LOCAL FIREMEN TENDER BANQUET

Visitors Cordially Welcomed by Mayor Buxton—B. J. O'Hara the Toastmaster—Firemen Going to Norfolk After Seeing Rest of Peninsula.

Union Steam Fire Engine and Chemical Company, No. 3, a crack organization of York, Pa., eighty strong, arrived in the city yesterday shortly after noon.

Chairman Charles Hamilton and the entertainment committee of the local organizations met the visitors at the Warlick and escorted them to Hotel Warwick. The delayed arrival of the Merchants and Miners steamer made it impossible for the laddies to visit the shipyard, so they remained at the hotel for dinner and in the afternoon toured the city stopping at all three of the engine houses.

THE PEOPLE OF PARIS.

Their First Movements in Revolution Are Usually Generous.

I know the men of the people in Paris too well not to know that their first movements in times of revolution are usually generous and that they are best pleased to spend the days immediately following their triumph in boasting of their victory, laying down the law and playing at being great men.

TIDAL FLUX AND REFLUX.

Complicated Movements of the Billows of the Ocean.

Those who see the rise and fall of the tides in our Atlantic harbors seldom think of the wonderful course of the ocean waves which cause the tidal flux and reflux.

When the Ohio and the armored cruiser squadron pass there will be a rousing greeting exchanged between the men now bound to Asiatic waters and those trailing the long "homeward bound" pennant behind them.

When the battleship reaches the Mediterranean it will be her first appearance in those waters. She was built on the Pacific coast at the Union Iron Works in San Francisco.

Is The Moon Inhabited.

Science has proven that the moon was an atmosphere, which makes life in some form possible on that satellite; but not for human beings, who have a hard enough time on this earth of ours.

The entire history of Tacitus, as we have the work, was regained from a single copy found in the fifteenth century in a monastery of Westphalia.
