended his wild career Wednesday night by getting married.

Not for many a day has the sporting fraternity of Salt Lake seen such a spender, and for the past three days he has left a trail of "fire" behind him wherever he went. It was estimated that during his short stay in this city Evans went through about \$2,500, the earnings of several years as a shepherd.

First Dons Loud Suit. Evans arrived in Salt Lake on Monday. Instead of driving up to a fashionable hotel in his old clothes he quietly sought out a room at a Second South street rooming house and deposited his "effects," which consisted of a roll of bedding and an extra pair of boots.

Rides Around in Automobiles. Automobiles made a big hit with Evans, and he was seen to get out his chartered "red devil" and ride till early dawn. He scorned to sleep, and not once during the time he was here did he seek the "feathers," although it is claimed that he did fall asleep once at a roulette wheel.

TRIES TO STAB A BROTHER. Carl Warr Objects to Being Asked to Pay His Board.

Carl Warr, who was tried for his sanity some months ago and deemed by the examining physicians to be of sound mind, attempted to stab his brother, George Warr, yesterday afternoon because the latter insisted upon his paying his board and in that manner helping to support the family.

TRAVEL ON SPECIAL TRAIN. Twelfth Infantry Leaves for Fort Riley Saturday Morning.

Fort Douglas will be represented at the army field maneuvers at Fort Riley by four companies from the Twelfth Infantry. They will be A, B, C and D. The command will consist of fourteen officers and 25 men.

LIKE AN ELEVATOR. Food Sends One Up or Down.

Health depends on food more than on anything else and particularly where one gets but little exercise care must be used not to eat greasy, pasty, starchy foods that do not nourish but cause trouble.

FREE TO WEAK MEN. DO YOU ADMIRE PHYSICAL PERFECTION IN MAN OR WOMAN?

Notes of the Fair. Miss Bessie Henry, the young Iowa artist, sketched nearly a score of animals on the fair grounds for some half dozen of the leading stockmen, and her work will be reproduced in colors on canvas later.

PURCHASE OF SILVER. Washington, Oct. 8.—The mint purchased today 420,000 ounces of silver for account of Philippine coinage at an average of 57.78 cents an ounce, delivered in San Francisco.

KILLED IN A MINE. Butte, Mont., Oct. 8.—Jerry Combs was killed and James Lewis badly injured on the 1,300 level of the Parrot mine today. It is thought the men were standing on a crossbar in the shaft and were caught by the descending cage.

### BEARS STEELY ON LAST DAY OF FAIR

One Breaks Into Crowd and Another Attempts Suicide.

EXPOSITION COMES TO CLOSE

FINANCIAL STATEMENT SHOWS A BALANCE ON RIGHT SIDE.

While it had not been announced, yesterday—the last day of the state fair—was bear day, and those animals played their parts well. About noon, while the cub belonging to the Stenzel Fur company was enjoying an airing west of the main hall, he slipped his collar and at once was seized with a roving disposition. He was also seized about the same time by E. Brown, his keeper.

Another Bear Tries Suicide. When the news of this event spread over the grounds, one of the two cubs belonging to E. Mehesy, which were secured by the Midway, took a desperate leap from the top of a "good-bye proud world" manner made a leap for death. The bear was rescued by spectators and soon recovered.

Fair Comes to End. The twenty-sixth annual exhibition of the Desert Agricultural & Manufacturing society closed last night. "All's well that ends well," the fair that has just ended was a success.

Parade in Downtown Streets. The management exceeded the attractions announced yesterday by giving a parade at noon through the business part of the city, in which were in line fully a score of the principal prize winning horses.

Notes of the Fair. The officers and directors held an informal meeting that in warmth and good fellowship approached a love feast. They congratulated themselves that the meeting, the success of which had been threatened by continued rains during the first days of the fair.

Notes of the Fair. The officers of the fair are already considering ways and means for making the exhibition next year even better than the one this year. The questions of better races by connecting with a race circuit, a revision of the catalogue, and the erection of new buildings will all in time be given attention.

Notes of the Fair. The officers of the fair are already considering ways and means for making the exhibition next year even better than the one this year. ### NEW ROOF FOR THE TABERNACLE

First Presidency Has Improvements Under Contemplation.

CHANGE WOOD FOR STEEL

NO ALTERATIONS PLANNED FOR BODY OF HOUSE.

A partial rebuilding of the tabernacle is under contemplation by the first presidency of the Mormon church. It is proposed to put a new roof on the historic structure that has been the meeting place of hundreds of thousands of devout adherents to the faith and the object of curious observation on the part of many hundreds of thousands of visitors.

When the tabernacle was built, in the '60s, nails cost such an high price that the immense timbers were fastened with things made of deer hide to save expense. These great pieces of wood have been in place since 1867 without a change, the building having been in course of construction from 1864 to 1867. In the time of President Wilford Woodruff the rebuilding of the tabernacle was first agitated, and Architect Don Carlos Young was asked to submit plans for the change. Nothing was done at that time.

