### LABOR DEMANDS A. F. L. APPROVAL ARE SUBMITTED OF COVENANT IS TO REPUBLICANS HOTLY OPPOSED

Oppose U. S. Industrial Courts, Irish Sympathizers at Labor Convention Say It Would Secure British Areas

CHICAGO, June 9.—Vigorous opposition to federal legislation similar to the Kansas industrial court measure, to unrestricted immigration and to the use of injunction proceedings in strikes was contained in a set of demands which Samuel Gompers and Matthews A. Wolf, of the American Federation of Labor submitted today to the resolutions committee of the Republican national convention. "It is essential," said the statement, "that additional legislation regulating immigration should be enacted based on two fundamental principles, namely that the flow of immigration must not at any time exceed the nation's ability to assimilate and Americanize foreigners coming to our shores and that at no time shall immigration be permitted when there exists an appreciable degree of unemployment."

Other demands included: Immediate relief from high cost of living burdens; extension of the farm loan act to give credit to all properly organized farmers; issuance of a monthly statement by the department of labor on the cost of manufacture of staple articles; prompt federal investigation of price and wage increases and other returns; observance, enforcement and extension of the federal maximum eight hour law in all civil departments of the government; revision of the federal compensation law to care for those not reached by state laws as well as sufferers from industrial accidents and occupational diseases; exclusion from interstate commerce of products of convict labor; repeal of the labor provisions of the Espionage law; direct election of federal judges by the people for terms not exceeding six years and action to prevent federal legislation being held unconstitutional.

The statement also declared against the employment of force by the states in Mexico to compel Mexicans to meet the demands of persons who purport to "exploit" Mexico's resources.
