SHE'S A WHOPPER—NAVY'S BIGGEST

NEWPORT NEWS, Va.—The battleship "Maryland," the largest ship yet constructed for the United States navy, was launched March 20th. She is 600 feet long, 97 feet broad and has a displacement of 32,000 tons. Her main battery will be composed of eight 16-inch guns, the heaviest used on a naval craft.

Chicago City Council Increases 1920 Budget

CHICAGO, March 31.—The city council today voted a \$4,000,000 increase in the 1920 budget to provide a

10 per cent increase for striking municipal employees. Aldermen said that it is now up to the strikers and those threatening to strike to accept that advance or quit their jobs permanently. The strikers are demanding more than a 10 per cent increase and indications are that many or all of them will refuse the proposed raise. Discontented groups of firemen and city hall employees gathered in the city

WAVE OF PESSIMISM FLOODING AUSTRIA

VIENNA, March 31.—A wave of pessimism has swept over the country since Baron Koranyi, minister of finance, and the food controller returned from Paris with empty hands except for some small food credits. Newspapers express regret at the delay of the hoped for American loan and publish warnings of approaching exhaustion of food supplies and of another crisis.

Depression prevails in business circles. Manufacturers declare that these dribbles of loans for food purchase are futile and that only credits sufficiently large to enable business to get on its feet by the purchase of coal and raw materials will postpone the complete breakdown of Austria.

One of the basic causes of the country's paralysis is lack of coal due to failure of the coal supplying countries to live up to their agreements. For this reason industries lie idle. Austria's natural and logical coal supply lies in Bohemia and Prussia, or Upper Silesia. Under present arrangements coal is secured, what there is of it, under agreements between state governments and upon arrival here is distributed by government officials. The supply is so small that virtually all of it is needed for limited railway operation, the gas and electric plants and limited private domestic use.

None remains for industries and no factories except those producing the necessities of life are in constant operation. For instance, the great Florisdorf locomotive works, with a capacity of 150 locomotives a year, have been idle for four weeks while all Europe is crying for railway motive power. The demand for freight cars is insistent and yet the Graz car factory with a potential capacity of 300 cars a month produces less than 50 because coal is not to be had and consequently they cannot secure wheels, axles and structural iron for bodies.

Vienna is surrounded with a forest of factory stacks, but smoke issues from few of them. This has been true ever since the revolution 15 months ago. Manufacturers say that if coal can be assured in sufficient quantities they will manage to find raw materials enough to start with and slowly build up credits for more.

Commissioner after commission has vainly tried to obtain delivery of the coal for which contracts were made with Czechoslovakia. The reason for this failure is unknown here. One expert says that unless Austria is allowed to get coal from the Upper Silesian fields, whence has always come the bulk of Austria's supply, her population must be deported or the country will perish under starvation and anarchy. This solution, he says, lies in the hands of the powers.

hall today and their sentiment seemed to be that the proffered rate is not enough.

"Junior clerks get only \$30 to \$110 a month," some of the office men said. "That is not enough to live on, even if you add 10 per cent increase."

Big Slump in Mouse Market at Columbia

NEW YORK, March 31.—A big slump in the mouse market is reported from Columbia university, where large stocks of the little rodents are used for experimental purposes. Quotations for mice have fallen far below pre-war levels and many breeders have been forced out of business, according to Dr. Francis Carter Wood.

Hoards of mice were required during the war for medical experiments and high prices offered for them by the government stimulated the breeding of these animals. When the armistice was signed the breeders were caught "long" on mice and they found themselves carrying a heavy load of a useless commodity.

This situation in the mouse market is disclosed in Dr. Wood's annual report as director of the George Crocker Special Research fund, made public today. This fund was created to conduct scientific cancer investigation and many mice not used for experiments at Columbia university are shipped to other laboratories. As one means to reduce the surplus, the directors of the research fund have attempted to ship some of the mice to the Pathological institute of the Imperial university of Tokio.

ARMY PILOT KILLED. MINEOLA, N. Y., March 31.—Captain John M. Foote, of Chicago, an army pilot during the war, was killed today when a monoplane he was flying fell 1000 feet to the ground near Roosevelt field here.

MARY PICKFORD CASE TO BE INVESTIGATED

RENO, Nev., March 31.—The entire record of the Mary Pickford divorce case is under a close investigation by Robert Richards, deputy attorney general of Nevada, for the purpose of ascertaining whether it holds any irregularities or evidence of fraud or collusion that will justify an action being taken to set the divorce aside. The deputy attorney general said this morning that when his investigations are concluded action undoubtedly will be taken by the state in case the facts justify it.

"Just at this time," said the deputy attorney general, "I am unable to say what will develop in the Pickford case because the investigation I am making has not been completed. I am going over the entire record of the case and if there are irregularities or any evidence that a fraud was worked on the court or that there was collusion, some action undoubtedly will be taken to set aside the decree."

Lieut. Zebrowski Is Sentenced to Death

WARSAW, March 31.—Lieutenant Stanislaw Zebrowski, of the Polish army, tried by court martial and found guilty of a charge of having misappropriated 10,000 marks belonging to his regiment, has been sentenced to be shot, it was announced recently. At the present rate of exchange, 10,000 marks is the equivalent of about \$63 in American money. The prosecution contended at the hearing that Zebrowski had lost the money betting on horse races.

BALLOTS CAST BY WOMEN TO BE SHORT

WASHINGTON, March 31.—Ballots cast by women in the coming presidential election will fall short of the potential men's vote by over 2,500,000, provided the suffrage amendment is ratified and state registration laws enacted in time to permit women all over the country to participate, according to estimates by the National Woman's party.

With the 1910 census as a basis, the woman's party estimates the number of men eligible to vote at 39,877,000, and the possible woman voters at 36,383,000. In 1910, however, the actual vote cast for all various presidential candidates was 19,939,745, omitting

Women's Suits Big Values **\$24.75**

If you have been discouraged in looking at regular suits, see these. Some are samples, some from Second floor. All good styles. There are jerseys, serge, some of silk. Suits worth three times their present price—\$18.75—\$24.75 and \$29.75.

Ladies' Dresses Spring Dresses **\$3.95 \$15**

Fifty of them. The material are worth three times the price. They will need pressing—that's all. The styles are good enough for afternoon wear. The price cheap enough for house wear. Voiles, ginghams, values \$7.50 to \$12.50. On sale now, \$3.95.

Easter Candies

Delight the kiddies on Easter morn. Here are pretty bird nests woven of candy—filled with colored eggs—baskets for the Easter Bunny to bring the eggs in. Candy eggs in a lot of sizes and colors. Next Sunday is Easter. Better get these early. Candy Square, Main floor.

Petticoats \$1.95

A sample line of petticoats—samples that the traveling man sold to us much under price. Most of them of satin. Some of heatherblom. Plain black, plain white, some figured in colors. A great lot of them that are good \$2.75 values. In the Downstairs shop—\$1.95.

Sales Final

Owing to the extremely low prices at which merchandise will be sold in the Downstairs Women's Wear Shop, there will be no exchanges, no approvals and no charges. We therefore ask that customers make selections carefully so that sales may be final.

DOINGS OF THE DUFFS

DO YOU WONDER THESE TOTS GAMBLE AND STEAL?

One of the saddest phases of the poverty in Central and Eastern Europe is the demoralizing influence which starvation, idleness, closed schools and degrading home conditions are having upon the morals of the children. Parents try in vain to teach half-starved kiddies not to steal. The children above are digging in a Budapest dump for scraps of food or trinkets with which to gamble.
