How the Tide Turns

THE LITERARY DIGEST IN ITS ISSUE OF OCTOBER 23rd SAYS:

"The tide has swung to Cox and Roosevelt," confidently affirmed Chairman George White of the Democratic National Committee, early last week; but the swing apparently did not begin in time to be reflected in The Literary Digest's poll of 600,000 voters in New York, New Jersey, Ohio, Indiana, Illinois and California, six doubtful and pivotal states. A glance at the final tabulations of this trial vote shows Senator Harding still polling more than three votes for every one that reaches us for Governor Cox, and increasing his lead in each state as compared with last week's tabulation. These six states represent 140 electoral votes, or more than half the number necessary to decide the election.

SUMMARY OF LITERARY DIGEST POLL PUBLISHED OCTOBER 23rd

	Harding	Cox	Minor Candidates	Total Vote
New York	21,144	4,482	1,888	27,514

There Are Many Reasons

HERE IS THE BIG ONE!
Woodrow Wilson's Article 10

The members of the league undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league. Use it as a beautifier

Explaining the moderate price
Users of Palmolive should know why it can be bought at the price of other soaps.
Simply because Palmolive is so popular that it forces production in enormous quantity. The Palmolive factory works day and night, ingredients are purchased in gigantic volume. The result is a moderate price.
Palmolive is sold by all dealers and supplied in guest-room size by America's most popular hotels.

SOAP and water has a most important mission in preserving the beauty and fineness of the complexion. It removes the coating of dirt, perspiration and excess oil secretions which, with all traces of rouge and powder, must be washed away every day.
Neglect this daily cleansing and you in-

vite trouble. The tiny pores and minute Alands which make up the surface of the skin quickly become clogged and irritated. This clogging, this irritation, causes enlargement. This is the reason so many skins are coarse. Then when the coarsened pores fill with dirt, blackheads result. Soon they inflame and disfiguring blotches follow.

Do your washing with Palmolive

Don't say soap doesn't agree with your skin but go get a cake of Palmolive. Its pure, mild lather is so gentle in its action that it soothes while it cleanses.

Why it can't irritate
Because Palmolive contains Palm and Olive oils discovered 3,000 years ago in ancient Egypt.

If your complexion is excessively dry, apply Palmolive Cold Cream both before and after washing. This supplies the lacking natural oil and keeps it soft and smooth.

Cleopatra knew their value—they served her both as cleanser and cosmetic. Today their scientific combination in Palmolive Soap achieves the final toilet luxury.
