STEADY DECLINE ON EXCHANGE

Reaction at Midday Forces Popular Issues Under Morning Quotations

NEW YORK, May 11.—Stocks were quiet and irregular at the opening of today's session, denoting further confusion of a speculative sentiment. Mexican Petroleum at a gain of 1 3-8 and United States Rubber at a decline of 1 point were the only issues to record more than fractional changes. Shippings, rails and sugars were disposed to improve, but coppers and textiles easted with popular steels. The general list became reactionary with the first half hour, however, when pressure against steels and motors became more insistent.

Aside from oils, which continued to sustained by further advances of products, the market retained all of its recent narrow and uncertain characteristics. Developments in the industrial situation seemed to offer little inducement to traders and high grade rails fell 1 to 2 points on small offerings. Steels, equipmeins and motors again bore the brunt of the early selling, but revived slightly before noon. Shippings and sugars registered substantial gains. Call money was plentiful at seven per cent and foreign exchange strengthened, marks or bills on Germany rising to a level well over two cents.

Another reaction at midday forced popular issues under lowest quotations of the morning. Steels, equipments, motors and oils were 2 to 4 points under yesterday's final prices. Call loans remained easy and foreign exchange continued to move against this country.

CHICAGO GRAIN.

CHICAGO, May 11.—Corn prices today rose to a new high level for the crop. Wet weather was chiefly responsible for the upturn. Later, however, the market weakened owing to a notice issued by the vice president of a railroad that in distribution of cars during the next ten days the preference would be given to loading of grain. Initial quotations, which ranged from 1-2c decline to 1 1-8c advance, with July $1.75 1-4 to $1.75 1-2 and September $1.63 1-2 to $1.64, were followed by a setback all around to well below yesterday's finish.

Oats like corn developed weakness notwithstanding a firm start. After opening unchanged to 1c higher, with July 94 to 94 1-4c, the market sagged below yesterday's close.

Provisions were easier with grain and hogs. Trading was of only a scattered sort.

BIG BONUS FOR SUGAR WORKERS

Record in Extra Pay For Hawaiian Plantation Laborers

HONOLULU, T. H., May 10.—The April bonus to be paid to workers on the sugar plantations of Hawaii will be 294 percent, according to estimates in sugar circles. Of this 220 percent will be paid along with the monthly wages and the remaining 74 per cent held until the end of the year.

The April bonus will be the largest ever paid to laborers on Hawaiian sugar plantations. Last year's bonus overaged 92 percent and that of 1918 was 78 percent.

In estimating the bonus the planters take the average price of sugar from March 16 to April 15 as a basis. The average price for that period was 14.-106 cents per pound.

The April bonus is calculated to be about three times the regular wages of the workers.

No change is reported in the Oahu Island strike situation. The planters have reiterated their determination not to compromise and the Japanese Federation of Labor has just announced that its members are standing firm for their increased wage demand. The federation stated that only seventy of its members had broken from the ranks and returned to work in order to share in the heavy wage bonus being paid on the plantations.

HIGH COST OF EDUCATION A MENACE TO DEMOCRACY

(By International News Service)

LEXINGTON, Ky., The increased cost of education is a menace to democracy, Dr. Frank L. McVay president of the University of Kentucky, said in a report of educational conditions made public here. The majority of American boys and girls that have born qualities of leadership come from homes with small incomes, the report declares, and the high cost of going to college is preventing the training necessary to their success, thereby depriving the nation of good leadership.

The cost of high education has doubled in recent years the report shows.
