

# Standard-Examiner Cooking School Is Held Big Success

Declaring that the Standard-Examiner Cooking School conducted during the past week at the Ogdén high school building had been a complete success, and urging that similar demonstrations be made in future years, many Ogdén women who have been attending the various sessions included their special studies yesterday. The demonstrators, Miss Gertrude L. Woodruff and Miss Veda Hunsaker, were both congratulated by the students of the cooking school and several Ogdén women who visited the Standard-Examiner office to thank the newspaper for providing the course.

Mrs. James T. Weir, of 150 Patterson avenue and her daughter, Miss Ellen Weir, who attended every session of the cooking school, said that they considered the course very instructive and of the greatest practical benefit, declaring the cooking school was a great success. Mrs. Weir has attended eastern demonstrations and she said that the Ogdén school compares with them more favorably. She was pleased especially with the use of home products. In commenting about the success attending the various articles demonstrated, she said:

**EVERYTHING GOOD.**

"The lemon pies were so good that after the sampling had ended there was absolutely none left. That's how good everything was. I think that's how good the cooking school was.

In the final demonstrations yesterday, making of pastry was explained. Lemon pies, Dresden patties, mutton rissoles, and pecan tumbles were the foods on the program. In demonstrating the making of lemon pie, however, the demonstrators clearly showed the methods that should be pursued in making other pies as well.

As has been done throughout the school, Utah products were used almost exclusively. This has been true excepting for Calumet baking powder, which was selected because of its very high quality and which has been successfully demonstrated each day. There had been much interest regarding the baking powder used, particularly because of the presence of Mrs. Kaffir, Calumet demonstrator at the school, and her explanation of the merits of the baking powder.

Van Allen's peas were used in the making of the tumbles yesterday, the splendid quality of this year's pack being commented upon as the peas were declared delicious and tender.

In the making of the pastry, Holley's Ogdén's Best Flour and Mountain Ogdén company were used. These products have been demonstrated throughout the school, along with Pierce's canned products, including pork and beans, tomatoes, catsup, hominy and soup; American-Maid bread, Murphy's Hotel Utah coffee, Lintal Dairy milk and Calumet, Nestlé's, Rick's butter and Amalgamated beet sugar.

**ELECTRICAL DEVICES.**

Demonstration of electrical apparatus supplied by the Utah Power & Light company, the Ogdén Electric Supply company and the Lighthouse, has been one of the features of the school. The Hughes electric range has been used for all baking and cooking and a Westinghouse range was placed at the school so that its excellent features could be demonstrated. Electric washing machines, ironers, sewing machines, percolators, toasters, grills, vacuum cleaners and other household equipment was also shown and created much interest. The cooking utensils supplied by the Richardson-Hunt company, including tinware, granite-ware, aluminum and glass ovenware also attracted attention. One of the features of the cooking school was the use of automatic equipment in the mixing of bread, the mixer being obtained from the Richardson-Hunt company. The demonstrators explained the benefit of using a kitchen cabinet, such as the Hoosier cabinet. In proper handling of kitchen affairs, Mrs. Valine Guinness of Utah Power & Light company, in charge of the demonstrations of electrical goods during the entire show and one day gave a special demonstration of toasting with an electric toaster and making of coffee with an electric percolator. Murphy's Hotel Utah coffee and American-Maid bread were used in these demonstrations.

Cooperating with the Standard-Examiner in the cooking school were a number of companies including the following:

Utah Canning company, Ogdén Packing & Provision company, Utah Power & Light company, Holley Milling company, Ogdén Electric Supply company, The Lighthouse, Calumet Electric company, Intermountain Electric company, Boyle Furniture Co., Nelson-Ricks Creamery company, Ogdén Baking company, Christensen-Ashton Music company, Western Market, Richardson-Hunt company, Kennedy's Cafeteria, National Bank of Commerce and the Calumet Baking Powder company.

**SOME RECIPES.**

Recipes that were used yesterday in the demonstrations, follow:

**SWEDISH TIMBLE CASES.**

1 cup of flour  
1/2 teaspoon salt  
1 teaspoon sugar  
1/2 cup milk  
1 egg  
1 tablespoon olive oil.

Mix dry ingredients and add milk gradually and beaten egg, then add olive oil. Shape, using hot table iron, fry in dry fat until crisp brown, take from iron and invert on brown paper to drain.

**TIMBLE IRON.**

Have fat about hot enough for uncooked mixtures. Put iron into fat, having it deep enough to more than cover it and let it stand until heated. Take iron from fat, shake, lower it in again and fry. The batter does not cling to iron or drop from iron as soon as immersed in fat if it is either too hot or not sufficiently heated.

**FORMING TIMBLES.**

Turn batter into cup, lower hot iron into cup, covering iron only to three-fourths its depth. If too high it goes over the top. The batter has to be cut off with sharp knife. If cases are soft,

## Lenroot, Beveridge To Speak in Ogden

Senator Irvine L. Lenroot, of Wisconsin, Republican representative in the senate and principal contender against Calvin Coolidge, vice presidential candidate at the Republican national convention at Chicago, will arrive in Ogden Tuesday morning at 11.45. He will address a Republican rally to be held at noon in the city hall square.

Senator Lenroot was among the senators who led the fight for the league of nations with reservations. He won renomination in the primaries in his home state, defeating LaFollette forces which were working against him.

