

RECREATION HUTS TO REPLACE THE SALOON PLANNED

CHICAGO, April 4.—"Recreation huts" to replace the saloon as a gathering place will be established soon by the Salvation Army in the large cities of the western states, according to an announcement by Thomas Estill, commander of the organization in the western district.

Catarrhal Deafness and Head Noises

TELLS SAFE AND SIMPLE WAY TO TREAT AND RELIEVE AT HOME.

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost.

General Blanquet Famous in the Madero Revolution

NEW YORK, April 3.—The Diaz forces are officially known as the national re-organization army of Mexico. Mr. Gayon states that they now control three small ports, Tonala, Tuxpan and Nautia, the latter being captured about a month ago.

After the "coup" of General Felix Diaz and Mondragon, General Blanquet, by command of General Huerta, arrested Francisco I. Madero and his cabinet at the national palace in Mexico City, and Huerta became provisional president. Blanquet became minister of war in the Huerta cabinet. In July, 1914, he became vice-president of Mexico.

The success of the constitutionalist forces under Carranza in 1914 resulted in Huerta and Blanquet being driven into exile. After a few weeks sojourn in Jamaica they went to England and then made their way to Spain.

In Spain Huerta and Blanquet were reported to have had political differences which caused a severance of their relations. Blanquet, Mr. Gayon said, took no part in the revolutionary uprising planned by Huerta after the latter's exile. Blanquet subsequently returned to New York where he has since made his home.

PRECEDENT FOR BORAH. Washington never rode on a railroad train, yet it is not recorded that Senator Borah ever refused his 29 cents mileage.—Charleston News and Courier.

For Colds, Grip and Influenza

Take "Laxative Bromo Quinine Tablets"

Be sure you get the Genuine Look for this signature

E. W. Grove on the box. 30c.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirly feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quartet pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Advertisement.

AMERICAN MINERS WILL STAND BY BRITISH WORKERS

INDIANAPOLIS, Ind., April 3.—American miners will stand "shoulder to shoulder" with the miners of Great Britain on the question of wages and working conditions, according to Frank Farrington, president of the Illinois district of the United Mine Workers of America.

Mr. Farrington made the statement in explaining the objects of the three principal recommendations recently embodied in the report of the general policy committee of the United Mine Workers, which call for increased wages, shorter hours and nationalization of mines. The recommendations, which were made by Frank J. Hayes, international president, serve as notice to the United States government as well as the British government that the attitude of Great Britain miners is reflected in America, Mr. Farrington said.

He added that only through nationalization of mines could a six-hour day, a five-day week and increased wages be brought about.

OIL PRODUCTION IN OKLAHOMA IN 1918 VALUABLE

OKLAHOMA CITY, April 2.—Oil production in Oklahoma in 1918 averaged 204,650 barrels a day with a daily commercial value of \$500,000 based on present prices, according to the report of the state oil and gas conservation commission. The report gives the first oil production total announced by any state for 1918. The Tulsa district still leads in oil production, with a daily average for the year of 66,000 barrels, the report states.

The report says the state also produced for commercial purposes 56,377,645,561 cubic feet of natural gas in 1918 and "mudded in" or conserved for future use 32,780,536,600 cubic feet. In natural gas production, the Blackwell-Garber district led with a total of more than 27,000,000,000 feet in 1918.

There are now 23,561 wells in Oklahoma producing oil or gas, the commission reported.

Relief Ship Has Arrived at One of Russian Ports

ECONOMIA, Russia, Tuesday, April 1.—(By The Associated Press)—One of the most herculean tasks in the supply of the north Russian expeditionary force with much needed war material was accomplished today with the arrival at Economia, which is the winter port of Archangel, of the largest vessel which ever passed successfully through the thick ice floes of the White sea.

Escorted by three ice breakers, a five-thousand-ton British freight vessel has arrived, only slightly damaged after a difficult three weeks voyage from Murmansk. Several times the vessel was hemmed in where the ice drifts piled high. At one spot it was stuck in the ice floes for nearly a week but the ice breakers finally succeeded in smashing a path ahead for it.

IN AIDING "OWN YOUR OWN HOME" CAMPAIGN IN U. S. WASHINGTON, April 3.—Plans for dwellings prepared by the U. S. housing corporation for building homes in congested industrial centers during the war, are to be made available for general public use. The department of labor announced today that types of homes would be given to "Own Your Own Home" committees, promoting building activities in forty cities. In the department's effort to expand the home ownership campaign, letters were sent today to municipal officials, labor leaders and club organizations in 400 cities, urging the beginning of local campaigns.

