BOARD ADVISES MAKING POLAND BOSS IN DANZIG

Report Concerning Military Control of Free City to Be Referred

SENATOR McCORMICK INTERESTED OBSERVER

Dangerous Situations May Develop in Final Week of League Meeting

GENEVA, Dec. 13.—(By the Associated Press.)—Military control of Danzig by Poland has been recommended to the council of the league of nations, in a report from the military commission. This recommendation should be adopted, it is believed with a request from the Polish government some time ago, it being alleged at that time that military control of the port of Danzig was necessary to insure the transport of food, munitions and raw materials to Poland.

The council has decided to refer the report, along with a suggestion by Viscount Ishii, of Japan, that a military commission study the best means to defend the town, to the high commission, who will be asked to send in a report.

SHARP COMMENT

Separate action by the premiers of France and Great Britain on matters before the assembly of the league of nations are made the subject of sharp comment by the committee on admission of new states. Lord Robert Cecil, representative of Great Britain, and M. K. Dr. Nansen, of Norway, agree in criticizing the action of those governments in announcing policies regarding such questions as the admission of Armenia, through other channels than their representatives at the assembly meeting here who are charged with such problems.

SCRAP WITH ARMENIA

Rene Pichon, of France, who has been said to be most particularly annoyed by the declaration of British and French premiers to the effect that Armenia should not be admitted to the league, was not present today. Comment on the incident continues to be one of the predominant features of the meeting, the opinion being expressed that if the powers decided to continue such questions in the old form of diplomatic action they are not ready for the league of nations.

MCCORMICK PRESENT

United States Senator McMillin McCormick watched the proceedings during this morning's session from the press gallery.

He had refused an invitation from the British delegation to occupy a seat with the delegates. His presence in the press section appeared to attract little attention. The senator followed closely the debate on the international court project.

Alluding to the Weber college gymnasium Patriarch Smith said perhaps the people wondered why the Lord requires them to go to such a big expense in erecting the building.
