OPEN CRUSADE TO GET RID OF WILD SPEEDERS

County Attorney, Judge and Sheriff to Cooperate in Running Down Law Violators

Summary prosecution by the county attorney and jail sentences by the city judge face speeders and other traffic law violators caught in the future.

This was the announcement of Joseph B. Bates, county attorney, this morning following a conference with City Judge D. R. Roberts.

"This wild tearing up and down the highways and byways of the county with a total disregard for life and limb of pedestrians and sane motorists must be stopped and will be," said the county attorney.

LETTER TO SHERIFF. In this connection Mr. Bates sent a letter to Sheriff H. C. Peterson, which follows:

"Dear Mr. Peterson: Having in mind the formulation of a definite policy which will put a stop to violations of the laws regulating the operation of motor vehicles I had a conference with City Judge D. R. Roberts this morning with regard to penalties to be imposed in such cases.

"I know that your officers have about all the work they can do now but I wish to request, and urge, that all violators of the state traffic regulations be brought before the court. I assure you that complaints will be issued immediately by my office and the cases promptly handled.

CABLE SHIP WILL NOT FINISH LINE

British Authorities Comply With U. S. Orders Against Landing Cable

MIAMI, Fla., Aug. 5.—The British cable ship, Colonia, chartered to lay the South American cable from Miami to Barbados, in the British West Indies, will not enter American waters until permission is granted by the state department in Washington.

The wireless station at Miami is endeavoring to get in touch with the cable ship which left Newport News several days ago, and the United States destroyer 155 is held at the municipal docks to take the British vice-consul to the Colonia as soon as it can be located.

DESTROYERS ON GUARD. Associated Press.—Five destroyers are patrolling the entrance to the Miami, Fla., harbor, under orders from President Wilson to prevent, by force if necessary, the landing of a cable from the Western Union company.

A British cable ship, the Colonia, has been chartered by the company to lay the cable which will connect with the British cable line from Barbados to South America. At the state department it was stated today that the British embassy had been asked to inform the master of the ship that such a landing would violate American law.

Some time ago the Western Union company applied to the state department for a permit to land the wire at Miami, but officials said action had been delayed, pending the holding of congress, to meet here September 15.

REASON FOR DELAY. A British cable company, it was explained, has a monopoly of cable rights in Brazilian waters. An American concern desires to construct a direct cable from the United States to Brazil and it was stated that the American government desired to know before issuing the permit to the Western Union whether the arrangement entered into by the company with the British concern, the Western Cable company, controlling the line from Barbados to Brazil, would add to this monopoly.

In this connection, it was asserted that at the international communications congress the whole theory of international communications was to be examined, "in a very different temper" from that existing.

There were reports today that after the Western Union company filed its application for a permit the state department requested that a copy of the contract with the British Cable concern also be filed and that the company had refused to comply.

"THE CITY OF MASKS" TELLS NOVEL PHASE OF NEW YORK LIFE

Robert Warwick's Picture is Adopted From Popular McCutcheon Story

In "The City of Masks" coming to the Alhambra theatre tomorrow and Saturday Robert Warwick leads a "double life." Generally this term has a rather unflattering significance.

The "city of masks" is New York and, according to George Barr McCutcheon author of the story, the metropolis is crowded with chauffeurs and governesses and politicians who are really persons of noble rank disguising their identities in humble occupations.
