

# AMERICAN LEGION STARTS PETITION TO HAVE MERCHANTS OBSERVE ARMISTICE DAY AS HOLIDAY

In order that Tuesday, November 11, will be observed as a holiday in Ogden, the American Legion of Ogden has started a petition circulating in this city, asking the Merchants of Ogden observe the entire day as a holiday.

The petition was started today and it is expected that the merchants of the entire city will observe the day.

Acting Governor Hardin Bennion of the state of Utah issued a proclamation asking all places of business to observe the day, and with one of the greatest spot ranges ever staged in any Utah city arranged, the members of the American Legion ask the support of the merchants and citizens in making the day a day of duty.

John Lewis, president of the Merchants' association, in regard to the closing made the following statement: "The executive committee of the Merchants of Ogden is highly in favor of aiding the members of the American Legion in their undertakings in this city. The plan which they have outlined for the celebration here on November 11 is a just one, and I believe that every merchant in Ogden should observe the day—celebrate with the boys who were killed from home last year, and, all in all, make it a day of fun."

Sol J. Kaplan of the Buchmiller-Kaplan company, in regard to the closing, made the following statement:

"November 11 is the heart of the soldiers, sailors and marines, is a day which the boys of yesterday will never forget. Those of us who were at home aiding the boys over there had a most glorious time last year—in fact the celebration was pronounced the greatest that has ever been held in Ogden and one that will forever live in memory here. But on the other hand, the majority of our boys were overseas—some were ready to go—others were on the high seas aiding Uncle Sam in his work of transporting the troops. Is it not fitting for the Merchants of Ogden and for other organizations to join hands with the boys who upheld the freedom of the world and made the world safe for democracy?

Other merchants of Ogden also signified their intentions of throwing their hats in the ring and joining hands with the American Legion stars in making the day fitting in every sense of the word.

From the early dawn of November 11 until the wee small hours of November 12 the soldiers of yesterday will hold sway with the citizens of Ogden and other cities their guests. The program will start early and end late with a great variation of stunts.

## WORLD'S MARKETS

NEW YORK, Nov. 6.—Trading in stocks at the opening of today's session resolved itself into a contest between opposing factions, declines succeeding advances. Steels and equipments were the objects of bearish pressure at reactions extending from large fractions to two points. Motors, oils and several miscellaneous specialties also fell back moderately.

The market became comparatively dull before the end of the first hour, dealings falling far below recent averages. Further irregularity soon set in as a result of renewed pressure, leaders for the most part increasing their early losses. The strength of rails served to bring about temporary improvement, but another and more violent reversal occurred before noon. Steels and equipments were the chief features of the reaction, Crucible dropping five points between sales at an extreme loss of 15 points. Related shares were 3 to 10 points under yesterday's final quotations. Call money opened at 12 per cent.

Rails were the only stocks to withstand pressure, their declines being nominal. Selling seemed to originate largely with the shorts, whose activities were materially assisted by tight or money. Crucible and several other leaders rallied substantially, but the undertone reflected further unsettlement.

CHICAGO GRAIN. CHICAGO, Nov. 6.—Although selling orders predominated in the corn market at the opening today, the weakness which ensued did not prove to be of a lasting character. Most of the selling was based on opinions that a reaction was likely after a 15 cent advance within a week. Bulls, however, were confident that the market for the future deliveries, would be rise as long as corn available for immediate delivery was valued at the present big premiums over the nearest future delivery. Opening prices, which ranged from 1/4 to 2/8 lower, with December \$1.28 to 1.39, and May \$1.30 1/2 to 1.31, were followed by a rally that in some cases carried the market well above yesterday's finish.

Oats, like corn, suffered an initial rush of selling. The start, which was 1/4 to 1/2 down, including December at 72 1/2 to 73 1/2 c, was followed by a slight further sag, and then a nearly complete recovery. Weakness in hog and grain had a depressing effect on provisions. Selling, however, was not aggressive. Later the corn market weakened again owing chiefly to assertions that car shortage was being alleviated. Besides, it was reported that as a result of offerings from Manchuria, the Pacific coast was canceling orders for corn shipments from Minneapolis. The close was heavy, 2 to 3c net lower, with December \$1.27 1/2 to 1.37 1/2 and May \$1.29 1/2 to 1.39 1/2.

# PORTER KEEPSKLEEN PLUG

\$1.50 Each

# No Other Plug Like It!

OUTWARDLY all Spark Plugs look more or less alike. It is the patented interior construction of the PORTER PLUG which sets it apart from any other Plug.

The PORTER PLUG is the final development of the Spark Plug. It has eliminated Spark Plug defects and therefore a majority of your motor troubles by its self-cleaning principle.

