SMALLPOX EPIDEMIC IN GOSHEN SERIOUS

The state board of health and the health authorities of Goshen have combined forces in an effort to get control of a serious outbreak of smallpox in the little city. C. F. Emery, state sanitary inspector, who returned recently from an investigation of conditions in Goshen, reported to Dr. T. B. Beatty, secretary of the state board of health, that the epidemic was the result of the people of the town having been "taken in" by a fake "internal vaccination remedy" sold to them in great quantity. Dr. Beatty said yesterday: "This medicine has no more merit than so much water and steps will be taken to prosecute those misrepresenting it in this state."

Mr. Emery went to Grantsville yesterday to look into the typhoid fever situation. Several cases have been reported from that town and Mr. Emery will cooperate with the officials in an endeavor to prevent a recurrence of an epidemic of typhoid such as occurred two summers ago.

Mrs. Lela Love, wife of Wiley Love, a farmer living near Covena, Ga., says: "I have taken Foley Kidney Pills and find them to be all you claim for them. They gave me almost instant relief when my kidneys were sluggish and inactive. I can cheerfully recommend them to all sufferers from kidney troubles." Schramm-Johnson Co.
