SEN. JOHNSON ASSAILS LEAGUE IN LOS ANGELES

LOS ANGELES, Oct. 3.—Addressing an audience of several hundred persons here today at a luncheon tendered him by the Los Angeles league for preservation of American independence, United States Senator Hiram W. Johnson attacked the peace treaty and the league of nations covenant and declared that the United States stands at the cross ways of its destiny. Senator Johnson "to make another address tonight."

The people must decide, he said, whether the United States shall enter into a partnership with "melodorous European and Asiatic diplomacy," or pursue the straight path of pure Americanism.

Senator Johnson was given a demonstrative reception and his address was interrupted many times when his utterances brought the big crowd to its feet cheering and waving handkerchiefs. The senator spoke in the ball room of a hotel, where two weeks ago President Wilson defended the treaty and the league of nations and urged its early ratification.

At the senator's table were gathered many of his friends who were active in the early days of the progressive party, which swept Hiram W. Johnson into office as governor of California.

"We saw the high principles of President Wilson discarded," said Senator Johnson. "We saw altruism gone and idealism buried and we saw open covenants openly arrived at accomplished behind barred doors. We looked to see the removal of economic barriers, we looked to see national armaments reduced but we never heard the semblance of an accomplishment. We saw arbitrary power have its will in the adjustment of world affairs and we saw a defensive and offensive alliance brought about instead of a desired understanding for world peace."

Senator Johnson declared that the treaty represents the understanding of the United States' co-belligerents before this country entered the war. Discussing the Shanghai provisions of the treaty Senator Johnson asserted that America's acceptance of the transfer of Chinese sovereignty of the Shantung peninsula to Japan was a shameful blot on America's honor.

The United States government, the senator continued, invited China to participate in the world war on a promise that China would be taken care of to the extent that the United States became a party to her despoilment. Senator Johnson asserted that the league of nations was denounced by the senator as tantamount to conferring on foreign powers the exercise of America's participation in foreign affairs. Eight men, sitting in Geneva, all foreigners, he said, could and would determine the course of the United States in world quarrels in which this country would be grazed in to assist in the settlement of matters in which she could have no concern.

Senator Johnson said the threat the United States would be isolated if the senate refused to ratify the peace treaty and the covenant was ridiculous. So long as the Atlantic and Pacific oceans remain, said Senator Johnson, the United States could not in any sense remain isolated from any part of the world. And President Wilson cannot dry up these oceans, he said.

SUGAR CONTROL IS ADVOCATED AS A GREAT NECESSITY

WASHINGTON, Oct. 3.—Told by George A. Zabriske, president of the Sugar Equalization board, it was practically certain that, unless some legislative action was taken immediately, sugar prices would increase after January 1, the senate committee investigating the sugar shortage today requested W. A. Glasgow, counsel for the food administration, to formulate legislation designed to alleviate the situation, and to make possible negotiations for purchasing the 1920 Cuban sugar crop.

The committee made its request after Mr. Zabriske had testified that, despite urging by the sugar equalization board, President Wilson had failed to authorize purchase of the Cuban crop and after he, at Chairman McNary's insistence, had presented his correspondence with the president. The Cuban government withdrew its offer of the sugar crop September 23, Zabriske said. He added, however, that means might yet be found to obtain the Cuban sugar, if legislative action could be had immediately. It would be necessary also, he said, to make provision for continuation of the sugar equalization board, which automatically goes out of existence December 31.

The present sugar shortage, the board president said, was due to some extent to the recent marine strike, but more largely to the unusual demand, the American people having consumed 300,000 tons more sugar up to October 1, than normally.

PRESIDENT KEPT IN BED BY A STRICT ORDER

WASHINGTON, Oct. 3.—Reports from the bedside of President Wilson, whose condition during the last 26 hours has been less favorable, indicated no change today and again the president was kept in bed with physicians in constant attendance upon him.

Rear Admiral Cary T. Grayson, his personal physician, let the announcement that the president was "a very sick man" stand throughout the day, issuing only a brief bulletin saying his condition today was "unchanged."

There was another consultation of physicians, and immediate members of the president's family came to the White House to be near him.

Although reticent about details of the condition of the president, those who attended him indicated that his ailment had not yet clearly revealed the extent of its inroads upon his system and that some days might be required to disclose its full effects.

Nervous exhaustion of which he is suffering, complicated with his long standing weakness of the digestive organs, and a lingering touch of last spring's attack of influenza, the doctors say, have considerably weakened the president's powers of resistance.

For a man of his years, however, Mr. Wilson's general physical system is said to be in good condition to withstand the combined attack against which he is now fighting. There have been no intimations of depleted heart action, and the president's mind is declared by his physicians to be so alert that they have had considerable difficulty in keeping his attention diverted from the affairs of his office.

RUSSIANS SEEK TO OBTAIN AN ARMISTICE

PARIS, Oct. 3.—George Tchitcherin, Russian bolshevik foreign minister, in a message sent broadcast by wireless and received here yesterday, says: "Our intentions regarding peace remain the same as when the Bullitt mission arrived. We are ready to make peace at any moment, provided military operations are stopped immediately and the blockade is lifted. We have not imposed, and we do not wish to impose, communism or anybody."

William C. Bullitt, a member of the American peace delegation, in testimony given recently before the senate foreign relations committee, said he had been sent to Russia in February of this year to learn the terms upon which the soviet government would agree to stop fighting and make peace.

The Lenin peace proposals, Mr. Bullitt testified, included, among other things, an armistice for two weeks, subject to extension, raising of the economic blockade, immediate withdrawal from Russian territory of all allied troops, no further military aid to be given to anti-soviet governments and recognition of the responsibility for Russia's foreign debts.

HELENA, Ark., Oct. 3.—Investigation of the disorders which originated near Elaine, 18 miles south of Helena on Tuesday night and have since disturbed various negro centers throughout Phillips county, was started here today by a body of prominent citizens known as the "committee of seven," appointed by the civil authorities with the sanction of Governor Charles Brough.

SENATOR REED CONTINUING HIS ATTACKS

LINCOLN, Neb., Oct. 3.—Speaking at the city auditorium here tonight in opposition to the league of nations, Senator James A. Reed, Democrat, of Missouri, said the league would breed rather than prevent wars.

For the United States to become a party to the league, he asserted, would mean the Americans "would have to pour out their blood in controversies 5,000 miles from our shores." Declaring that President Wilson had said that the assembly of the league was only a "debating society," the Missouri senator described the assembly as a powerful part of the league and declared that it elected four of the nine members of the league's council.

As a member of the league, the United States, Senator Reed asserted, would undertake to respect and preserve against external attack the existing political independence of members of the league.

This, he declared, would be an absolute contract, and the United States would have to defend against attack every member of the league whether "they are right or wrong." If the province of Shantung were given to Japan, Shantung rebelled and China went to her aid the United States would be bound by the contract to "use her blood in the quarrels of those yellow men," the speaker said.
