COLORADO FARMER SHOOTS OFF HEAD OF TALENTED WIFE

STERLING, Colo., Nov. 26.—John Kobler, a well-to-do farmer living twelve miles northwest of Sterling, turned the second barrel of a shotgun upon himself after he had shattered the head of his wife with the charge of the first barrel last night about 10 o'clock.

The bodies almost headless, were found at the farm home by neighbors attracted by the reports of the gun.

Unhappiness in family affairs is believed to have caused Kobler to commit the act. His wife, a talented woman, had given readings at a Thanksgiving day celebration in a rural schoolhouse on the evening of the tragedy.

Kobler was about 40 years and his wife near the same age. She had two children by a former marriage.

HARDING VIEWS CANAL DEFENSES

Guard May Be Increased to Full Army Division As Result of Inspection

ANCON, C. Z., Nov. 26.—Senator Harding devoted today, the last day of his short visit at the Pacific terminus of the Panama Canal, to recreation, for the most part, although he had several more talks with canal zone officials.

The president-elect rose early for a game of golf and later took a motorboat ride. Late this afternoon he will leave by train for Cristobal, where, on Sunday, he will go on board his ship for return to the United States, sailing for Norfolk.

PROTECTION OF CANAL. The question of the canal zone has engaged Senator Harding's active attention and he will be particularly interested in plans of the war department to increase that force to a full division.

The senator today had luncheon with Brigadier General Kennedy, commander of troops in the canal zone, and had a long talk with that officer.

During his motor ride he inspected the forts off the Pacific end of the great waterway.

Senator Harding's address at last night's banquet, tendered him by President Porras, of Panama, created a most favorable impression, judging from comments made by those present.

PANAMA RULER PLEASED. "The cordiality of your greetings and the fine spirit of your good wishes stir me deeply," he said, facing President Porras.

"We are rather more than friendly neighbors. We are spiritual partners in one of the gigantic advances of the twentieth century transportation.

"Your freedom and our genius and resources combined to link the oceans, and the day will come when the commerce of the world will stage a surpassing pageant here. One cannot escape the inspirations and the impelling influences of commerce and trade.

The adventurous navigators and discoverers came hither and revealed a western continent to the old world, but they came because they were inspired by trade. Trade has made peoples eminent throughout all time and the fact is no less true today than in the past.

ASSURES U. S. FRIENDSHIP. "I need not assure you anew of the friendship of our United States for your republic. We are deeply interested in the development of your good fortune. More, we want our proven friendship for you to add to the confidence of all America. North, Central, and South, in our people, and our government. We crave friendly relations, and we wish to prevent them and make them abiding. We want a spirit of fraternal Americanism which benefits the American continent, not in selfishness, not in rivalry of the old world, but in a mutuality of interest and helpfulness to one another."

DELYSIA BRINGS "THE MOST BEAUTIFUL BACK IN THE WORLD" TO AMERICA

NEW YORK—Here we meet, face to face, so to speak, the most beautiful back in the world. Perhaps you have followed the trackless trails of India, been the friend of queens and ventured in the Boreal wilds. Perhaps—oh, well—whatever you've seen! If you haven't seen Delysia's back (left), "you ain't seen nothin' yet!" Kitty Gordon (right) used to have the world's best back. But the artists here and in France and England now hand the honor of the French girl, who has come to New York with "Agar"—the colorful spectacle imported from London. She formerly played also in Paris. The French regard her as the "successor to Gaby Deslys."
