

CHICAGOS NOW THE WORLD'S CHAMPIONS

Chance's Men Take the Fourth Successive Game from Detroit In an Easy Manner.

PITCHER BROWN IN RARE FORM

He Held Tigers Down to Seven Scattered Hits and Gave Only One Base on Balls—Cleveland Base Running by the Cubs Virtually Won the Game for Them.

(By Associated Press.) DETROIT, Mich., Oct. 12.—The Chicago National League baseball team this afternoon at Bennett park won the world's championship, defeating the Detroit American League team by the score of 2 to 0.

It was the fourth successive victory for the Chicago team in as many days. Taking advantage of every slip made by the local players and running the bases cleverly, they scored two runs in the first two innings, while the Detroit team did not succeed in getting one man over the home plate.

It was a disappointing day for the local team in more ways than one. The weather was raw and cold, entirely unfit for baseball, and less than half of the expected 15,000 to 18,000 people attended the game.

Mullin and Brown both pitched well, but the Chicago man received stronger support from his team mates. Brown was also steadier than Mullin. Edging but one base on balls to Mullin's three, one of which developed into a run in the first inning. The local team reached third but twice during the game, and each time Brown held the succeeding batter safely. In an effort to check the base stealing of Chicago, Manager Jennings sent in his left catcher, Archer, to receive Mullin, but the Chicago men succeeded in stealing four bases from him, stolen bases figuring materially in the scoring of both their runs. Tinker and Evers made a fine double steal in the second inning. Jones and Conklin succeeded in stealing bases this afternoon from the clever King, whose throwing to bases aided so largely in Chicago's victories.

SOUTHERN CANNERY MERGE.

Washington Capital Interested in Combination of McIlhenny Plants.

NEW YORK, Oct. 12.—Announcement is made that an important deal, involving the combination of some large Southern packing and canning interests, has just been completed through George W. Young and associates. The deal involves the acquisition by the McIlhenny Company of the tobacco sauce business of E. McIlhenny's son and the canning and packing business of the McIlhenny Canning and Manufacturing Company, which is said to operate one of the largest modern canneries in the United States.

E. A. McIlhenny will be president and Frederick Kopf, vice president. Mr. Kopf, in speaking of the enterprise, said: "The company's land and factories are situated on Avery Island, La., and it has offices in New York, Chicago, San Francisco, Portland, Montreal, and London. In the production of its

specialties the company will operate a fleet of fifty boats and upward, and will employ over 1,000 hands."

"CRAP" JOINT RAIDED.

Officers Take in Eighteen Dusky Gamesters.

Sergeant Mitchell, Detective Pearson and Patrolman Parfitt raided a "crap" joint at 2114 Jefferson avenue about midnight last night, and captured eighteen negro men.

Seventeen of the men are charged with "shooting crap," while the other one, W. H. Williams, is charged with running the place. Williams was hailed by Justice Clements, but the others were locked up to await a hearing before Justice Brown in the police court tomorrow morning.

Kilpatrick in Port.

The transport Kilpatrick arrived in port yesterday from Havana, Cuba, and is anchored in the harbor, where she will be examined preparatory to undergoing repairs. She will be replaced in the transport service between this port and Havana by the transport Sumner, which came here from New York some time ago.

ROBBERY FROM PERSON.

Young White Men Men Held at Police Station on Serious Charge.

W. D. Smith and E. L. Pauley, young white men, were arrested and locked up at the police station yesterday on the charge of robbery from the person. The men are charged with stealing a diamond ring from Eddie Woods and a watch from a young man named Brady.

The watch and ring were recovered shortly after they were stolen. It is alleged that the pair slipped the ring off Woods's finger while he was sitting in front of a barber shop and, after being forced to return the ring, took the watch from Brady's pocket while the three were standing at the bar in Charles Weidemeyer, at Thirty-sixth-street and Washington avenue. Mr. Weidemeyer notified the police.

Docked for Repairs.

The four-masted schooner William H. Yerkes was floated into dry dock No. 2, at the shipyard, yesterday morning to have her hull below the waterline cleaned and painted before loading a cargo of coal here for New England ports.

