

SENATOR LORIMER NOT WHITEWASHED

Winston, of Alabama, Defends Action of the Senate Subcommittee.

HE ANALYZES THE COUNT of Corrupt Election, Even With Corrupted Votes Thrown Out.

Mobile, Ala., December 31.—Defending the action of the subcommittee that investigated the bribery charges against Senator Lorimer, of Illinois, Senator Joseph P. Johnston, of Alabama, who is recuperating from a slight illness, today gave out the following statement:

The subcommittee appointed to hear the evidence in the case was composed of Republican and Democratic Senators. Had any of the members been inclined to be influenced by political bias, the conditions did not warrant such action, for the Legislature and incoming was safely re-insuring that party a Senator action might be had.

No questions were to be asked of Senator Lorimer had in bribery or any corrupt practice to secure his election, or sanctioned any such acts. If the subcommittee was unanimous in its opinion that he should be seated.

Committee Chairman. The members of the committee are unanimous in the opinion that Senator Lorimer was himself guilty of bribery or any corrupt practice that he sanctioned, or was aware of the fact that bribery or corrupt practices were being used to influence votes for him.

The only question was whether the evidence showed that the votes of the members of the subcommittee were of the opinion that the evidence failed to show that he was elected, except one, Senator Stringer, whose conclusion was that the members of the Legislature were of money for voting for Senator Lorimer, or in consequence of having been bribed, that one State Senator three representatives obtained an amount that they were paid money the Senator was satisfied that such votes were as a bribe, or in consequence of having voted for Senator Lorimer, that these four self-confessed voters implicate three other members who voted for Senator Lorimer.

The persons who bribed them, that the seven votes were eliminated. Senator Lorimer's vote is recorded less than a majority of the total. I think the Senator erred in his judgment if we accept his findings.

I am unable to find any testimony ever even tending to show that Senator Link and Holshaw, who were voted for either Stringer or Hopkins, were induced corruptly to vote for Senator Lorimer. The fact that the Frederick vote should be counted for Stringer or Hopkins, in Frederick not only denied an amount that he had bribed Holshaw, but paid him any money, but that he was anxious to vote for Lorimer for personal reasons.

Even if these seven men (including Holshaw) should be excluded from the count, Lorimer was elected, for that would have left him 101 votes against total of 94 for Stringer and Hopkins.

The report of the subcommittee was sent to its full committee and a majority of the full committee is holding six Republicans (Democratic), except Senators Beveridge, the latter he was not prepared either to dissent, nor having had any voice in the matter. He was presented by the subcommittee that it be printed as an attempt was made to present consideration, and the only suggestion being a time for four personal reasons.

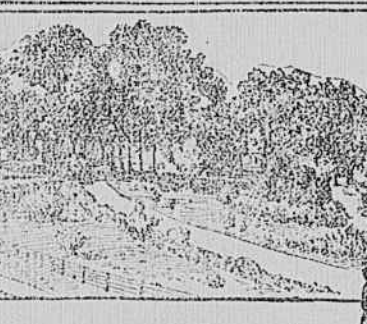

I urge that it be set for January so that the criticism in regard to this matter and as to his being elected seems to have no foundation. It is rather curious that six Republicans and four Democrats should be in this report, one Democratic is assenting and one Republican declaring he was not prepared to be present or absent, and no attempt seems to have been made to the impression that the report was written but was an attempt to whitewash.

trade made peace overtures to Madrid, in which he suggested the friendly mediation of the American government, but these Madrid refused to accept. Fierce fighting between the government troops and the insurgents around Bluefield followed the failure to reach a settlement.

Estadina proclaimed the independence of the coast republic in Nicaragua on June 12 last, and assumed personal command of the rebel forces a month later. His army met with a series of successes, and on August 20 Nicaragua was practically in the hands of the insurgents. Dr. Madrid quit the presidency.

Since August 20 events moved quickly toward a satisfactory adjustment of the relations between the United States and Nicaragua.

Dr. Jose Madrid, who was at one time the representative of Nicaragua at the Central American court of justice at Santiago and a Zelayan adherent, was elected President of the republic by the unanimous vote of Congress on December 29, but he was not recognized with favor by the government of the United States.

to regain control of the Central American republic. Private cablegrams received here this afternoon declare the force of revolutionists headed toward Tegucigalpa, the capital of the republic, its meeting with little resistance. Government soldiers along the Nicaraguan border are declared to be deserting the ranks of the insurgents.

While the main force of revolutionists is moving on Tegucigalpa, the real directors of the movement, Manuel Bonilla and Leo Christiana, have not landed on Honduran soil. They are on the steamer Hornet, which is expected to reach Puerto Cortez Sunday morning and immediately attack that port.

DIX IS GOVERNOR NOW Takes Oath of Office at His Residence. [Special to The Times-Dispatch.] - Raleigh, N. C., December 31.—Governor-elect John A. Dix took the oath of office at 8 o'clock to-night. The ceremony was administered by Secretary of State Samuel S. Koenig at the Dix residence, 431 State Street. There were present only Mr. Dix, Mrs. Dix, Secretary to the Governor John A. Mason, Mr. and Mrs. Curtis N. Douglas. The formal ceremony, which did not last more than five minutes, was not for the public, as it is planned that Governor Dix will again take the formal oath at noon Monday in the assembly chamber. MESSAGE IS READY FOR LEGISLATURE

Governor Kitchin Will Make Important Recommendations.

[Special to The Times-Dispatch.] - Raleigh, N. C., December 31.—It is expected that the message of Governor Kitchin to the General Assembly, that convenes Wednesday, will be completed by Tuesday. It will hardly be transmitted to the Senate and the House before Thursday. It being public thereafter, it will be quite a lengthy document, dealing with the whole scope of the affairs of the State, and those who have had opportunity to ascertain probable features say that it will be a very conservative but very positive document, State finances, and especially the deficit that there is in the treasury, at this time—\$2,190,000—will come in for treatment, and insistence will be made that one way to increase the revenue of the State without overburdening those who are now paying the taxes, will be to take steps that will insure the more complete listing of the household and other personal property, at a very large per cent, of which new taxation. In treating the North Carolina anti-trust law, and needed amendments, it is expected that the Governor will insist on more positive force being injected in the measure, rather than any multiplication of the machinery for its enforcement. He is said to have very positive views about what is needed, and thinks also that the law as it now stands has not been afforded any opportunity to demonstrate just what can be accomplished through it.

TO GROW HAIR ON A BALD HEAD BY A SPECIALIST. Thousands of people suffer from baldness and falling hair who have tried nearly every advertised hair tonic and hair restorer, without results. They have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless. The following simple home remedy will make the hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist. Buy: Gum, 6 ounces; Laxona oil, 2 ounces; Sassafras, 1 ounce; Menthol Crystals, 1 dram. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfuming Compound. Mix with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.