PROMPT RELIEF FOR MONTENEGRO BEING URGED

NEW YORK, April 3.—Prompt relief for the people of Montenegro who are officially reported to be dying from starvation is urged in a letter written by Alexander Devine, an English friend of Montenegro, to Herbert C. Hoover, the food administrator in Paris, a copy of which has been received here. In his letter Mr. Devine charged that there had been "very gross unfairness to Montenegro in the endless delays and obstacles which had been placed in my way" in efforts to obtain relief for the Montenegrins.

Mr. Devine wrote that he first appealed to the British authorities in behalf of the Montenegrins in 1916 but that up to the signing of the armistice, "not as much as a grain of rice ever was permitted to enter Montenegro." After the armistice he renewed his efforts and finally was referred to Mr. Hoover in Paris but for two months was unable to obtain a passport to go to Paris and see him and Colonel Anderson of the American Red Cross. Finally, Mr. Devine wrote he had arrived in Paris to find Mr. Hoover absent. Meanwhile, he declared, American relief ships had arrived at Cattaro but "the relief fell into the hands of the Serbians and aided them in the political purposes against king and country." These delays and obstacles, Mr. Devine told Mr. Hoover, demonstrated unfairness to Montenegro and, he added, "I have no sense of having obtained justice during these long weary months of waiting."

Since Mr. Devine's letter was written, a commission has been sent to Montenegro by the American peace delegation in France and has reported that the situation in Montenegro is desperate and the people actually dying from starvation. The American Red Cross has been trying to supply them with food.

HERE'S RELIEF FOR YOUR COLD!

Dr. King's New Discovery helps to bring the desired quick relief

It holds a record of fifty continuous years of relieving—promptly and pleasantly—the usual winter colds.

It holds a following of armies of regular users in whose family medicine cabinets Dr. King's New Discovery is the watchword for cold and cough correction.

—the health-promoting properties of active bowels, these are yours when you occasionally take Dr. King's New Life Pills keep the stomach sweet, the breath untinged, the system cleansed. Gentle but positive in action. Sold everywhere. 25c.—Advertisement.

South America Buys Furniture

More than a million dollars worth of furniture is imported annually by the West Coast countries of South America—Chile, Peru, Ecuador, and Bolivia—and there is to be an increase as soon as normal conditions are restored. A report issued today by the bureau of foreign and domestic commerce, department of commerce states that a great many of the inhabitants have accumulated money during the war and that they will buy high-grade, very ornate furniture as soon as they can get it.

Unfortunately only medium-priced and cheap furniture has been imported from the United States in the past, all of the high-grade product coming from Europe. This has created the impression that American furniture is inferior, and it is urged that steps be taken to improve this impression as quickly as possible. The high-grade market is well worth trying for as the wealthy people pay very high prices for what they want. It is not unusual for newly married couples to put off buying furniture until they get to Europe on their honeymoon, when they go in for the best to be had.

Chile is the best market for furniture on the west coast, and the styles demanded range from the simplest patterns to highly ornate Louis XVI designs, which are most admired. The best grades of Louis XVI furniture sell for \$1,500 to \$2,000 per suite. Marble tops are insisted upon for many pieces.

MASKS IN SOUTH WALES. SIDNEY, N. S. W., April 3.—(Via Montreal)—Owing to a serious recurrence of influenza, the new South Wales government has again ordered the wearing of masks in public places.

We would probably find our crosses just as hard to bear were we permitted to select them ourselves.

DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gave His Patient

Bedford, Ohio.—"I was in a pitiful condition, weak, nervous and run down so I could not do my housework. I had doctored for years and tried everything under the sun. A friend told me about Vinol. I asked my doctor about it, and he replied, 'It certainly is the best medicine that can be had today. I couldn't give you any better.' I took it, and today I am as well and strong as any woman could wish to be, and it was Vinol that saved me."—Mrs. Frank A. Horkey, Ash St., Bedford, Ohio.

We guarantee this famous cod liver and iron tonic for all such conditions.

Culley Drug Co., and druggists everywhere.—Advertisement.

BAKER COMMENTS ON CHAMBERLAIN

WASHINGTON, April 3.—Commenting on what he termed "the very intemperate speech" of Senator Chamberlain, retiring chairman of the senate military committee, delivered last night at Natchez, Miss., in connection with the Ansell-Crowder court martial controversy, Secretary Baker said today that in three years as secretary of war he could not recall a single instance in which he had received a helpful suggestion from Senator Chamberlain or one which seemed intended to be helpful.

