## Question of Seating Five Takes Interest From Housing Shortage Issue

ALBANY, N. Y., Sept. 20.—Interest in the housing shortage throughout the state which the legislature has been called to consider in special session tonight, was subordinated at the capitol today to a general discussion of what action, if any, the assembly would take regarding the five expelled Socialists re-elected at special elections last week to fill their own vacancies.

The Socialists, Louis Waldman and August Claassen, of New York; Samuel A. Dewitt and Samuel Orr, of the Bronx, and Charles Solomon, of Kings, were found guilty of charges of disloyalty last April by an assembly committee.

Some of the members of the assembly who voted to unseat the Socialists have let it be known that they have not changed their views, notwithstanding the re-election of the quietest. Some of them, it is said, are prepared to offer resolutions tonight to deny again the Socialists, thinking just as congress did in the case of Victor L. Berger.

It would be a different proposition, they point out, had the Socialist party elected other men to fill the vacancies.

# RECLAMATION EXHIBIT READY

## Beneficial Results to Farm Land by Drainage to Be Demonstrated

(Special to Standard-Examiner.)  
 LOGAN, Sept. 20.—The beneficial results of the reclamation of farm lands by drainage will be told by demonstration at the Cache Valley fair, September 21, 22 and 23, by the Utah Agricultural college and the United States department of agriculture, according to Prof. D. W. Anderson, in charge of the work in irrigation and drainage at the institution. The whole college exhibit will be designed to drive home this one fact in an effort to arouse enough enthusiasm in Cache valley in drainage to result in the creation of a valley where there are at present 60,000 acres that can be reclaimed in Cache valley by drainage. Small drainage districts already in operation have demonstrated that the land is rich and fertile, and the college is endeavoring to bring about the drainage of the land districts not yet reclaimed.

The fair exhibit will be comprehensive in scope. It will show by samples of soils with crops growing on them the beneficial results of drainage. Large maps will show the extent of drainage districts throughout the state. Drainage tile, equipment, measuring wires, pumps, etc., will be on display. A large bottle of drainage water will be kept to allow the curious to taste the plant-killing salt it contains. Photographs of drainage scenes will show just how the work is done. Samples of the alkaline ground in Cache valley will be on exhibit while a 2 percent alkali soil will be shown.

An important feature of the exhibit will be the Illinois drainage district. Copies of the Utah Session laws covering the creation of drainage districts will be available and the remarkable cases of drainage made by the state for the creation of drainage districts will be explained.

Experts will be on hand constantly to explain the exhibit.

# CORN-FED CATTLE HELD UNPROFITABLE

WASHINGTON, Sept. 20.—Cattle feeding in Nebraska during the past two years was a precarious venture, more likely to be unprofitable than not, the department of agriculture announced in reporting the results of its first cost of production investigation in the business of cattle feeding. Similar investigations are being made in Iowa, Missouri, Illinois and Indiana and reports soon will be made.

The average cost of corn-fed cattle in Nebraska laid down at the market was \$14.91 per hundred weight for 2,293 head fed in the winter of 1918-1919, \$12.82 for cattle during the winter of 1919-1920. There was an average loss per head of \$1.17 for the 1918-1919 fed cattle and of \$1.89 for the group fed last winter.

# Begin Right Now to Conquer Your Rheumatism

The tiny pain demons that cause your rheumatism will be back on the job with the first approach of damp, wintry weather, ready to take up their battle against your comfort with renewed fury.

And if you are going to again rely upon the liniment bottle to try to rub the disease away, you will be doomed again to nothing but disappointment. A disease that can cause so much pain and suffering as rheumatism, is not on the surface of the skin, and cannot be rubbed away.

Many forms of rheumatism are caused by a tiny disease germ in the blood, and in such cases the only

# LEAGUE PROVES 'RIGHT TO LIVE'

## Swedish Premier Is Confident of Just Land Decision; Finland Dissents

PARIS, Sept. 19.—(By the Association Press.)—The league of nations through its intervention in the Aland Islands question between Sweden and Finland, has proved its right to live as an effective means of preventing future wars growing out of international disputes, Bjarnar Branting, prime minister of Sweden, said today.