"SUNSHINE" HAWKS TO SPEAK.

Season's First Meeting for Men at the Y. M. C. A. This Afternoon.

The first of the fall and winter meetings for men at the Young Men's Christian Association will be held this afternoon at 3 o'clock. Prof. A. W. Hawks, "Sunshine" Hawks, will be the speaker, and a special musical program has been arranged.

WANTS STRIKE ENDED

President of Telegraphers' Union Asks Locals to Vote on Question.

NEW YORK, Oct. 12.—Following the visit to this city of Labor Commissioner Neil, President Samll, of the Telegraphers union this afternoon took decisive steps to close the telegraphers' strike. He sent the following telegram to all the leading cities of the country:

"Prominent New Yorkers appealed to me to call the strike off. All efforts at negotiations are exhausted and the company's officials say they will fight to a finish. The treasury is depleted, and no more funds are available. Requests for relief from all sides are heavy and urgent. The general assembly cannot help them. The strike having been ordered without the president's sanction, I recommend that locals vote on the proposition."

ARMY OFFICER IN TOILS.

Lieutenant Allan Lewort Arrested on Forgery Charge in New York.

NEW YORK, Oct. 12.—Allan Lewort, a first lieutenant of the coast artillery, United States army, has been arrested in the King Edward hotel, 155 West Forty-seventh street, after a scuffle with Lieutenant Barney McConville and Post-office Inspector Nelson, and taken down to police headquarters, where he was locked up on a charge of forgery. According to the police, Lieutenant Lewort received Norton and Co., loan brokers, of Wheeling, W. Va., out of \$1,500 by forging the names of brother officers to applications for loans.

Norton and Co. have been making a business of lending army officers money on their salaries, and it is alleged, Lieutenant Lewort took advantage of this to get himself out of some financial scrape.

BIG FIVE MEET STRONG ELEVENS ON GRIDIRON

Yale, Harvard and Princeton Make Most Creditable Showings Against the Smaller Colleges.

VIRGINIA PILES UP A BIG SCORE

Rolls of 40 Points Against the Eleven Which Georgetown Barely Defeated—Annapolis and Vanderbilt Play a Tie Game, Each Securing a Touchdown and Goal.

The big colleges are getting nearer and nearer to each other on the gridiron. Yesterday some of the big "varsities" met supposedly strong elevens of the smaller institutions and the results were generally surprising. The friends of the University of Virginia find much that is encouraging in the game with Gallaudet. Georgetown was able to defeat the Washington institution by a very small score, and the Virginia adherents did not look for the overwhelming victory which was won. Yale piled up 52 points against Holy Cross, and did not have its goal line crossed. The Massachusetts college was supposed to be unusually strong this year, and either Yale must have a wonderful team or Holy Cross has been greatly overestimated. Harvard's showing against Williams was most creditable. Williams has for several years past been in the habit of crossing the line of the Crimson but was unable to do so yesterday. Princeton shows every evidence of being entitled to the credit of having one of the best elevens on the gridiron this fall. Her sweeping victory over the strong Bucknell team cannot help but be a source of gratification for all the Tiger boosters. Cornell did not show up as strong as was expected, as Colgate was unusually weak this year, but then the Ithaca institution may have had a pack of substitutes in during a large portion of the game.

Either Vanderbilt must be very strong or Annapolis a trifle weak for the two institutions have no means to play a tie game unless a fluke figured in the result. University of Pennsylvania had eight points scored against it by Swarthmore, an eleven which has defeated the red and black within recent years.

The Results Yesterday.

