Care and Responsibility.

THE responsibility attached to the preparing of a remedy for infants and children is undoubtedly greater than that imposed upon the manufacturer of remedies for adults whose system is sufficiently strong to counteract, for a time at least, any injurious drug.

What have makers of imitations and substitutes at stake? What are their responsibilities? To whom are they answerable? They spring up today, scatter their nefarious wares broadcast, and disappear tomorrow.

Could each mother see the painstaking care with which the prescription for Fletcher's Castoria is prepared: could they read the innumerable testimonials from grateful mothers, they would never listen to the subtle pleadings and false arguments of those who would offer an imitation of, or substitute for, the tried and true Fletcher's Castoria.

Children Cry For Fletcher's CASTORIA

"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

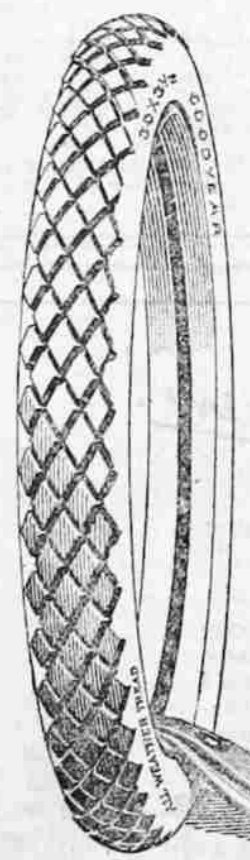

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.

Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little-ones. The BABY'S need for a medicine to take the place of Castor Oil, Paragoric and Soothing Syrups was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30x3, 30x3 1/2 and 31x4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag

Friendly Advice to the Man Who Would "Get Rich Quick"

What is a more pleasant thought than that of putting your money into an "enterprise" and say, in a few months, be a "millionaire"? Is it any wonder that there are always a large number of people who put even their hard-earned money into such promising ventures?

Such persons fail to distinguish the vital difference between real sound investing and speculation—the difference between genuine and performance. They are persuaded by promises. They do not judge by past performance, by the record of actual earnings or returns of the security. They miss entirely the fact, in this trying for a very high (promised) return on their money, that one loss of the money invested is equal to many years' total of such (promised) dividends.

The Investment Department of Ed. D. Smith & Sons has saved, through its counsel, many investors from such unwise investing. The facilities of our statistical department, combined with our experience, enable us to search out the best in securities whose highest yield, consistent with safety, is offered.
