ROTARIANS GIVEN AN ADDRESS BY MAN FROM IDAHO

Stating that a six-hour day is ridiculous and that increased production and close co-operation on the part of all is necessary to eliminate the United States war debt and thus bring an end to the inflation of prices.

The present unrest needs the calm of Rotary in finding a solution of the high cost of living and the desire to strike.

The solution of these problems will be found in the individual rather than in government action.

Where will it end? is the question heard from every quarter.

Naturally, there is a peak to even the highest mountain, and it is equally certain there will be a peak to this price level.

Not until more goods come on the market will prices begin to start downward.

In the meantime, daily strikes are simply aggravating the very thing against which they are directed.

As for inflation, that can only be overcome by individual saving.

And let us not forget that these bonds must be paid off with work—productive work, honest sweat.

Few of us realize how great a share of our energy went into war during the last two years, and it is not until we translate this twenty thousand millions into labor that we can comprehend it.

During the war, those of us at home frequently were told that the war would be won in the workshops.

Rotarians, let us apply ourselves and encourage others in this great task.

Internal Revenue Tax Collections To Be Thorough

SALT LAKE, Oct. 16.—Victor G. Crossant, assistant superintendent of collectors and representative of the commissioner of internal revenue of Washington, D. C., is in Salt Lake assisting in organizing the internal revenue collector's office for the state of Utah, which is being established in the federal building.

With the establishment of the new offices on the fourth floor in the federal building, the internal revenue office and field force will be increased to forty clerks and deputy collectors.

A zone system will divide the state into various collection districts.

At the head of each zone will be a general deputy with several deputy collectors under him.

The prevention of tax dodging because of the large territory and insufficient number of deputies, some of the western states have been poorly canvassed in the past.

With the establishment of the new bureau, an active drive will be commenced against illegal liquor traffic.

A drive for delinquent income tax payers in the year 1918 will also be started, according to Mr. Dunbar, and for next year's income taxes the office will be even better organized.

Official information just received by Mr. Dunbar outlines the first drive as follows:

An special drive to locate merchants and manufacturers who have followed erroneous methods tending to reduce tax liability is about to be made by the bureau of internal revenue.

In cases of voluntary disclosure before investigation of failure to make return and payment, the policy of the bureau will be to forego penalties, except where there is evidence of evasion of the tax.

In some cases inventories have been found to be taken on a basis of average costs, though it was possible to identify the articles remaining on hand at the inventory period and so determine their exact cost.

Others use a fixed average based upon costs of prior years, or fail to include in their inventory all merchandise to which they have titles.

All of these methods, which have the effect of reducing tax liability, are contrary to the regulations of the bureau and are illustrative of numerous irregularities which have been found.

A warning issued by the bureau advises taxpayers who have followed such methods to file correct returns without notice and without investigation.

President Slowly Gaining Ground

WASHINGTON, Oct. 16.—President Wilson, relieved from the glandular swelling from which he suffered for two days, had a good night's rest last night, said the bulletin issued today by his physicians.

The bulletin follows: "The White House, 11:55 a. m., October 16, 1919.

The discomfort which the president suffered for two days has been relieved to a very great extent. He had a good night. His temperature, pulse, respiration and kidneys function continue normal.

(Signed) "GRAYSON, RUFFIN, STITT."

The White House has not considered cancelling the visit of the king and queen of the Belgians on October 24, Dr. Grayson indicated. He said that the visit was still some time off and that the situation would be met when the time came.

The mayor of Carlisle, England, where Mr. Wilson's father was born, sent the following cablegram to the president today.

Mayor and corporation of Carlisle are very deeply grieved to learn of your illness and earnestly hope that you may soon be restored to usual health to continue great and useful labours in the interests of humanity.

(Signed) "BERTRAM CARR, Mayor."

FLIERS LEAVE RAWLINS. SALT LAKE, Oct. 15.—Three airplanes in the transcontinental air derby, westbound, left Rawlins, Wyo., early this afternoon and are due in this city by 3 o'clock. They are Nos. 32, Roulett, pilot; 38, Torney, pilot, and 44, Kirby, pilot.

A great many uncalled for remarks reach the dead letter office.

Notice Sent to Nations. PARIS, Oct. 15.—(Haves)—The supreme council today approved the text of a ratification to be addressed to the neutral powers which will be asked to join the league of nations, setting forth the conditions under which they may adhere to the covenant of the league.

The council also approved the draft of a note to be sent to Germany demanding the surrender to the allied and associated powers of German ships which were turned over during the war to companies in The Netherlands and which are at present in German ports.

The note declares that the sales are void because of their irregularity. Another draft note to Germany regarding German representations on the subject of the territory of Memel, on the eastern Baltic frontier of Germany, declares that the allies decline to discuss the destiny of Memel with Germany which renounced its rights over this territory by the treaty of Versailles. The solution of this question, it is said, concerns only the allied and associated powers.

You can't stretch your word very far without breaking it.

Richard Barthelmess as 'The Chink' in DW. Griffith's 'Broken Blossoms'

D. W Griffith's 'Broken Blossoms'

SUPPOSE, TODAY, FOR THE FIRST TIME IN THE WORLD, A ROSE BLOOMED IN OGDEN

—No one had ever seen a rose before today. Can you imagine how the beauties of this new wonder would be flashed around the world?

—Imagine if for the first time an airplane flew over Ogden—no one had ever heard of the possibility before, and you saw it for the first time today.

SOMETHING JUST AS WONDERFUL HAS HAPPENED IN OGDEN—DO YOU KNOW ABOUT IT?

—Europe says America never will be a great nation until she develops beauty, art. Our stage plays, they say, go not farther than America; our books are read only by Americans; only one American art is supreme around the world.

—This art, this new budding rose that critic—literary, dramatic and of the arts—have so proclaimed, is "Broken Blossoms," in the presentation of which are welded together painting, photography, the dramatic stage and music.

"BROKEN BLOSSOMS" OVER NIGHT WILL BECOME THE ART SENSATION OF OGDEN

Congress to Be Urged to Aid Foreign Exchange

NEW ORLEANS, La., Oct. 16.—A proposal by American members of the financial group that congress be urged to place a billion dollars at the disposal of the war finance corporation to be used in stabilizing foreign exchange, was referred today to the general committee of the world's cotton conference here with predictions that it would be approved.

The plan calls for the purchase of foreign securities against debentures to be sold in this country avoiding short term banking credits.

British members of the financial group did not vote on the recommendation as it was a matter in which the congress of the United States was involved.

Recommendations of cotton growers were presented in a resolution, including the following points: Diversification of crops and a twelve months marketing system; American export financing corporation endorsed; all gambling in cotton and other necessities of government opposed; price-fixing by government opposed; embargoes and restrictions on cotton in time of peace opposed.

A price for cotton that will cover production and leave a reasonable profit also was demanded.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, care feeling, no undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain. Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.
