

LIST FUNDS FOR STATE SCHOOLS

Disbursements for Both City and County Larger Than Last Year

School district disbursements during the school year ending June 30, 1920, were \$3,468,857.15. In the preceding school year, they were \$6,109,415.37. The increase in the year was \$2,640,558.22, or almost 43 per cent.

The figures were gathered from data being assembled by E. J. Norton, assistant state superintendent of public instruction, in preparation of the biennial report of the state department of public instruction.

Figures already received by the state auditor, with regard to taxes levied for school purposes, indicate that the total disbursements of school districts of Utah for the current year will run well over \$10,000,000.

The largest increase of all was in Salt Lake school district, from \$1,708,000 to \$2,284,000, or close to \$500,000. Here, however, the rate of increase was only a little more than 25 per cent and well below the average rate of increase in the state.

Building programs of the previous year, somewhat more elaborate than those of last school year, account in most instances for slight decreases in disbursements in Grand, Kane, Morgan, and San Juan districts.

Classified according to uses to which the money is put, the tabulations compiled by Mr. Norton show that operating expenses in the elementary schools for the year ending last June were \$2,867,842.40, as compared with \$2,262,879.66. The operating expenses in the high schools of the state during the same period were \$1,532,468.28 and \$242,845.99, respectively. The largest items in the operating expenses of the schools are, of course, the salaries of teachers, though books and other supplies, heating and payment of janitors, are included.

Disbursements in Weber county were \$155,628.21 in 1920 against \$117,653.79 in 1919. Ogden City disbursements were \$525,533.94, as against \$353,744.24 in 1919.

LEAGUE AVOIDS GERMAN DEBATE

Admission of Late Enemy May Not Be Discussed at Present Meeting

By H. N. RICKEY,
N. E. A. Staff Correspondent.
GENEVA, Switzerland, Nov. 30.—The question of the admission of Germany to the league of nations will not be brought up for serious discussion at this session of the assembly.

Undoubtedly there are enough nations favoring Germany's admission to guarantee the two-third vote at some future meeting if Germany has given effective guarantees of its sincere intention to observe its international obligations.

The delegates from many of the smaller nations more or less friendly to Germany were inclined early in this session to force the issue of Germany's admission to this session. The French delegation under the aggressive leadership of Viviani, has bitterly opposed this suggestion, both in and out of the meetings, and has succeeded in converting enough delegates to win its point.

The delegates from many of the smaller nations more or less friendly to Germany were inclined early in this session to force the issue of Germany's admission to this session. The French delegation under the aggressive leadership of Viviani, has bitterly opposed this suggestion, both in and out of the meetings, and has succeeded in converting enough delegates to win its point.

THINGS ON TREATY
The French pointed out that the question of Germany's admission to the league was affected by two sections of the treaty. The first section, article 1, part 1: "Any fully self-governing state, dominant or colony not named in the annex may become a member of the league if its admission is agreed to by two-thirds of the assembly, provided it shall give effective guarantees of its sincere intention to observe its international obligations and shall accept such regulations as may be prescribed by the league in regard to its military, naval and air forces and armaments."

The second section, article 23, part 1: "The amount of the above guarantee for which compensation is to be made by Germany shall be determined by an impartial commission to be called the reparations commission, and to be constituted in the form and with the powers set forth hereunder and in the annex 2 to 7 inclusive hereto. This commission shall consider the findings of the commission as to the amount of damage defined above. When this shall have been concluded and Germany notified as to the extent of that government's obligations the commission shall concurrently draw up a schedule of payments prescribing the time and manner for securing and discharging the entire obligation within a period of 30 years from May 1, 1921."

MAY BE POSTPONED
"If, however, within the period mentioned Germany fails to discharge her obligations, any balance remaining unpaid may, within the discretion of the commission, be postponed for settlement in subsequent years, or may be handled otherwise in such manner as the allied and associated governments, acting in accordance with the procedure laid down in this part of the present treaty, shall determine."

By article 1 it is perfectly clear that a state seeking admission to the league must give tentative guarantees of its intention to observe its international obligations.

The French contention that the question of Germany's admission should be postponed until next summer is based on the fact that, by article 23, the international obligations of Germany do not, so to speak, begin until May 1, next year, and that it will only be on that date that the provisions of the peace treaty will be fully carried out.

FRENCH VIEW WINS
The French have secured adherence to this view by practically all of the delegates, although in order to do so they have had to accept in principle the almost unanimous view of the

NOT WORKING BUT TRIED OUT

When one feels always tired without working or suffers from backache, lumbago, rheumatic pains, sore muscles or stiff joints, it is not always easy to locate the source of trouble, but very frequently it can be traced to overworked, weakened or diseased kidneys. Mrs. L. Gibson, 12th and Edison St. La Junta, Colo., writes: "My kidneys were giving me a great deal of trouble for some time. I took Foley's Kidney Pills and they helped me right away." FRENCH PLAN TO LET TURK TREATY REVISE ITSELF

PARIS, Nov. 29.—To let the Turkish treaty revise itself if the allies cannot agree upon its revision is the official French plan that Premier Leygues will present to Premier Lloyd George of Great Britain and Count Storza, the Italian foreign minister, when Mr. Leygues returns to London tomorrow. It was indicated in official quarters today.

By letting the treaty revise itself, the French foreign office means, it was explained, that if French and British support is withdrawn from Greece, the Turks can regain much of the territory taken from them by the treaty, although the allies would make sure of retaining their hold upon the Dardanelles straits and the Turkish finances.

WORK CONTINUED ON JAP TREATY

WASHINGTON, Nov. 29.—Negotiations between the United States and Japan looking to a new treaty growing out of the adoption of the anti-alien law in California will not be interrupted by reason of the visit of Secretary Colby to South America. The conversations, which were suspended last week during the absence from Washington of Roland S. Morris, American ambassador to Japan, are to be resumed at once and it was said today that, since Undersecretary Davis was fully acquainted with the details of the negotiations, he and Mr. Morris could bring them to a conclusion.

COOLIES WILL BE BARRED BY AMERICAN LAW, NOT BY JAPAN'S DECREE

State department officers are to confer with leaders in the senate and house before the negotiations are completed. In this connection it was learned that the exclusion of Japanese coolies from this country is to be accomplished not simply by an imperial Japanese decree, but by American law. This will involve legislation by congress probably in connection with the whole subject of immigration restrictions which are now being considered by the senate and house immigration committees.

It was also learned today that it is not proposed to confer full "civil rights" upon Japanese now in this country. Instead, there will be some safeguarding of the property rights of Japanese already legally acquired. This is described as a much narrower privilege than that of the free enjoyment of "civil rights."

MESSAGE TO COAST.
SACRAMENTO, Cal., Nov. 29.—Secretary of State Colby telegraphed today to Governor W. D. Stephens that treaty negotiations with Japan are "informal and tentative and have not as yet reached the point of submission and of formal consideration."

The dispatch replied to the protest of the Japanese Exclusion league of California against provision in the treaty that would conflict with the alien land law of California.

INDIA TO COMPLETE.
DELHI, India, Nov. 29.—The committee of the all-India lawn tennis association has decided to enter a team to play for the Davis cup in 1921. This will be the first time that India has entered the competition.