The results of the most important games played yesterday are as follows:

- At Richmond—A. & M. College, N. C., 7; Richmond, 4. At Washington—Western Maryland College, 12; Georgetown University, 0. At Lexington, Va.—Virginia Military Institute 27; Navy Yard, Washington, 0. At Charlottesville, Va.—University of Virginia, 40; Gallaudet, Washington, D. C., 0. At Ithaca—Cornell, 18; Colgate, 0. At Cambridge—Harvard, 18; Williams, 0. At West Point—West Point, 12; Trinity, 0. At Princeton—Princeton, 52; Bucknell, 0. At Annapolis—Naval Academy, 6; Vanderbilt, 6. At Philadelphia—University of Pennsylvania, 16; Swarthmore, 8. At Buffalo—Carlisle, 14; Syracuse, 6. At New Haven—Yale, 52; Holy Cross, 0. At Athens, Ga.—University of Tennessee, 15; University of Georgia, 0. At Blacksburg—Virginia Polytechnic Institute, 18; Hampden-Sidney, 0. At Macon, Ga.—Mercer, 6; University of Florida, 0. At Atlanta, Ga.—Georgia Techs, 70; Dalton, 0.

GOING TO RICHMOND FOR FOOTBALL GAME

Local Enthusiasts Expect to See Virginia Win From Carolina With Ease.

A large number of local football enthusiasts are planning to go to Richmond on October 25 to see the annual football game between the University of Virginia and the University of North Carolina, which will be played at Broad Street park, that city. Carolina played here last Saturday against Washington and Lee University and those who saw the work of the team in that game expect Virginia to defeat the "Tarheels" with ease.

Quite a number of local lovers of the gridiron sport journeyed over to Norfolk yesterday morning to see the efforts of William and Mary College and Randolph-Macon College battle at Lafayette field in the afternoon.

Death of George W. Gwynn.

Mr. George W. Gwynn died Friday morning at 4 o'clock at his home, 1043 Twenty-fourth street, after a long illness. Funeral services were conducted at the residence Friday afternoon at 4 o'clock by Rev. M. J. W. Butler, and the body was interred at Greenlaw cemetery. Mr. Gwynn was born in Nausomond county, Virginia, July 9, 1835. He served in the Confederate army throughout the civil war. He had been married twice, and his widow and five children survive him. Mr. Gwynn came here from Norfolk county eight years ago to make his home.

THEY WANT FOUR MORE MONSTER WAR SHIPS

The General Board of the Navy Recommends Very Heavy Increase of Fighting Vessels.

ASKS FOR THREE FAST SCOUTS

Would Also Have Six Torpedo Boat Destroyers and Four Submarine Torpedo Boats—Need of Colliers and a Repair Ship Brought Out by the Voyage to the Pacific.

MRS. MORRIS IN STATE ASYLUM.

Woman Who Was Ejected from White House is Hopelessly Insane.

ST. LOUIS, MO., Oct. 12.—Mrs. Minor Morris, of Washington, D. C., has been pronounced hopelessly insane and committed to the State insane asylum at Farmington, Mo.

After her arrival here several weeks ago, she denounced President Roosevelt for her alleged forcible ejection from the White House a year or more ago, and was then, by request of relatives, taken to the city hospital and held for observation until shortly before President Roosevelt passed through here on the way to the Memphis waterway convention, when she was taken to a private sanitarium at Jacksonville, Ill., where she was confined until yesterday.

CRUISERS ON THE WAY.

Washington and Tennessee Start for San Francisco.

The United States armored cruisers Tennessee and Washington, which have been loading coal and supplies in Hampton Roads for over a week, weighed anchor about noon yesterday and steamed out to sea on their long journey through the straits of Magellan to San Francisco.

The vessels passed out of the Capes at 1:30 o'clock in the afternoon and a short time later they turned their noses southward.

