**Debate Resumed in the Peace Treaty**

WASHINGTON, Feb. 16.—Consideration of the peace treaty was resumed in the senate today by unanimous consent.

To start machinery toward possible compromise, Republican Leader Lodge moved adoption of a modification in the first of the Republican reservations adopted last session and another season of debate began. The reservation which Senator Lodge moved to modify related to withdrawal from the league membership.

Demands in European countries for revision of the peace treaty form a new reason against American ratification. Senator McCormick, Republican, Illinois, declared in a set speech.

Attempts to revise the Lodge resolutions, Senator McCormick said, are an effort for reduction of the irreducible "minimum" while reports of existing and threatening revolts of subject peoples, he said, present additional grounds for disapproval by the senate of the treaty.

The next president of the United States will come from the ranks of the great middle class and his name is not now even mentioned as a potential candidate, predicts Thomas Prynorski, a seventh son of a seventh son now serving in the new, democratic, peace-time army.

Private Prynorski has something of a prophet's reputation with his "bud-ding" and a few of his predictions have been:

(1) Passage of the Volstead Enforcement act.

(2) Allied trading with the co-operatives of soviet Russia.

Prynorski also foretold the election of Ira Hanson as a member of the borough council of Wauversburg, Penn., last November.
