

METAL OUTPUT IN IDAHO GROWS

Production Generally Above Output of Year Ago Report Shows

The report on metal mining in Idaho follows:

If the present rate of production is maintained, the output of silver, lead and zinc from Idaho in 1920 will be considerably larger than in 1919, according to C. N. Gerry of the United States Geological survey, department of the interior. The production in 1919 was unusually low, the output of gold, silver, copper, lead and zinc being less than the annual average of the last ten years. The shipments during the first five months of 1920 are not so large as those in a normal year, but are considerably greater than those of the corresponding period in 1919.

The Bunker Hill & Sullivan smelter and refinery at Bradley has been active, although not operated at full capacity.

The lead plant at Northport, Wash., which receives concentrate from the Hercules and the Tamarack & Custer mines, was again operating in 1920, and the plant at East Helena, Mont., which treats much of the Bunker Hill ore, was producing a larger quantity of lead bullion.

GOLD OUTPUT DECLINES

The gold produced in Idaho in 1919 was valued at about \$703,000. The average annual production during the last ten years was \$1,055,350, but there has been a steady decrease since 1915. The Gold Hill & Iowa property at Quartzburg continues to produce more gold than any other mine in the state. The dredge at Murray, in Shoshone county, has materially added to the gold output of Idaho. These two properties produced 50 per cent of the gold of Idaho in 1919.

OGDEN LIVESTOCK

Cattle—Receipts, 116; choice heavy steers, \$9.00@10.00; good steers, \$8.00@9.00; fair steers, \$7.00@8.00; choice feeder steers, \$6.00@7.00; choice cows and heifers, \$5.00@7.00; fair to good cows and heifers, \$5.00@6.00; cullers, \$3.00@4.00; calves, \$6.00@7.50; choice feeder cows, \$4.00@6.00; fat bulls, \$5.00@6.00; bolegona bulls, \$4.00@5.00; veal calves, \$3.00@4.00.

COPPER DECREASES

The output of copper in Idaho in 1919 was 3,140,000 pounds, valued at \$391,000, a marked decrease from 1918. As no shipments have been made in 1920 from either the National mine, near Mullan, or the Richmond mine at Adair, there will probably be a further decrease in 1920. The Empire Copper company at Mackay is maintaining shipments at the rate of about 1,000 tons a month and is increasing the reserves of ore that were depleted during the war. A new mill was constructed at the Pope-Shenon mine, near Salmon, in Lemhi county, which will treat copper ore by roasting and chlorinating.

SHIPMENTS TIED UP

The Star mine, near the Morning property, has ore mined, but litigation with the Federal Mining & Smelting company has prevented shipments. At Gilmore, in Lemhi county, the average monthly shipments from the latest Ore and Pittsburg-Idaho mines are much greater, and the White Knob Mining company at Mackay is a large contributor.

BUYERS EXPECT CHEAPER FLOUR

(Special to Standard-Examiner.) MINNEAPOLIS, Minn., Aug. 11.—The Northwestern Miller's weekly review of the flour trade says: "Flour buyers have been active in the past few days, and a brief rally early last week, as flour prices advanced from the low point following higher cash wheat. Buyers evidently expect a return to the recent low level. No extensive business is likely until the wheat market becomes more stable as stocks are still sufficient for a few more weeks. Mills everywhere continue to run at 50 per cent of capacity or less. Flour prices are largely nominal and show little change from a week ago, though there is a dollar or more per barrel higher than the low levels reached on August 2."

KANSAS CITY LIVESTOCK

KANSAS CITY, Mo., Aug. 11.—Cattle—Receipts, 3,000; steers, mostly 25c higher; top, \$16.55; sheeps and feeders strong to 25c higher; bulk cows and heifers, \$7.00@8.75; canners, mostly \$4.00@4.25; bulls steady; calves mostly 50c higher; bulk good and choice vealers, \$12.00@13.00.

AT MINNEAPOLIS

MINNEAPOLIS, Minn., Aug. 11.—Flour, unchanged to 3c higher; in carload lots, family patents, quoted at \$13.25 to 14.00 a barrel, in 95-pound cotton sacks.

