## Time Means Nothing? Just Scan This Over Road Nebs Get Hefty

(By AL WARDEN.) Some people have no use for time. Some are rich—therefore they don't need time with which to spend it—some are poor—they lack a world of time—while those who labor—have a world of time—that is the majority of them have—but at one of the offices of the United States public roads bureau in the Colonel Hudson Building, time is one of the chief assets to each day's toil.

The door is adorned with pregnant phrases which in the estimation of those who have given it the once over, are beyond a doubt second to none.

**PASTED ON THE DOOR**  
Adorning the door and pasted with honest to goodness glue, typed with probably a late model Underwood is the following, the first in this case spelling defeat for the news hound.

Time allowed for interviews in this office—2 minutes.

Time allowed for friendly calls—2 minutes.

Time allowed for friendly calls when busy—1 minute.

Time allowed for life insurance agents—1 second.

Friends with a scheme—5 seconds.

Friends willing to let us in on the ground floor—no time.

Friends to ask us to eat—60 minutes.

Those willing to pay bills—60 hours, 50 minutes and 60 seconds.

The total number of mottoes are first rate in every particular according to some but the first item—which bars the reported—spells ruin—and especially to the gent seeking news on a day when the word news is a scarce as the old time gold dollar. But to and behold the newspaper man is not the only man hard hit.

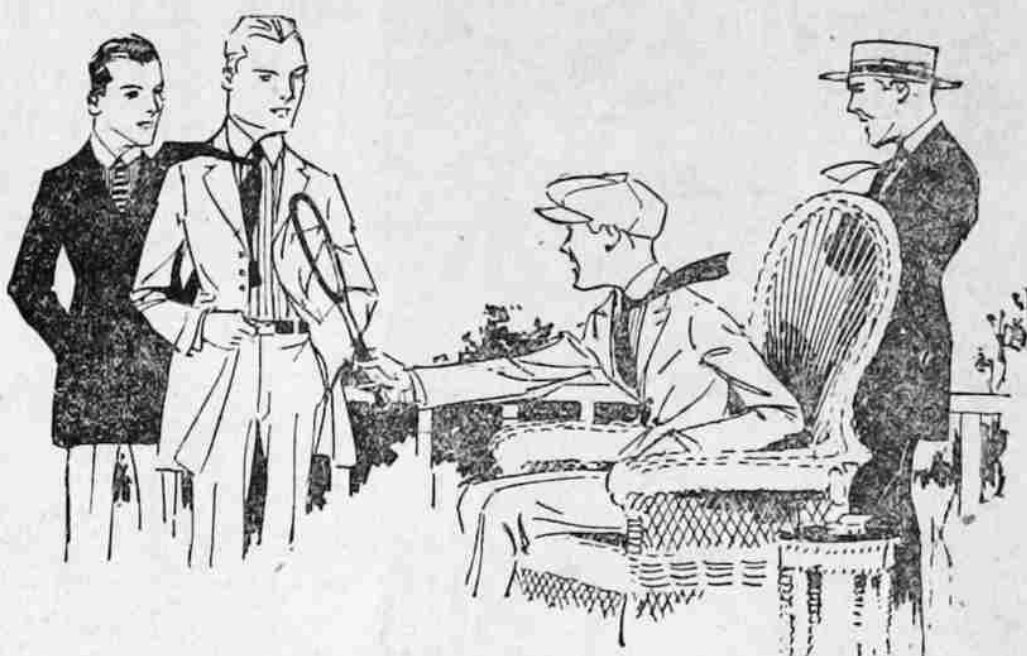

Take a peep at the insurance agent.

Talk about a guy being out of luck—say what could he sell in 1 second—he might sell the right cipher on his insurance policy—but outside of that he would be miles from home compared to the news writer—as we have said before—the reporter, a measly 2 minutes—while by the way is plenty if you are minus news.

But if the girl stenographer attempts to drink a soda on a hot day—and in so doing, she faints—who could get the details—her name—and the particulars—in ten minutes? That is the question before the reporters.

**FRIENDLY CALL—Heh! HEH!**  
Yep, and just think perhaps the insurance agent might become exhausted by the heat and a hundred other things could happen—but it is just a probability but what we would like to know is what the "bugs" in the office term a friendly call. It surely isn't one of the old fashioned friendly calls you know one of those old time chats when the gin phiz and the high ball and the other popular brands started. Naw, wouldn't be possible, according to the old timers—those kind of visits require weeks and some times months.