Since then the subject has been taken up from time to time without results, and now, under the regime of President Joseph F. Smith, it is again under favorable consideration. There is a strong probability that the improvement will be ordered. It is understood that there will be no essential change in the body of the structure. The red sandstone walls will remain the same. The dimensions will remain the same—250 feet long, 150 feet wide, and 80 feet high. The organ will be untouched and the seating arrangements will not be altered. The only essential difference, if the plans are carried out, will be the substitution of steel beams for wood in the roof.

HORSE NEEDS NO DRIVER. Intelligent Animal at Work on New Telephone Building.

A horse which does not require the services of a driver is the attraction at the new telephone building, on State street near South. First of the day hundreds of persons stop and "rubber" at the animal as he performs his duties with no one near to direct his actions.

AN ABSOLUTE NECESSITY. So Thinks at Least One Traveling Man.

I would as soon think of starting out without my medicine bottle and grip as to start out on a trip without a box of Stuart's Dyspepsia Tablets in my valise, said a traveling man who represents a St. Louis hardware house. Why? Because I have to put up at all kinds of hotels and boarding houses. I have to eat good, bad and indifferent food at all hours of the day and night, and I don't believe any man's stomach will stand that sort of thing without protest, anyway I know mine won't. It has to have something to break the fall and Stuart's Dyspepsia Tablets is the crutch I fall back on.

My friends often "josh" me about it, tell me I'm an easy mark for patent medicine fakirs, that advertised medicines are humbugs, etc., but I notice that they are nearly always complaining of their aches and pains and poor digestion, while I can stand most any old kind of fare and feel good and ready for my work when it needs me, and I believe I owe my good digestion and sound health to the daily, regular use of Stuart's Dyspepsia Tablets, year in and year out, and all the "joshing" in the world will never convince me to the contrary.

I used to have heartburn about three times a day and a headache about three or four times a week, and after standing for this for four or five years I began to look around for a crutch and found it when my doctor told me the best investment I could make would be a 50-cent box of Stuart's Dyspepsia Tablets, and I have invested about 50 cents a month for them ever since and I find I can stand anything. They praise their helpers who had given such loyal aid, and the peace officers who had maintained such uniformly excellent order on the grounds.

A. Empey that only one arrest had been necessary on the grounds, and that was for the trivial offense of trying to sell spurious jewelry, and that there had not been a single robbery or an attempt at swindling on the grounds.

NOTES OF THE FAIR. Miss Bessie Henry, the young Iowa artist, sketched nearly a score of animals on the fair grounds for some half dozen of the leading stockmen, and her work will be reproduced in colors on canvas later.

A good part of the Midway attractions, including the balloonists, will attend the Idaho fair at Boise.

The officers of the fair are already considering ways and means for making the exhibition next year even better than the one this year. The questions of better races by connecting with a race circuit, a revision of the catalogue, and the erection of new buildings will all in time be given attention.

FREE TO WEAK MEN. DO YOU ADMIRE PHYSICAL PERFECTION IN MAN OR WOMAN? Would you like to feel as if you could muscle a lion? Let me send you a most interesting book telling how you can be made to feel like a Samson. All human weakness comes from a loss of electricity from the body. My electric belt restores it, and my book tells of the gladdening effect it has on you. Cut this ad. out and send it. I'll mail the book, sealed, free. Write today. DR. M. B. McLAUGHLIN, 631 Sixteenth Street, Denver, Colo.

## HART SCHAFFNER & MARX

MAKERS OF FINE CLOTHES FOR MEN

CHICAGO (VAN BUREN & MARKET STS.) & NEW YORK (BROADWAY & THIRD ST.)

Richardson & Adams, Salt Lake City, Utah.

Gentlemen:

We have made a discovery in collar making; perhaps we should call it an invention. It is the most important improvement in clothes-making in many years; we consider it so good we have applied for a patent on it.

Overcoat collars have been a cause of some trouble both to makers and dealers; especially velvet collars. In spite of the utmost care in tailoring, collars would sometimes "break", or curl up at the edge after a short time; and the result was, both maker and dealer had complaining customers to deal with.

Now we have perfectly solved that problem; we make our overcoat collars by our new patented method. Judging by the tests we have given them, we believe no amount of wear will induce one of these collars to lose shape. It isn't merely theory with us; or simply "saying so;" the new collar is right, and it won't go wrong.

All our overcoats are now made with the H S & M Improved Collar. You will find on each overcoat a small tag stating that it has the new collar; that we guarantee the collar to retain its perfect shape; and that we will replace free any that go wrong. This is in addition to our general guarantee on all our clothing. So far as collars are concerned it makes you and your customer doubly safe.

Yours truly,

*Hart Schaffner & Marx*