No more Spark Plug fouling! Oil splashes, dirt and carbon cannot cause a short circuit. You get a hot, continuous spark—more miles per gallon—greater power—more snap to your motor—less carbon in cylinders and real economy in maintenance.

The PORTER is the only Spark Plug that successfully cleans itself. Private and official tests and wide service to the public have shown this to be a fact. That is why we can give such an unusually strong Guarantee.

And remember that the PORTER PLUG can be obtained close at hand—just see your neighborhood GROCER.

Only Successful Self-Cleaning Plug  
Partial combustion, misfires, loss of power, excessive gasoline consumption, and often complete stoppage of your engine result from fouled Spark Plugs.  
Watching and cleaning Plugs is a tedious and dirty job. You don't like it! Here is how the PORTER PLUG does it for you:

Compression or up-stroke of piston forces gas into a chamber in upper part of Plug. Gas is exploded by the spark and forced down a narrow passage around porcelain. This blast burns and sweeps the porcelain clean as long as engine is running. Could anything be more simple, practical and SURE?

## Read This One-Year Guarantee

The PORTER PLUG has made good. Thousands are giving satisfaction. But we don't ask you to assume any risk. We give you a liberal Guarantee—read it! If Porcelains break or leak, if plugs fail to deliver the maximum spark even under excess oil conditions, or if plugs short circuit, within one year from date of purchase, we hereby guarantee to exchange plugs for new ones or refund money.

SPECIAL NOTE: We declare guarantee void if plugs are taken apart, as gaskets are thereby injured and plugs will leak. Under excess oil conditions rim of porcelain and shell will carbonize, but that will in no way lessen the spark, as the sides of the porcelain will always keep clean, due to our patented explosion chamber. Thus no short circuit is possible, and plugs should never be cleaned.

**Appeals Made to United States By Albanians**  
TIRANA, Albania, Oct. 5.—(By The Associated Press.)—Continued appeals are being made by the Albanians for the United States to assume a mandate for Albania. The Albanians are an amazing confidence in America. Scarcely a week goes by in which some local Albanian society or group of patriots does not present a petition addressed to the Americans appealing to President Wilson to intercede on behalf of their country. When The Associated Press corre-

spendent was passing through a small town south of here on horseback, he was stopped by the mayor and local officials who presented to him an appeal seeking the protection of the United States because the Greeks were reported to have taken possession of the city of Koriza, in Southern Albania. The Italian protectorate is in operation, but most Albanians profess a distinct dislike for the Italians, saying their desire is merely to exploit the country and to retain a strategic foothold in the Balkans. Some of them say they fared better and the country progressed more under the Austrians. American observers say the Italians have brought great material and moral good to the country and have stabilized things in an effective way. The country is extremely primitive and there are continual internal disorders. Railroads or telegraphs do not exist, many of the most ordinary conveniences of life are wanting, sanitation is almost unknown, schools and churches are few in number, and altogether the country seems extremely backward. Except for the southern part which is fairly fertile, it is a barren waste of docks and woodless hills and mountains. Albania produces scarcely enough crops to support its inhabitants. The population is upward of two millions, divided about evenly between Christians and Mohammedans. Only about 5 per cent of this number is able to read or write. The women do all the work. They are veritable beasts of burden. Indeed they compete with the ponies and donkeys as pack carriers, but are not considered by the men as valuable because they cannot bear up under such heavy loads. In the frequent sale of young women for wives, the price

often paid is not as high as that given for a good horse. This severe life among the women shows itself in premature old age and in many forms of serious physical disability. Fifteen per cent of the mothers die in child birth. The men sit around coffee houses, discussing politics, or attend to the business of repelling by gun or sword the frequent Serbian or Montenegrin invaders. The hostility to the Serb and Montenegrin never ceases. Feuds, pistol duels and vendettas are of daily occurrence. The Albanian, once he believes himself or relatives wronged, never rests until complete and fierce vengeance is secured. The American Red Cross hospitals throughout the country are constantly called upon to treat the victims of these feuds and vendettas. The Italians have a force of about 25,000 troops in Albania. The major part of these are in the vicinity of Valona. The rest are used in police and garrison duty in different parts of the country. Their presence has tended to tranquilize the country and keep down the troublesome elements among the population. There are recurring sporadic clashes, however, between the Albanians, Serbs and Montenegrins, in which frequently the Italians are forced to take part.

## Women's Congress Not to Postpone Organization

WASHINGTON, Nov. 6.—The international Working Women's Congress at its closing sessions here today, decided to postpone discussion of the whole question of permanent organization until next year. Efforts of the British delegation to effect affiliation with labor parties were defeated and the temporary organization, with headquarters in the United States under a provisional committee composed of a president and four vice-presidents will be continued. The next meeting will be in conjunction with the next session of the international labor con-

## The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable. The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are used the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of Chas. H. Fletcher.
