Von Bernstorff, Albert and Other German Agents Try to Buy Up All Chemicals in America.

WASHINGTON, Oct. 18.—Further disclosures of the efforts of Count von Bernstorff, Dr. Heinrich F. Albert and other German agents to prevent the manufacture and shipment of munitions to the allies, were made today by the alien property custodian, A. Mitchell Palmer. He revealed the workings of the Chemical Exchange association, organized by Dr. Hugo Schweitzer in 1915 to buy up all available carbolic acid in America and prevent its use in the manufacture of trinitrotoluol and other high explosives by converting it into harmless pharmaceutical products. The story of the Chemical Exchange association, Mr. Palmer said, was unearthed by Francis P. Garvan, director of the bureau of investigation, in his investigation of the German-owned chemical companies in this country which have been taken over by the alien property custodian. He found that Dr. Albert, in conjunction with Count von Bernstorff, arranged with Dr. Hugo Schweitzer, a naturalized American and a chemist of the Bayer company, to prepare and carry out plans which would prevent the shipment of carbolic acid to the allies and to American munitions manufacturers making high explosives for them.

The Heyden Chemical works, of 135 William street, New York, and the Bayer company of 117 Hudson street, New York, both of which have been taken over by Mr. Palmer, were the two chemical concerns through which Dr. Schweitzer arranged to carry out his plans, according to the alien property custodian.

Edison Invents Acid. "In 1915," said Mr. Palmer, "Thomas A. Edison invented a synthetic carbolic acid, of which the American Oil and Supply company of Newark became the selling agent. Comparatively little carbolic acid was purchasable at this time. Dr. Schweitzer immediately set out to control this supply and on June 22, 1915, entered into a contract with the American Oil and Supply company whereby this company agreed to ship 6000 pounds of carbolic acid each working day from July 1, 1915, to December 31, 1915, and four thousand pounds each working day from January 1, 1916, to March 31, 1916, at a price nearly double the usual market price. Dr. Schweitzer used \$100,000 in cash which was furnished by Dr. Albert, as security for the faithful performance on this contract, and a \$25,000 surety bond.

Schweitzer Avoids Own Name. "To obviate doing business in his own name, Schweitzer organized the Chemical Exchange association. This association was a co-partnership, comprising Dr. Schweitzer and Richard Kny, father-in-law of George Simon, business manager of the Heyden Chemical works, Muller, Schall and company of 45 William street, New York, were the sole agents for Dr. Schweitzer.

"Every effort was made by Schweitzer and Kny to keep their contract secret and to prevent the American people from knowing that Albert and the German government were making this contract. In the meantime the American Oil and Supply company delivered large quantities of carbolic acid to the Heyden Chemical works which was converted into harmless pharmaceutical preparations and sold. The net profit on this deal was \$16,000, which Richard Kny told Mr. Garvan was divided equally between himself and Dr. Schweitzer.

The investigation showed that on June 23, 1915, the day after Schweitzer entered into his contract with the American Oil and Supply company, G. Amsinck and company, bankers, wrote Dr. Albert stating that they had received imperial German government certificates, due January 1, 1916, as collateral for which they placed at the disposal of Dr. Albert a drawing account of \$300,000. G. Amsinck and company, acting upon the instructions of Dr. Albert, gave their check to Dr. Schweitzer for \$100,000, which they charged to the account of Dr. Albert. This was the \$100,000 which Schweitzer posted as a forfeit with the American Oil and Supply company, guaranteeing the fulfillment of his contract.

To celebrate the success of the scheme, Mr. Palmer said, Dr. Schweitzer and Richard Kny gave a dinner to Dr. Albert at the Hotel Astor in New York in the latter part of 1915 and presented him with a loving cup. Captain Wolf von Izel of the German embassy, was among the guests.

AUSTRIAN RULER ISSUES A PAPER

Believes Peace Is Coming and Promises Changes in Government to His People.

VIENNA, Oct. 18. Via Basel, Switzerland.—The Austrian emperor has issued the following manifesto:

"To my faithful Austrian peoples: "Since I have ascended the throne I tried to make it my duty to assure to all my peoples the peace so ardently desired and to point the way to the Austrian peoples of a prosperous development unhampered by obstacles which brutal forces create against intellectual and economic prosperity.

"The terrible struggles in the world war have thus far made the work of peace impossible. The heavy sacrifice of the war should assure to us an honorable peace on the threshold of which, by the help of God, we are today.

"We must, therefore, undertake without delay the reorganization of our country on a natural and, therefore, solid basis. Such a question demands that the desires of the Austrian peoples be harmonized and realized.

"I am decided to accomplish this work with the free collaboration of my peoples in the spirit and principles which our allied monarchs have adopted in their offer of peace.

"Austria must become, in conformity with the will of its people, a confederate state in which each national-ity shall form on the territory which it occupies under local autonomy.