"I am perfectly willing," the secretary added, "to let the people of the county decide between what the war department has done in three years and what Senator Chamberlain has said in three years."

Baker Calls for Specific Details.

LINCOLN, Neb., April 3.—Gov. Samuel R. McKelvie who recently sent a letter to Secretary of War Baker charging that mentally deranged soldiers discharged from military service were returned to Nebraska hospitals that contain ordinary insane, today was requested by the secretary to furnish specific details, following receipt of which Mr. Baker said an investigation would be made.

The secretary's request was made in a telegram in which he said: "It is the policy of the war department to retain soldiers who have become insane as a result of military service in military hospitals as long as institutional treatment is necessary or until they can be discharged into the custody of the bureau of war risk insurance."

Following receipt of the secretary's telegram Gov. McKelvie said he would furnish the specific information requested. In his recent letter to the secretary the governor said it was his impression that mentally deranged soldiers would be cared for at hospitals especially designed by military authorities. He had added that he was advised of "deplorable circumstances that have developed through the release of insane soldiers who are now in hospitals for the insane in this state."

All Fat People Should Know This

The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and it is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmola Prescription Tablets can now be obtained at all drug stores, or by writing direct to Marmola Co., 864 Woodward Ave., Detroit, Mich., and their reasonable price (75 cents for a large case) leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal proportions.—Advertisement.

Notorious Gunman Returns From France With Envious Record

CAMP UPTON, N. Y., April 2.—"Monk" Eastman, gunman, notorious leader of gangsters who once terrified New York's East Side, now is Private William Delaney, veteran, back from France with an enviable war record. He was honorably discharged from the 10th infantry today and within a few days there will be forwarded to Governor Smith a petition signed by his commanding officers, asking that he be restored to citizenship.

"Monk's" life history is the story of a "comeback." In the old days he was an opium addict, burglar, creature of the slums with ever "a gun on his hip." In 1917 he finished a term for burglary and in October of that year

Clean Up Week April 7th to 12th—East of Washington Ave. to South City Limits. April 14th to 19th—West of Washington Ave. to South City Limits. April 21st to 26th—East and West of Wash. Ave. to North City Limits. All rubbish must be placed on the outside of the property. Wagons will not go into the yards to collect rubbish. Wagons will go over the districts to collect but once. Have your rubbish ready on the days appointed for collection. Don't put rubbish in the gutters. By order of OGDEN CITY BOARD OF HEALTH, GEORGE SHORTEN, Sanitary Inspector.

enlisted, no questions asked. Into war, which has made heroes out of cowards, strong men out of weak, went "Monk." When the 27th division took its place in Flanders "Monk" was there. When the gallant New Yorkers swept forward against the Hindenburg line—and cracked it—"Monk" was in the first wave.

When comrades fell and stretcher bearers were needed, "Monk" volunteered. When carried to a British hospital wounded in the head while leading a bombing squad into the face of machine guns, "Monk" escaped to mount once more the firing step.

These and many more are the facts recounted in the petition signed by Colonel Frank W. Ward, of the 106th, by Major J. Scott Buxton and by Captain James M. Conroy and Lieutenant Joseph A. Kerrigan, "Monk's" immediate superiors, who fought by his side on foreign soil.

Stop Coughing! The simplest and best way to stop coughing is to take

FOLEY'S HONEY-TAR

In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying laxative effect of the honey. It puts a soothing coating on the inflamed tickling throat, allays bronchial irritation, raises phlegm easily, stops hard wearing coughs and nervous hacking.

W. S. Bailey, Lancaster, Ky., writes—"My wife contracted a severe cold, which developed into a chronic bronchitis, and she coughed almost continually. One-half bottle of Foley's Honey and Tar stilled her cough and she rested much better at night. She continued its use until it effected a cure."

WOMAN LEVELS GUN AT SPOUSE; DISARMED

SALT LAKE, April 3.—Pointing a .32-caliber revolver at her husband, Nick Ruga, while he was discussing preparations for an Italian funeral procession with an assemblage of fellow countrymen at his store, 277 West Second South street, yesterday, Mrs. Valereia Ruga, 23 years of age, was alleged to have shot at her husband for the quick action of her husband and two of his friends, who succeeded in disarming the woman before the weapon was discharged, according to Julian Riley, wagon sergeant, who placed Mrs. Ruga under arrest.

