JAP CONDUCT POLE REFUGEES

ANGERS KOREA LEAD IDLE LIFE
SEOUL, Korea, Oct. 19.—(Correspondence)—That the over-bearing attitude of some Japanese towards Koreans has injured the feelings of Koreans and that the former harbored resentment against the latter is a fact that is becoming more and more apparent.

WARSAW, Nov. 27.—The Polish government is making a determined effort to stamp out the wandering idlers now numerous in eastern Poland. Six years of war have given rise to a class of refugees little removed from the professional tramp. Driven from their homes and their legitimate occupations by the war, these refugees have been wandering over the country, fleeing from one danger to another, but today they are being urged to take up any real work seriously.

Some times it is hard to tell the difference between the wandering idler and the professional tramp. The latter is a class of people who are not able to support themselves and who are dependent upon the charity of others. The former is a class of people who are able to support themselves but who are unwilling to do so.

Many of the refugees who would be popularly classed in America as "hoboes" are accompanied in their wanderings by children usually their own or those of some relative. In most cases these children are temporarily placed in an orphanage or similar institution at least until it appears that the refugee relative is ready to settle down and make a home somewhere.

THEIR RETURN STOLEN BONDS
SOUTH BEND, Ind.—The thief who stole \$500 worth of bonds from Mary Ann Payne's room, was considerably annoyed to return them by parcel post, when he found they were of no value to him.

LOUVAIN LIBRARY BUYS FROM FOE

LOUVAIN, Belgium, Nov. 8.—(Correspondence of the Associated Press).—Personal libraries of German savants are being purchased to restock the shelves of the Louvain library looted by the Germans in the war. The German professors are hard hit by heavy taxation and the high cost of living and many rare and valuable volumes have thus come into the market.

M. Louis Stainer, director of the library restoration committee, told a correspondent of the London Daily News here that Louvain was grateful for the abandonment of books from American well-wishers, although, as he put it, the American collection being an essentially modern one, had more of a "universal" than a "national" character.

No building yet exists in Louvain adequate to receive the new library and the books thus far obtained, including 35,000 volumes from England, are scattered wherever temporary accommodation can be found for them.

There are delinquent on the following described stock on account of assessment. The several amounts set opposite the names of the respective stockholders as follows:

Table with columns: Name, Shares, Amt. Lists names like Peter Mattson, W. F. Volker, etc.
