"KILLED IN ACTION," HE'S VERY MUCH ALIVE

PORTLAND, Ore.—James E. Field, a Salsous hermit, is walking around his city with his death certificate in his pocket. Field, according to the War department, is dead, having lost his life "in action on the Western front." His parents have been repeatedly notified of his death by the Washington authorities. Field, besides having trouble in proving to his friends that it is not his ghost that is strutting around the streets, is facing still other predicaments. Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood then that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

And yet there are those who would ask you to try something new. Try this. Try that. Even try the same remedy for the tiny, scarcely breathing, babe that you in all your robust womanhood would use for yourself. Shame on them.

Your Friend, the Physician.

This information is at the hand of all physicians. He is with you at a moments call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows.