The attack is said by the police to be the outgrowth of divorce proceedings started by Mrs. Ruga recently. Ruga alleges he followed the woman to Ogden, Tuesday night, and claims that, after discovering her in a room with another man, he had the couple arrested by the Ogden officers, who subsequently released them on \$50 bail each. Mrs. Ruga, he said, obtained a revolver and threatened revenge.

After the weapon was taken from her at the store, the police assert the woman attempted to slash her husband with a banana knife. In overpowering her several persons in the store are said by the officers to have received numerous bites and cuts. A complaint was issued by the county attorney's office later in the day charging Mrs. Ruga with assault and battery. She will be arraigned Friday.

The man who works himself to death trying to accumulate a fortune only acquires a funeral pile.

FIRST COMPLETE ACCOUNT OF THE RUSS STRUGGLE

LONDON, March 12.—(Correspondence of the Associated Press).—Fresh from Odessa, an Englishman whom the correspondent met at the British press office, has given to the Associated Press the first complete account that has reached London of one of the most remarkable developments of the struggle in Russia against bolshevism.

It is the story of the volunteer army, organized by General Alexieff and now commanded by General Denzine, which in a year has grown from a handful of homeless men, devoid of equipment and supplies, into a military force which has reconquered a large portion of southern and south-eastern Russia, suppressed the disruptive elements in the region occupied and set up a working civil government.

"No one over here," said the traveler, "seems to realize that in the south of Russia there is a small force of men which under the banner of the volunteer army and in the cause of United Free Russia, has made against overwhelming numbers of the 'Red Terror' a most gallant stand."

The volunteer army, he continued, has been recruited from several classes and from every part of Russia. Fighting against great odds, it has paid a big price. Twice it has met defeat in campaigns on the river Kuban, and its losses included its leaders, Alexieff, Korniloff, and 30,000 volunteers and Cossacks.

"The army," he said, "had whole battalions formed of officers. The first Korniloff regiment, now reduced to less than 500 fighters, has had passing through its ranks more than 5000 men. The 'Regiment of Death' has lost 6000 over a similar period.

"To me, an observer, it has been a miracle how the volunteer army ever got any recruits. There was no coercion. The recruits came voluntarily, knowing that their lot was most likely to be a wooded cross or the life of a cripple.

"Today the volunteer army has its own efforts and the help of its neighbors, the Don Cossacks, and holds the territory stretching from the Black sea to the Caspian."

Quinine That Does Not Affect Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 30c.

New England Steam Trawlers Have a Successful Year

BOSTON, April 2.—Raids of German submarines, influenza and a twelve week strike of fishermen on steam trawlers did not prevent 1918 from the most successful season experienced in years by Boston fishing companies, according to the annual report of the Boston fish bureau made public today. Arrivals in 1918 numbered 2830,

bringing 97,176,634 pounds of ground fish and 12,850,987 pounds of other fish, principally mackerel and sword fish. The report says this catch establishes Boston as the world's leading fishing port.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—and apply a little of it night and double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful, clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Advertisement.

HOME FROM JUBILEE SUFFRAGE GATHERING

PROVO, April 2.—Professor Alice Reynolds has just returned from St. Louis, Mo., where she attended the Jubilee Suffrage convention and addressed the gathering. Miss Reynolds reports that the convention was in every way a jubilee and that the women delegates were active and enthusiastic over the progress being made. While the convention was in session presidential suffrage campaigns were in progress in Maine, Minnesota and Missouri and the delegates did all that could be done to further the cause of suffrage in those states.

Endicott-Johnson Has Capital of \$36,000,000 And Employs 12,000

NEW YORK, April 3.—Coincident with news of refinancing by Wall street bankers of the shoe manufacturer firm of Endicott, Johnson and company, came the announcement today that hereafter workers in the company's various factories would divide with the stockholders all profits above a certain percentage reserved for the stocks.

The management is to set aside seven per cent of earnings for the preferred stock, ten per cent for the common and the remainder is to be apportioned equally between employers and common share owners.

The business of the company has been taken over by a new concern called the Endicott-Johnson corporation, with a \$36,000,000 capitalization. It is said that the firm, started in Boston forty-five years ago with a cash capital of \$2800, will be the largest shoe making concern in the world and the next to the largest tanning company. It will own plants in Endicott and Johnson City, N. Y., employing twelve thousand hands, with an approximate daily output of 75,000 pairs of shoes.
