

PEACE TREATY MUST BE SIGNED

Normal Conditions Can Come Only When Definite Settlement Is Made.

GOMPERS' SPEECH

Treaty Not Perfect, But Only Constructive Suggestion for Dealing With World War.

NEW ORLEANS, La., Sept. 22.—Normal industrial conditions can come only when definite peace terms have been agreed to by the leading nations of the world...

Urging prompt ratification of the treaty as an absolute necessity, Mr. Gompers said: "That treaty is not perfect; but it is our only constructive suggestion for dealing with some of the things which cause wars."

Mr. Gompers' address was read in connection with a triangular discussion which marked the opening session of the convention. Festus J. Wade of St. Louis will present the side of capital and Representative Champ Clark of Missouri, will speak from the view of the consumer.

"Co-operation for production depends fundamentally," Mr. Gompers' paper said, "upon good will. Good will must be earned. The only way in which workers may express and defend their rights and interests is through organization and responsible representatives."

"Two fallacies have been so frequently repeated as to be accepted by casual readers and hearers. It is said that requests for increases for wages necessitate increased prices which increase cost of living and in return result in more wage demands vicious circle which leads to no progress. High wages have invariably resulted in constructive changes, beneficial to workers and have resulted in increased production."

The second misstatement used to the discredit of wage earners is that output is deliberately restricted by the organized labor movement and by limitation of hours of work. In many industries production is below pre-war volume. This is not due to labor, but to unsettled trade conditions, managerial policies and high costs of raw materials. Wage earners as well as employers are anxious to end this period.

Later the convention adopted a resolution urging speedy ratification of the peace treaty and the League of Nations covenant "without amendment or reservation."

WORLD'S MARKETS

NEW YORK, Sept. 22.—Industries were among the strongest issues at the irregular opening of today's stock market, dealings reflecting only in moderate degree the ushering in of the steel strike...

Received regarding strike conditions during the morning were favorably interpreted and the market hardened, though showing increased dullness. United States Steel rallied from 100 3/4 to 101 3/4 and allied shares also improved...

The sustained strength of oil, tobacco and food shares carried the market leaders to higher prices at midday. United States Steel advanced to 102, other stocks of the same class also showing marked improvement with standard rails and shippings.

Seidel Plays Wild Gypsy Dances

Gypsy musicians started the dancing craze in Hungary with their famous "Csardas," or tavern dances. Perhaps the most dazzling of this fascinating music is the "Hejre Kati (pronounced High-ratty) Scenes from the Csarda." Toscha Seidel interprets it with irresistible fire. 49630-\$1.50

Grainger Glorifies "Hungarian Fantasy"

Here is the first really great and successful phonograph record of a piano-orchestral classic. In these thrilling, heroic melodies, in the glorious, thunderous chords and the swiftly rippling runs from end to end of the keyboard, Percy Grainger is at his most brilliant best. A-6115-\$1.50

French Army Band Superb in "Arlesienne"

Bizet's exquisite "Arlesienne Suite" must have mightily appealed to these veteran bandmen of the Marne, for they play it as if they love it. As in Bizet's opera Carmen, these melodies are strongly influenced by the composer's study of French and Spanish folk-music.

The 39 new Columbia selections for October include 4 popular songs by Grand Opera and concert stars, 12 other popular songs, 2 band pieces, 2 symphony orchestra selections, 2 saxophone solos, 2 hymns, 1 violin solo, 1 piano solo in 2 parts, 1 novelty record in two parts, and 12 dances.