BANKS' INTEREST RATES ATTACKED

New York Financial Houses Are "Holding Up" Corporations, U. S. Officer Says

WASHINGTON, Aug. 11.—Partial responsibility for disturbed conditions to commerce and industry and the unsettled values of securities, were laid on the threshold of national banks of New York City by John Skelton Williams, comptroller of the currency in a statement today. He declared the "unjustifiable and excessive" interest charged had been "a potential cause rather than a result" of the situation.

"Unquestionably, the New York banking community deserves the warm gratitude and admiration of the country for the loyal generosity with which it stood by and co-operated with the government during a time of crisis," he said. "But that is history. With the fading appeal of war and danger, there has been a tendency among some bankers to take advantage of situations and force inordinate profits for themselves, regardless of the effect upon the general welfare of the whole country."

Mr. Williams served notice that he would employ every power within the law to place the blame where it belongs, and that he was endeavoring to obtain information which would vindicate those bankers who observed the age-old wisdom of "live and let live."

"I am convinced," Mr. Williams continued, "that the unjustifiable and excessive interest rates in New York City in the past ten months which I am informed have in some cases gone as high as 15 and 20 per cent or more, have been one of the potential causes, rather than a result of the unsettling of securities values and of the burdensome rates which our railroads and industrial concerns and other concerns and individuals of the highest credit have been required to pay for new capital essentially needed for the country's development and well being."

STOCKS ADVANCE ON WALL STREET

NEW YORK, Aug. 11.—Initial prices on the stock exchange today were higher with the advance reaching four points in Shell Transport. Aspects of the Russo-Polish situation were regarded more favorably and there was a further rise of 2 cents in sterling. Buying of fair amounts superseded the recent drastic liquidation of various issues, and the bears were intimidated into covering by the rapid advance in the usual leaders. Many of the equipments, steels, oils and sugars were quoted 1 to 2 points higher, as were Central Leather, Industrial Alcohol, Reading and Rock Island. A few shares opened lower, including American Sumatra Tobacco, which fell 1/2 and Gulf States Steel 4 points.

Hope of an early improvement in credit conditions and steps taken to provide further financing for the Maxwell Motor company influenced more general buying. Speculation broadened as prices advanced with the inquiry making against the shares which had recently been extensively sold. Speculative sentiment seemed more hopeful and was reflected in a steady absorption of the favorite issues. Gains of 1 to 2 points were general. Delaware and Lackawanna advanced 5/8, United Fruit 3/4, Cuban American Sugar and Tobacco, Gulf four and Mexican Petroleum, General Electric, Republic Steel and Maxwell Motors 3 points. National Amalgam made a sudden drop of five points, but was supported later while Gulf States Steel rallied to above yesterday's final figures. Renewal rates for call money were maintained at 7 per cent.

MINES TRADING HOLDS ACTIVE

Columbus Rexall and Silver King Con Hold Leadership in Dealings

The trading in mining stocks today on the Salt Lake Stock & Mining Exchange continued active with the prices in the majority of the stocks a trifle stronger. This was particularly noticeable in Columbus Rexall which featured the low priced stocks and Silver King Coal which stood out for the higher priced ones. The former opened at 40c and sold up to 42c, but weakened a trifle before the close, with only 41 1/2c bid and 42c asked. The latter, which closed yesterday around \$1.50, opened this morning at \$1.57 1/2 and sold as high as \$1.60, closing strong with \$1.57 1/2 bid for it.

Alta Con sold at 5 1/2c and 5 3/4c, Black Metals was heavily traded in at 5c, Eureka Lily was active from 5 to 5 1/2c. Cardiff changed hands at \$1.30, Iron Blossom sold at 25c, Michigan-Utah was practically the heavy trader of the day, 25,500 shares changing hands at 2 1/2c and 2 1/2c, New Quincy was active at 5c, 10,000 shares changing hands at this price, Eureka Bullion brought 7 1/2c and 8 1/2c, Shield went at 1 1/2c and 1 1/2c, Tintic Standard was rather quiet, only 100 shares changing hands at \$3.37 1/2.

TROUSERS FOR GIRLS MORE MODEST, SAYS CHINESE MOTHER

PHILADELPHIA.—Here's the way American mothers should dress their daughters—in trousers—according to Mrs. Ma So. Her daughter, Miss Elee, always wears 'em. "American corsets are terrible," she says, "and short skirts are immodest. Our Chinese fashions are far better for girls. Corsets are worse than the Chinese binding of the feet, and that is bad enough."