Senator Lenroot has completed a tour of California and will speak in Ogden, Salt Lake and Provo on October 5. He will remain in Ogden for about three hours and then depart for Salt Lake. After speaking in Salt Lake he will address a Republican gathering at Provo.

Though among the younger senators, Renroot is regarded as one of the most powerful speakers in the senate.

Albert J. Beveridge, formerly senator from Indiana, a noted Chautauqua speaker and writer on social questions, will spend two or three days in Utah in the near future.

According to information received, Senator Beveridge will speak in Ogden on either October 8 or 9.

Present indications are that he will deliver an address at a local theatre. Complete details of his entertainment in the city, where he will speak, and the subject of his address will be announced when the plans have been completed.

## Completes Relisting of Reference Library

Miss Dora Smith, in charge of the reference department at the Ogdén library, has completed reorganization of the reference library at the Ogdén High school.

During the past number of years, the Ogdén High school library has been allowed to deteriorate, it is said. Books are now relisted, however, and a librarian will be selected to keep them in order.

The high school reference library is nearly extensive enough to accommodate the needs of students, Miss Smith said, and will be augmented during the coming year by other reference works.

## MOONSHINE FLOWED IN STREET GUTTERS

The booze started flowing when County Prohibition Commissioner Menter knocked in the heads of barrels containing moonshine confiscated, along with illicit stills, during raids.

Sheriff Hutchinson turned the hose on the stuff to speed it on its way into the sewer.

Then whisky barrels and copper boilers were sold, netting \$85 for the county.

## LOSES HEAVILY ON SUGAR DEAL

**J. W. Neil Buys Sugar for \$26; Must Sell it for \$16.50, Court Orders**

Five hundred bags of sugar, purchased by J. W. Neil of Ogden at the cost, he said, of \$26 per hundred pounds, were ordered released from a Salt Lake store yesterday upon motion of Isaac Blair Evans, United States district attorney, by Judge Tillman D. Johnson, of the United States district court.

The sugar is alleged to have been hoarded by grocers of Richfield prior to the increase in sugar prices last spring, and was purchased for speculative purposes by H. S. Anderson.

Neil claims that he purchased the sugar for Anderson for \$26 per hundred. He was given the sugar with the provision that he sell it in Utah at not more than \$16.50 per bag. Neil furnished \$500 bond to guarantee his disposal of the sugar at the set price.

## Republicans Getting Ready to Hold Rallies

A large banner, announcing the location of the Republican headquarters in the Hurst building, was hung across Hudson avenue between Twenty-fourth and Twenty-fifth streets yesterday morning.

A quantity of campaign literature was received and distributed during the early opening hours of the new headquarters.

The publicity committee for the Republican county organization has been announced as follows: W. Karl Hopkins, J. C. Littlefield, W. G. King and Floyd Timmerman.

Announcements were made last night by Arthur Woolley, chairman of the Republican county central committee, that complete schedules for county rallies to be held prior to the election in November, are being arranged and will be announced in the near future. The rallies will be held under the auspices of the Republican club and the women's Republican club.

J. M. Forristall is chairman of the committee on entertainments and will have charge of the rallies.

Mrs. Georgiana Marriott, president of the women's Republican club, and other officers of the organization will complete the organization of women's clubs during the early part of the week, it is reported.

## Boys' and Girls' Day Affords Diversion For Younger Folks

Yesterday was boys' and girls' day. The second day of the community festival was given over to making the occasion pleasant for the youngsters and for several hours their laughter in Lester park seemed to indicate that the day was a success.

With the sun's rays just warm enough to make play in the open inviting, hundreds of boys and girls went to the park at the appointed hour and proceeded to be entertained and to entertain themselves.

**LIKED THE BEARS**

The most interesting event of the day from the point of view of the children was the performance given on the platform by Iaveling's four bears. These animals seemed to have the intelligence of humans and from all indications enjoyed performing for the children as much as the children enjoyed their performance.

The bears drank red soda pop just like little boys and girls drink it and one bear ate an apple just as a little boy would do.

The bear who was most fond of the red pop said "Yes" very plainly when the trainer asked him if he liked it. Then there was a hula dance by one of the bears. This caused much joy to the many onlookers. And then Miss Mary Rich, with the assistance of the bears, gave a brief scene from "Goldilocks."

Even after the trainer announced the show was over and the bears had been placed in their box cages to be taken to Salt Lake, the children lingered for a long time around the cages of the pets.

The trainer gave a short talk to the boys and girls in which he urged that all animals be treated kindly and he said that his bears were kept tame and affectionate through kindness. He feeds them no flesh. Their diet consists principally of bread and grass.

**CHOW CHOW COMES**

The next exciting event on the program was the arrival of Chow Chow, the circus clown who gives canno-

## BIG MUSICAL SHOW COMING HERE SOON

Fanchon and Marco and a company of fifty-one will appear at the Orpheum in the very near future.

"The Salutes of 1920," their vehicle for the season of 1920-21, comes here with all sorts of praise from the Western critics. En route to Chicago, they are bringing with them, a cast including Lloyd and Wells, Arthur West, Al Wohlman and John Sheehan, Eva Clark, the prima donna, Muriel Stryker, Luella Harmon, Daisy De Witte and the prettiest aggregation of chorus maids ever assembled.
