

UTAH IS LOSING HER BIRTHRIGHT AND FEW SEEM TO CARE

State Is Idly Permitting Its Grip to Loosen Upon Great Resources.

One of the most frequently heard criticisms locally is that inspired by the attitude of officials in Washington in the matter of withdrawals of Utah oil lands.

Why Capital Hesitates.

"Suppose you go down into one of the Utah fields known to contain oil and locate some ground. You may be lucky enough in gathering together enough capital to get your drilling for oil.

"There is pending in congress at the present time what is known as the Smoot bill, which contemplates the acquisition of an individual or corporation of a very limited number of acres for exploitation.

"There is another thing that we residents of the state of Utah would like to have explained, and that is the particular has been picked out by the conservationists for their untiring activity?

"It is a decidedly unfortunate and unfavorable condition all around the state of Utah. There is no relief in sight and one of the unfortunate and inexcusable features of the situation is the disinterested attitude of the various ones in this state who should be first and foremost in demanding remedial legislation.

"The metal quotations for Thursday, posted by McCormick & Co., were as follows: Silver, 61 1/2; lead, 34.00; copper, 37.17 1/2.

Table with columns: Bid, Asked. Lists various stocks like Associated Oil, Caribou, etc.

USUAL DIVIDEND OF THE UNITED STATES Smelting Company Will Pay Husky Fortune for Third Regular Quarter.

The much-discussed question as to whether or not the United States Smelting, Refining & Mining Company would respond to the increased price of copper metal by an increased dividend on the common stock was settled for at least the immediate present on Thursday by the declaration of the regular dividend for the new quarter.

This 50 cents a share on the common stock means the checking out of \$175,000, bringing the total dividends on which stock to date to \$4,255,598.

There is more of this United States stock held by Utah investors than of any other leading smelting organization, as there are a number of Utahs represented on the board of directors.

Why Capital Hesitates. (Continued from previous article)

WESTERN STATES ARE LOSING PHOSPHATE

The Mining and Oil Review says: During January, 24,719 acres of land in the state of Idaho believed to be underlain by phosphate rock, were withdrawn on recommendation of the United States Geological Survey.

OPONGO WILL GO ON QUARTERLY BASIS

William Hatfield, president of the Opongo company, stated on Thursday that in July the directors will meet for the purpose of putting the organization on a quarterly dividend basis.

NEW MANAGER FOR THE INSPIRATION

Charles E. Mills, general manager for the Detroit Copper company and in charge of all the Phelps-Dodge interests at Morenci, Ariz., has been appointed general manager for the Inspiration Consolidated Copper company at Miami and will take charge early in July.