"This does not mean that we are already envisaging the union of the Polish territories of Austria with the independent Polish state.

"The city of Trieste with all its surroundings shall, in conformity with the desire of its population, be treated separately."

CHILDREN TO AID COAL PRODUCTION

GREENSBURG, Pa., Oct. 18.—Sixty thousand Westmoreland county school children are to be enrolled in the coal production campaign. Every boy and girl in the public and parochial schools of the district were today urged by teachers to use their influence to keep every miner at work six days each week and to appeal to their fathers, brothers and friends to produce a greater coal tonnage.

Sixteen hundred public school teachers today received a request from Robert S. Shaw, county superintendent, asking them to urge the cause of coal production in the schools. Similar letters went to parochial school teachers from Father Gilbert. In every school in the county an appeal from James S. Amend, district production manager, was read to the children. Each child was asked to take home the appeal for increased production and tomorrow will be asked the result of his appeal. Then will come daily production talks by the teachers.

These appeals to the children will be made throughout the school year. "While you cannot go to the trenches, you can do something right here at home to help win the war."

Amend said in his appeal to the children, "Your government has asked every mine in the United States to use his pick as a weapon to defeat the Kaiser. Every ton of coal means more soldiers to France to fight for a free world. Every ton of coal means that your brothers and fathers and friends who are fighting over there will keep warm and be properly fed this winter. It means clothing, fuel and ammunition for the guns.

"If the children of Westmoreland county do their duty in this war, they will help defeat the German rule that has meant suffering and sorrow to hundreds of thousands of children in Europe. If you fail, the big brothers, the cousins and fathers who are fighting for you are in danger."

Judge Clayton Makes a Drastic Ruling in Cases

NEW YORK, Oct. 18.—An attempt by counsel for five men and a woman, charged with distributing alleged seditious literature, to make authenticity of the committee on public information "Sisson papers" an issue in their defense came to naught through a ruling by Judge Clayton in the federal court.

In refusing to permit questioning of Raymond Robins, head of the American Red Cross mission to Russia, as to his knowledge of the Sisson papers, the court held that all such questions were immaterial.

"I have enough to do to try these defendants without trying Lenine and Trotsky too," Judge Clayton remarked, adding that the justice or injustice of the Bolshevik cause had nothing to do with the alleged offense of the sextet on trial in slurring the president and criticizing the government in connection with American activities in Russia."

Admiral Keyes Withdraws to Save Ostend Inhabitants

LONDON, Oct. 18.—Admiral Keyes' entry into Ostend yesterday was made in the course of operations designed to clear the military situation between Nieupoort and Ostend which was obscure, the admiralty announced today.

The naval force withdrew when the Germans, who were not clear of the town, began shelling the warships.

The withdrawal was for the purpose of saving the lives of civilians and also further bombardment of the town by the Germans as German shells were falling close to a crowd of excited inhabitants.

Polish Delegates Find the Kaiser Much Depressed

PARIS, Oct. 18.—Prince Radziwill and Count Roniker, the Polish delegates who went to the German emperor's headquarters last August to present to him Poland's claims, were much struck by the monarch's depression and indifference, says the Matin. Emperor William consented readily to demands, the newspaper adds, which ought to have appeared very excessive to him.

"Not only did he agree to the creation of an integral and independent Poland," the Matin continues, "but he let pass no protests allusions to Posen and acquiesced when the delegates spoke to him regarding a sea outlet for Poland at the expense of East Prussia.

TURKS OFFER NO SERIOUS DEFENSE

It is reported that a force of 12,000 Turkish soldiers is being concentrated at Aleppo under General Liman von Sanders. British forces are north of Homs, 100 miles south of Aleppo.

Tax Rate Doubled By House Committee

WASHINGTON, Oct. 18.—In fixing the 12 per cent flat tax the committee doubled the present rate. Senator Simmons explained that unless the amendment corporations would be permitted to retain for the operation of their business a part of their earnings exempt from an additional tax. It is the committee's purpose, he said, to authorize the secretary of the treasury to determine whether the amount retained by a corporation for this purpose is excessive.

The committee also amended the house provision of amortization in war industries so as to include shipbuilding. House provisions exempting from taxation of insurance companies or telephone companies the income of which consist of assessments for the purpose only of paying expenses, was accepted unchanged.

LIQUOR DEALERS RESTRICT SALES TO AID COAL DRIVE

The wholesale and retail liquor dealers of DuBois, in the bituminous fields of Central Pennsylvania, have joined in the coal drive launched by the United States Fuel Administration. Recognizing that excessive drinking on the part of miners would interfere with the maintenance of production quotas, they unanimously agreed to refuse intoxicants to all "pay-day drunks" and to police their own places. The wholesalers will cease shipments to all dry territory in the coal fields. The local "speakeasies" will be shut off from their supplies, the wholesalers agreeing to sell liquor only to licensed dealers hereafter.
