## DISABLED SOLDIERS TO BE AIDED BY GOVERNMENT

Disabled soldiers in Ogden and Weber county, who have been discharged from the service and have not yet taken steps to get the benefits of vocational training or their compensation for injuries received in service, will be assisted by Julius B. Mr. Beanson is here and is stopping at the Reed hotel, making his headquarters in room 315. The Home Service bureau of the Weber county Red Cross chapter is cooperating with the federal agent and is looking up and directing to him such men as he has knowledge of who need his services.

Some of them have not yet received their compensation; others have received the compensation due them but have not been given any opportunity to get the benefit of the rehabilitation service through the vocational education work.

In speaking of his work here, which will last today and tomorrow and longer if necessary, Mr. Beanson from monograph No. 1, published for the purpose of providing information to soldiers and sailors on the subject, quoted as follows:

"Through this board and its branch offices Uncle Sam guarantees to every man disabled in the war under circumstances entitling him to benefits of the war-risk insurance act the benefits of such of the following services as he may require: Vocational advice and assistance in selecting a suitable occupation; help on returning to the old occupation again if advisable; support while in training for a new occupation or for greater proficiency in an old occupation; a course of preliminary training; a period of probationary employment; permanent employment in a desirable position; and follow-up work to protect him from mistakes and exploitation."

"For this program Uncle Sam has provided liberal funds. The federal board for vocational education, as his agent, is anxious to get in touch with you and be of every possible help to you in restoring you to civil life and profitable and happy employment in the years to come."

"As soon as the army authorities have decided that any disabled man is to be discharged from the hospital and returned to civilian life, it becomes the duty of the federal board, through its vocational advisers in hospitals, to deal with the problem of training him and of placing him in civilian employment. This task involves five possible steps:

"Election by the disabled man of a course of training.

Preliminary training to fit him for a definite occupation or pursuit.

A probationary period of employment in that occupation or pursuit.

Placement in suitable employment in the occupation or pursuit.

"Follow-up work to safeguard his interests."