"I will not use the word 'war,' but the situation between Sweden and Finland was tense," Premier Branting declared. "The council of the league, through its cautious but prompt action, has dissipated the feeling and Sweden believes the council will settle the matter to the satisfaction of both countries."

Sweden had complete confidence in the league as a means of preventing future wars. All that the league needs to do is to give up the Aland Islands, Sweden has suggested a plebiscite, the premier said, but the council has not yet decided what means it will employ and three commissioners will make an investigation.

FINLAND DISSENTS.

Mr. Enckell, Finnish minister in Paris, today declared that the league of nations conclusions of Saturday when the council of the league decided it had the right to act as arbitrator between Sweden and Finland and announced its intention of appointing a commission of three to investigate the Aland Island question, were based on inaccurate premises.

Mr. Enckell also protests against the conclusion drawn at the recent conference of jurists.

Exception to the declarations of Premier Branting that Sweden is determined never to relinquish its sovereignty in the islands was taken by Mr. Enckell.

A public meeting of the league of nations council will be held tomorrow to deliberate on the situation created by the protest.

# HIGH EXPLOSIVE BOMBS FOUND BY ITALIAN POLICE

GENOVA, Italy, Sept. 18.—Two high explosive bombs similar to the one that exploded in the stock exchange here on Friday have been found by the police in a lively stable, but the persons who hid them have not been discovered. The authorities are closely following every clue feeling they may arrest the perpetrators of the outrage and very possibly reveal an international terrorist plot which may perhaps extend to the United States.

Six Hungarians have been arrested since the bomb explosion. They had plenty of money but none of them had identification papers. They are said to be communists and were taken at a hotel alleged to be a rendezvous for radicals. Several Russians and Hungarians, held as suspicious characters, were found there recently.

Police officials have ascertained the bomb had been made recently and for this reason there is some suspicion that it was turned out by a plant operated by workmen. Attempts have been made to blow up several fashionable restaurants, one of which was located in the basement of the stock exchange building.

# DEFENDS PLAN FOR SALE OF 'BIG 5' STOCKYARDS

HAMILTON, Mass., Sept. 20.—Frederick H. Prince issued a statement Sunday in reply to the special report of the federal trade commission to Attorney General Palmer last Friday which recommended rejection by the department of justice of the plan of the "Big Five" packers to transfer their ownership in stockyards to F. H. Prince and company of Boston.

"The plan is intended in good faith to bring about an absolute separation of the yards from packer ownership," Mr. Prince said in his statement.

The commission attacked the plan on the ground that it would permit increased rather than diminished competition of the yards by the packers with a resultant suppression of competition.

"The commission overlooks the fact," Mr. Prince said, "that the court to which the plan has been submitted has the power to investigate this aspect of the case and to impose such conditions as it may think necessary to make the separation certain and permanent."

# POLICE SAY CHAUFFEUR WAS BEATEN TO DEATH

KANSAS CITY, Mo., Sept. 20.—The police are investigating the murder of John W. Gray, 26, chauffeur, whose body was found in a secluded district east of town Sunday. Gray's car is missing. Search was made for three passengers Gray is said to have been driving when last seen.

The police said they had received information that Gray's passengers had planned to carry out a robbery and that when the chauffeur refused to assist they killed him and escaped in the motor car.

# IRISH REBELS TAKE CARS IN BIG RAID FOR GUNS

BELFAST, Sept. 20.—With twenty automobiles captured from week end pleasure seekers, Sinn Feiners in Mid-Tyrone Saturday carried out one of the biggest raids for arms in the history of Ireland. Early in the afternoon a body of armed men stationed themselves at the entrance to Gortin Glens and held up all motor cars.

When twenty machines had been captured a force of 100 masked men, all heavily armed and led by an officer, entered the cars, the drivers of which were compelled to drive the raiders around the country visiting houses in search of arms.