Monday's Exposition Program

ASHEVILLE, N. C., DAY. J. O. OF U. S. A. M. DAY. Special Features of the Day. 9:30 a. m.—Concert, Exposition Band, Main Entrance Stand. 10:30 a. m. to 12:30 p. m.—Concert, Phibney's U. S. Band, Main Entrance Stand. 11 a. m.—Concert, Exposition Band, States' Exhibit Court. 1 p. m.—Piano Recital, J. Phillips Rowland, Auditorium. 2 to 4 p. m.—Concert, Liberator's Military Band, Auditorium. 4 p. m.—Organ Recital, Dr. Percy J. Starnes, Auditorium. 5 to 7 p. m.—Concert, Phibney's U. S. Band, Reviewing Stand. 6 to 7 p. m.—Concert, Exposition Band, Raleigh Court. 7 to 9 p. m.—Concert, Liberator's Band, Raleigh Court. 8 p. m.—Military Surgeons of the United States, Inside Inn. 8:30 p. m.—Concert, Palfino Orchestra, Auditorium. Stated Program Every Day. 7:30 a. m.—Gates Open. 10 a. m.—And hourly thereafter, Exhibition of Weather Bureau Earthquake Recorder, Government Building A. 10 to 12 a. m.—Demonstration of Reading by the Blind, Social Economy Building. 11 a. m.—Playgrounds, a great Educational Movement, Lantern Photographs, Miss Maria Erskine, Social Economy Building. 11:30 a. m.—Preparation of large weather map from reports from all sections of the country. 11 a. m. to 4 p. m.—Session of Children's School Farm. 11:30 a. m.—Illustrated Lecture, "Reclaiming the Desert," by Mr. C. J. Blanchard, U. S. R. S., Interior Department, Government Building A. 12 m.—Child Labor and the Republic, Lantern Photog aphas, Miss Maria Hunter, Social Economy Building. 1 p. m.—Biographic and stereopticon Exhibition, Scenes on Indian Reservation with lecture, Interior Department, Government building A. 2:00 p. m.—Biographic Exhibition and lecture, Scenes in Yosemite Valley, Government Building A. 2 p. m.—Story Telling to Children, Miss Gertrude Andrus, Social Economy Building. 2:30 p. m.—United States Life Saving Service Drill at Station. 3 p. m.—Illustrated Lecture, "The Land That God Forgot," by C. J. Blanchard, U. S. R. S., Interior Department, Government Building A. 4 p. m.—Illustrated Lecture, Yellowstone National Park, by Mr. E. C. Culver, Government Building A. 4 p. m.—Children's Farms and Gardens, Henry Grison, Social Economy Building. 4 to 6 p. m.—Free Public Playground, near Mothers and Children's Building. 6 to 7 p. m.—Concert, Exposition Band, Raleigh Court. 6 to 7 p. m.—Concert, Exposition Band, Raleigh Court.

THEY WANT FOUR MORE MONSTER WAR SHIPS

The General Board of the Navy Recommends Very Heavy Increase of Fighting Vessels.

ASKS FOR THREE FAST SCOUTS

Would Also Have Six Torpedo Boat Destroyers and Four Submarine Torpedo Boats—Need of Colliers and a Repair Ship Brought Out by the Voyage to the Pacific.

WASHINGTON, Oct. 12.—Recognizing the diplomatic as well as the tactical arguments in favor of the rapid rebuilding of the navy, the general board, of which Admiral Dewey is the president, has made liberal recommendations for new authorizations by Congress at its next session.

Four battleships are the backbone of the recommendation, and the board's memorandum calls for the most powerful of this type yet projected, which, in the American navy, is the Delaware class, with its single caliber battery, high speed and great steaming radius. Six torpedo boat destroyers, three scout cruisers, four submarines, one repair ship and several colliers complete the recommendations.

While keeping in mind the limits to which national policy places upon naval expenditures, the general board, as a rule, gives merely its professional opinion of the needs of the service, leaving details of construction largely to the bureau of the Navy Department which are responsible for the building of vessels under contract. For this reason it will not be possible until the naval board on construction has commented on the recommendations to state the characteristics of the new ships desired. The Secretary of the Navy and the President will decide what Congress shall be asked to authorize.

Needed for Protection.

The general board has been mindful in drafting this recommendation of its official report, rendered several years ago, that adequate protection of the coasts and commerce of the United States required a navy based upon an effective fleet of forty-eight battleships, twenty-four armored cruisers, forty-eight torpedo boat destroyers and forty-eight scouts, with other war craft and auxiliaries in proportion. The recommendations this year are pitched upon a scale which would bring the navy to the desired battleship strength in seven or eight years, allowing for a certain measure of deterioration in ships already built.