**FIT THE BILL?**  
The remaining rules on the chart with one exception seem to fit the bill—at least that is what some of the wise ones say. Can you imagine a reporter taking a guy to dinner for 60 minutes—now stay—the H. C. L. wave sweeps this way down—and again a guy requiring 60 minutes to eat nowadays in any cafe must be starved to death. Firstly—because the caper on the give on the meal for your silver that requires an hour—secondly because it takes but a few minutes to devour the said "eat" and last but not least we don't all have a stand in with the girl waiters or the cook.

## Buy your Blue Serge for the 24th --and save money

Midsummer's gala day is less than two weeks off. There'll be parties, excursions to canyons and resorts and all kinds of occasions to celebrate the day.

You save 10 per cent by ordering now. Blue Serge Special—\$47.50.

On Hudson Avenue by the Alhambra Theatre

## BIRD RESERVE TO BE INSPECTED

### Three Government Officials Leave for Ogden to Look Over Project

Three government officials connected with the fish and game department at Washington, departed last night for Ogden, where they will inspect a proposed resting place for migratory birds.

This bit of news was received with great joy by members of the Weber Rod and Gun association, who have been working on the proposed grounds for some time.

The territory included in the inspection will begin at the mouth of Bear river at Corrine and will embrace the land east of Corrine to the Lacey Cut-off. The west boundary will include the entire lake within that territory to the land on the west side of the lake.

It is the plan of the officials to make that territory a resting place for migratory birds and with that end in view the inspection tours will be made. All species of migratory birds will be listed on the resting grounds if the federal plans mature.

The sun is hot enough to melt, on its surface, an envelope of ice.

There are about 5000 different languages spoken in the world.

The pulse of a new-born child beats from 130 to 140 times a minute.

## WARNER GIVEN STIFF SENTENCE

### Young Man Accused of Petit Larceny Goes to Jail for Four Months

G. P. Warner, charged with petit larceny, was sentenced to four months in jail by City Judge D. R. Roberts yesterday morning. Warner pleaded guilty.

Warner was arrested with Vernon Sanberg in connection with the theft of jewelry and old gold coins from J. G. Yanner and La Mont Sanberg, upon which a value of \$2025 had been placed.

Warner was found guilty of taking a silk pin and a \$5 gold piece, of the coinage of 1834 and valued by the owner at \$400.

He admitted in court that he had served 15 days, 20 days and 60 days in the city jail on three petit larceny charges.

In sentencing Warner, Judge Roberts told him that the court admired his frankness and for this reason was going to be lenient. Warner's face brightened but when the judge said 120 days or \$120, the young man's shoulders slumped and he sagged hopelessly as he was led from the court room by Detective Robert Chambers, his captor.

Warner was turned over to the sheriff to begin his sentence in the county jail.

Sanberg will be delivered into the custody of the juvenile court.

## 600 CHAIR PUSHERS AT ATLANTIC CITY GO OUT ON STRIKE

ATLANTIC CITY, N. J., July 10.—Six hundred members of the Chair Pushers Union struck today, causing a tie-up of the roller chair traffic on the board walk. Two strikers were arrested for demanding fifty cents an hour instead of 25 cents.

## Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

## LADY OVERCOMES USE OF MORPHINE

"Troubled about 10 years with what the doctors called gall stones, often I thought I would die before the doctor could get here, when he would give me a hypodermic of morphine, and advise an operation. A neighbor told me about Mayr's Wonderful Remedy for stomach trouble, and since taking the first dose 2 years ago I have not had an attack nor needed a hypodermic." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Advertisement.

## CAMPAIGN EXPENSES FOR M'ADOO \$443

LOS ANGELES, Cal., July 10.—Expenses of the campaign to obtain the Democratic presidential nomination for William G. McAdoo, former secretary of the treasury, totalled \$443, said Judge S. B. Amidon, of Wichita, Kan., here today. Judge Amidon, who is a national Democratic committee-

## 4,000,000 PEOPLE

Annually use these tablets of organic iron—Nuxated Iron—to build up red blood, strength and endurance.

Dr. H. B. Vall, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which carries distance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery they are not giving the natural life force of the body a chance to do their work. Iron is red blood food and in my experience I have found no better means for building the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of digested organic iron which is easily assimilated by the blood.

## HELPS MAKE RICH, RED BLOOD NUXATED IRON
