SUGGESTIONS

For a June Wedding

PREPARATION OF FLOWERS

Tulips are very effective for June weddings, and if used in large quantities they will impart a smart simplicity without the usual prettiness. The tulip is a decorative flower, and when used sparingly, it does not detract from the general effect of a pretty scheme.

NEW IDEAS IN SHOWER BOUQUETS

Flowers filled with daisies for the bridalmaids or flower girls in a most refreshing way. They are arranged so that they are not injured in the event of their being taken away from their vases, and the effect is quite charming.

MARJORIE W.

This idea was recently employed and is suitable for June weddings.

SUGGESTIONS FOR TABLE DECORATIONS

When a table is employed for June weddings, the centerpiece is of great importance, and if the flowers are arranged in the center of the table, they should be placed in a vessel that is suitable for the occasion. It is advisable to use a bowl or vase that is not too large, as an excess of flowers will detract from the general effect.

AN OLD-LINE IDEA

A beautiful scheme of flowers placed in a vase on the table, with a number of small vases filled, each containing a small bouquet of flowers, will make a charming center for the table.
