# Violators of Prohibition Law to Be Promptly Brought to Trial

## NATION UNDER DRY BAN

### Time Honored Early Morning "Bracer" Is Banished.

### BEER IS EXEMPT Must Contain No More Than 2.3-4 Per Cent Alcohol.

WASHINGTON, July 1.—The whole nation awoke today to a realization of prohibition. The banishment of the "eye opener" at the bar, long ago forgotten in many parts of the country, was all-embracing. Only those who had been provident enough to "stock up" in advance for the long drought or who could find solace in 2 3/4 per cent brew were able to carry out the time-honored custom of starting the day with an early morning "bracer."

War-time prohibition, banning for time being all distilled liquors and leaving in a cloud of doubt the future of beer, was effective at midnight. Exemption of beer from the list of forbidden beverages came as a result of an eleventh hour announcement by the department of justice that pending decisions in present litigation to determine whether a brew containing 2 3/4 per cent of alcohol is intoxicating, no action would be taken toward stopping the sale of beer containing no more than that amount of alcohol.

Coming of Wilson Only Comfort. Thus, pending court decisions or action by congress defining intoxicating beverages, sale of the lighter drinks will be permitted in states in which there are no regulatory laws until January 16 when constitutional prohibition becomes effective. Other than this, the only ray of comfort left the anti-prohibitionists in the coming of the time when President Wilson will declare demobilization of the army complete, which automatically would suspend operation of the wartime act until January 16.

Only Soft Drinks Sold. NEW YORK, July 1.—Open bars where beverages of 2.75 per cent alcoholic content could be purchased by the drink, offered the only consolation obtainable in New York today to the friends of hard liquor on the first day of wartime prohibition.

## FATAL TRAIN WRECK

### Ten Killed and Many Hurt in Rear-end Collision on N. Y. Central.

DUNKIRK, N. Y., July 1.—Eight persons are known to be dead and more than forty were injured in a rear-end collision between the second section of train No. 41 and train No. 7, known as the "Westerner," at 2:20 o'clock this morning at the Third street station here. All the fatalities occurred in the first passenger car of the rear train, the Westerner, when its engine buckled back through a wooden express car.

Eight bodies were taken from the wreckage and rescuers clearing the debris were working toward what they believed to be two additional bodies. Twenty persons, some seriously injured, were taken to the Brooks Memorial hospital.

As many more passengers were treated by local and out of town doctors and brought here on relief trains. Train No. 41 left Buffalo at 12:01 o'clock. The Westerner left a short time later. Railroad officials say No. 41 developed an overheated journal and was delayed here. A flagman was sent back. It is claimed, but the Westerner did not check speed perceptibly as it rushed into the Dunkirk yards, eye witnesses say.

All the coaches of No. 41 were of steel construction. The rear of the last coach was badly battered as No. 7's engine knocked it from the track, but the body remained intact. Three other coaches of No. 41 were also pushed from the rails but remained upright.

When the tender and engine of the Westerner buckled back through the wooden express car and crashed into a steel day coach, the first passenger car on the train, the boiler exploded, fatally scalding Engineer Clifford and Fireman Stoll.

The steel day coach of the Westerner was reduced to wreckage, and many of the injured were taken from it.

DUNKIRK, N. Y., July 1.—Ten persons were killed and more than a score were injured in a rear-end collision between New York Central trains No. 7, known as the Westerner and the second section of train No. 41, here early today.

## PREMIER AGAIN SEATED

### Ullman Lands at Liban and Resumes Control of Letts.

PARIS, June 30.—After sitting in refuge in an old boat in Liban harbor since April 16, Premier Ullmann, formerly an American university professor, landed triumphantly with his cabinet at Liban on June 27, and resumed control of the Lettish government from which he had been displaced by a man named Needra, who usurped the premiership with German support and who now is under guard in a Liban hotel.

The description of Ullmann's return to power is given in a dispatch received by Herbert Hoover, head of the inter-allied relief organization. British and French officers joined in the celebration in honor of Premier Ullmann's return. As the dilapidated craft approached the city bands played on the docks and children strewed the path with flowers as the old officials made their way to a gaily decorated stand from which Premier Ullmann delivered an address. He thanked the allies for the support given Lettish and said that the United States through the American relief administration had saved thousands of Letts from starving.

NON-PARTISAN WAR PROGRAM IS INVESTIGATED JACKSON, Minn., July 1.—The war program of the Non-Partisan league, withdrawn nearly two years ago in St. Paul was introduced today at the trial of A. C. Townley, president of the National Non-Partisan league and Joseph Gilbert, a league organizer, who are charged with conspiracy to commit disloyalty.

The Minnesota supreme court some time ago decided that the words used in the pamphlet, which had been distributed by the Non-Partisan league were not in themselves disloyal. The prosecution in the present case argued that this pamphlet was one method used by the league to discourage aggressive participation in the war. Judge E. C. Dean ruled, after attorneys for the defense objected to the introduction of the pamphlet, that the document had been referred to at the trial and that it might be admitted as a state exhibit.

## RAID ON FOREIGN QUARTER

Reign of Terror. NEW YORK, June 30.—A graphic story of a reign of terror in Bolsheviki Russia was recited here tonight by John A. Embury, American consul at Omsk, the seat of the Kolchak government, who arrived here today on a leave of absence. Mr. Embury declared no language could adequately picture the scenes of murder, violation of women, theft and arson which he had seen personally, or had had described to him by credible eye witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa by photographs, many of which he declared he had taken himself and which recorded appalling instances of wholesale butchery of men, women and children.

Mr. Embury said he had visited Ufa immediately after the Bolsheviki withdrawal before Kolchak's forces. He learned from survivors of Bolsheviki occupation, he said, that the Bolsheviki soldiers had looted the entire city and then organized a "government" consisting of committees.

One of these committees, he declared, had all members of the city government rounded up and ordered virtually all of them shot.

Pupils at the Ufa high school who did not profess sympathy for the Bolsheviki were shot or put to work of most degrading character. At Omsk, a city of about 30,000, Mr. Embury declared, two thousand bodies were found on the outskirts when the snow melted. Mr. Embury spoke highly of Admiral Kolchak, predicting he would lead Russia out of chaos and disorder and then retire.

"The department does not intend, however, to be swept off its feet the first day that prohibition comes into effect. We will proceed in an orderly fashion to establish whether intoxicating beverages proscribed by the law include those having less than 2 3/4 per cent alcohol."

NEW YORK, July 1.—Saloonkeepers, restaurateurs and hotel men who sell 2.75 per cent beer and light wines do so at their risk, they were warned today by Assistant United States Attorney Ben A. Matthews, in charge of federal criminal cases.

## MEXICO COMMITS OVERT ACT OF CONFISCATION

WASHINGTON, July 1.—The Mexican government has committed an overt act of confiscation in preventing American oil well drillers to work on lands owned by American individuals or companies by sending soldiers into the fields and driving away the workmen, state department officials said today.

The orders to the military forces to prevent drilling by force of arms were issued by President Carranza last May 16, according to advices from Mexico City today. The petroleum department instructed the Mexican war department, by direct orders of Carranza, to use any force necessary to prevent drilling without permit, although the lands on which drilling was done were legally acquired by the present owners.
