HOWELL RISES TO HIGHER POINT

Reaches 14c During Session; Daly West and Judge Declare Dividends

The trading this morning in mining stocks on the Salt Lake Stock & Mining Exchange was fairly active. Howell continued to rise, selling as high as 14c in the opening session and 13½c at the close. Tintic Standard was heavily traded in at $3.00 and $3.02½, closing with $3.02½ bid and $3.05 asked. Albion brought 11¾ and 12c, Alta Tunnel 7c, Columbus Rexall 37c, while Lehi Tintic brought 7½c.

A twenty-five cent dividend has been declared by Daly West, and a twelve and one-half cent dividend by Judge Mining.

CHICAGO GRAIN.

CHICAGO, Sept. 17.—Wheat advanced sharply in price today largely as a result of gossip that export business had been liberal and that domestice milling demand continued active. There were signs also that the general disposition of farmers was to maintain a holding policy. The market showed no evidence of selling pressure. Opening prices, which varied from unchanged figures to 2¼c higher, wtih December $2.38 to 2.40 and March $2.33¾, were followed by a general rise that in some cases went 2½ cents above yesterday's finish.

Prospects of enlarged receipts kept the corn market relatively weak. After opening ¾c lower to ¼c advance, with December $1.11⅝ to $1.12, the market scored slight general gains but then underwent a moderate sag.

Oats were dull but firm, starting ⅛ to ⅜c higher, December 63¾ to 63⅞c and later hardening a little.

Strength in the hog market lifted provisions.

BROAD BUYING LIFTS MARKET

Entire list Goes Upward With Rails, Steels and Industrials in Lead

NEW YORK, Sept. 17—Trading was lively in the early dealings on the stock exchange today. The hesitancy which the list showed as a result of yesterday's catastrophe was soon dispelled by a broad buying movement which embraced most of the popular shares. Shippings, steels, equipments, United States Alcohol, Mexican Petroleum, Studebaker and American Sumatra Tobacco were lifted one-half to two points. Railroads moved upwards, Reading and Rock Island being substantially higher. Losses in Southern Pacific, New York Central, International Paper, Inspiration Copper and Royal Dutch were partly retrieved when the main trend became upward.

Speculative sentiment was more cheerful, buying being encouraged by the easier monetary conditions, strength of sterling and the improved labor situation. Pool activities accounted for some striking advances in some of the specialties, but the entire list made a good showing with the usual leaders well to the front. United Fruit advanced 7 point and other industrials ruled 1 to 3 points higher. In the railroad section coal issues were absorbed steadily at improvements of one to four points.

Representative industrials were pushed up rapidly in the early afternoon. The steels, equipments, Mexican oils, International Paper and Atlantic Gulf gained two to five points.

SOVIET AIMS ARE WIDE AS WORLD

Vast Ambitions of Russian Reds Are Discussed by German Prince

MANNHEIM, Germany, Aug. 27.—(Correspondence.)—"The present military operations are only a very minor part of a world-wide offensive which Soviet Russia is now setting in motion," declared Prince Max of Baden in the course of a lengthy interview which appears today in the Baden State Gazette. Asked whether he saw a way out of the present dilemma for Germany, Prince Max, according to the report, said:

"There is only one very slender hope; it consists in an unconditional maintenance of our neutrality both to the east and the west, and in one last desperate effort to effect a revision of the Versailles peace treaty."

Prince Max believes that what he calls the German resistance to the moral invasion of bolshevism is bound to crumble down if the checking pressure from the west is kept up.

"It would be doing scant justice to Lenine's uncanny personality," he continued, "if one were to believe that he is capable of keeping more than a sham peace with so-called capitalistic states. Lenine believes with religious fanaticism in the victorious march of his idea—the dictatorship of the proletariat or of the communistic portion of the proletariat. He is, of course, enough of a psychologist to understand that a military invasion of any country he wants to disrupt would be the very means of consolidating it. His plan would rather consist in provoking and fostering civil war in the bordering states so that, when the time was ripe for invasion, he would find an open door and a union of comrades."

Prince Max believes that the prospects of such a plan succeeding in Germany are not wholly unpromising, as the "moral invasion" he declares has already set in and news from East Prussia plainly indicates that the red propaganda among farm laborers there is already taking effect.

"Europe today is aflame," he concludes, "and the task of extinguishing the conflagration cannot be postponed. The situation demands the restoration of President Wilson's 'fourteen points,' which constituted the basis for the treaty, but which were wholly ignored at Versailles.

"All artificial edifices erected there have already tumbled down or are threatened with imminent collapse. The fate of Poland is a horrible example. The Polish state can only be revived if, in keeping with President Wilson's words, it comprises an unchallengeable Polish population."

UTAH CAN SUPPLY COAL TO WORLD FOR DECADES

SALT LAKE, Sept. 15.—There is in Utah 1,250,000,000 tons of high grade coal, enough to supply the entire world for several decades, according to a report made public by William Bailey, secretary of the state board of equalization, and William Peterson, board geologist, who have just completed a survey of the coal resources of the state. The report estimates there is 100 square miles of coal, 66,000 acres, with more than 20,000 tons to the acre.

In Huntington canyon, Emery county, the report declares, an immense new coal bed was discovered. The find lies in two veins, one seven feet wide and the other twelve feet wide and both of them extend for a distance of 100 miles on both sides of the canyon. Most of the new finds mentioned in the report are located on privately owned land.

BRITISH WAR SCANDALS ARE REVEALED BY PRESS

LONDON, Aug. 28.—(Correspondence)—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the committee of public accounts sheds fresh light on the subject. Nearly $8,500,000 was involved it appears in the government's plan to finance the Russian General Alexieff just before the Bolshevik revolution brought about his collapse. Part of that plan was to set up a Cossack bank in Siberia, and for that purpose $2,500,000 was loaned to a Russian financier. But the bank was never set up and the committee wants to know what became of the money.

The ministry of munitions paid $12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever except through the "stimulus to the steel trade."

Waste of nearly $500,000 is charged by the committee to the admiralty on a scheme for establishing schools to train boys in pneumatic riveting.

Cases are referred to by the committee where government officers holding responsible positions alloted contracts either to themselves or to firms in which they were interested. Such cases the committee asserts, "are especially liable to become an occasion for scandals."
