CHICAGO GRAIN.

CHICAGO, Aug. 3.—Sharp new advances in the price of wheat took place today owing more or less to surmises that European war complications might bring about enlarged demand for food supplies from the United States. Speculative trade continued to broaden, and this morning was materially in excess of what it was a few days ago. On the other hand, hedging business was relatively light.

Opening prices, which ranged from 2 to 7c higher, with December $2.17 to $2.20 and March $2.17 to $2.22, were followed by moderate further gains and then something of a reaction.

Corn moved up with wheat and as a result of continued dry weather. After opening 2c to 2¼c higher, with September $1.38¾ to 1.39 and December $1.23½ to 1.25, the market scored a slight further advance.

Oats were governed by the ascent of other grain, starting ¾ to ¾c higher with September 69⅞ to 70c, and remaining firm.

Provisions reflected the strength of grain. Buyers, however, were not plentiful.

STOCKS REBOUND ON WALL STREET

Selling Movement Halted by a General Inquiry for Investment Issues

NEW YORK, Aug. 3.—Yesterday's losses were partly retrieved in a number of cases at the opening of today's stock market. United States Steel, Reading, American International and Baldwin displayed temporary strength but the entire list soon weakened when bullish traders found they could not advance prices without getting a liberal supply of stocks. Particular weakness was noted among the independent steels, especially Bethlehem and Republic. Railroads moved in a confused fashion, with Northern Pacific and some of the low-priced shares losing ground.

A break of four cents in sterling, due to the unsettled Polish situation, together with rumors of new financing and poor earnings of various industrial corporations, tempted additional short selling. The market, however, showed plain evidence of being over-sold, and when support appeared for certain stocks, prices rallied briskly. The rebound carried the leaders up 1 to 4 points with marked strength in certain of the steels, equipments, oils, motors and railroads. The inquiry for the standard railroad shares imparted a stimulating influence, but general buying was rather cautious because of the sensitiveness of some of the speculative industrials and the unfavorable credit condition. United States Steel duplicated yesterday's low figure of 85⅝, but rebounded to near 87. Baldwin and the investment oil stocks also displayed pronounced strength.

The market was again upset by active selling of Bethlehem, Baldwin and Corn Products which fell 2½ to 3 points. Denials by President Grace of the Bethlehem Steel corporation that any new financing was contemplated caused a rally in that stock, but the list elsewhere continued to be subjected to spasmodic selling.