The year the general board outlined its views as to the naval program Congress authorized the construction of five new battleships. For the last two years only one has been authorized at each session of Congress. This was largely due to President Roosevelt's agreement with Senator Hale, chairman of the Senate military affairs committee, that one new battleship a year was a sufficient increase. That understanding has been thrown to the winds since the President has recognized the commanding necessity for sending a large naval force to the Pacific and has seen how the movement denudes the Atlantic coast of its heavy protection.

President Roosevelt's recommendations to Congress will recognize the necessity of having a navy large enough for the protection of both the Atlantic and Pacific coasts. To bring the fleet to this stage will require liberal appropriations from Congress. The appropriations from Congress, the amount of the annual naval appropriation bills for the last four years has been around the \$100,000,000 mark.

The United States navy now consists of twenty-nine battle ships built, building and authorized. This does not include the battleship Texas, now ranked as obsolete, but does include the Indiana class, some of which are being rebuilt and the Iowa, which is in reserve. If the four ships recommended by the general board are authorized the total will be thirty-three battleships. Seven are still on the builder's stocks.

There are nine armored cruisers either in service or undergoing repairs, and three are under construction. The three scout cruisers, the Chester, the Birmingham and the Salem, the only ones of their type projected in the American navy, are nearly completed, and if the recommendations of the general board stand, their number will be raised to seven, while the total of torpedo boat destroyers will advance from twenty-six to thirty-four, and that of submarines to twenty-four.

Without a Repair Ship. At present the navy is without a repair ship, and as such, the auxiliary cruiser Panther is being converted into one for the cruise of the Atlantic fleet to the Pacific. This cruise has strikingly emphasized the poverty of the navy in collars. For the fuel supply of the fleet it has been necessary to resort to for-

chase bottoms. It has been suggested that the working force at Eastern navy yards, who will miss the ships of the Atlantic fleet, might profitably be employed in building collars.

Recommendations of the general board make no reference to armored cruisers, because it is deemed more important to build battleships at present. Moreover, the increase of speed from the eighteen knots of the Connecticut class to twenty-one knots for the Delaware and the North Dakota is regarded as having drawn to the battleship the principal advantage of the armored cruiser.

If the opinion of the general board is followed the new torpedo boat destroyers will be somewhat heavier in hull than those heretofore built. The craft now in service, while speedy, are held to be too light to withstand hard service without frequent repairs.

STATE FAIR THIS YEAR WAS A GREAT SUCCESS

The Attractions and Attendance Were Way Ahead of What Had Been Anticipated.

(Special to The Daily Press.)

RICHMOND, VA., Oct. 12.—The annual state fair came to an end this afternoon, the racing card for the day closing the exhibition. The fair proved a greater success in the character of attractions and attendance than had been expected. The weather was perfect during the entire week, with the exception of Tuesday. The rain on that day made the race track firm and free from dust.

The interest displayed by the farmers was general. The display of farm machinery was by far the largest the State has ever seen. There were many sales of machinery for the farms of the State, the machines to take the place of the inferior negro labor. The cattle, stock and swine departments were all filled, the awards going to ideal animals in each instance. The attendance today was the smallest of the week. The racing fields were also small.

HILL MOVING IN FRANCE.

Immense Landslide Dams a River and Does Great Damage.

PARIS, Oct. 11.—A big landslide is occurring in the Department of Ardèche. The movement of the earth is ascribed to springs. A landslide, comprising nearly a million cubic meters of land, has been moving for twenty-six hours, in which it has traversed half a mile.

It is now traveling fifty yards an hour and has dammed a river, causing a large lake to form, demolishing a road, and carried away two bridges. The department is also suffering severely from floods. The railways are cut in fifteen places. There have been several fatalities.

ROCKEFELLER GIVES \$600,000.

New Donation to Chicago University Announced.

CHICAGO, Oct. 11.—The University of Chicago authorities announce a new gift of \$330,000 from John D. Rockefeller and the founder's promise to treble future donations to the William Rainey Harper Memorial Library fund to the amount of \$90,000,000, making the aggregate of his latest benefaction \$600,000. The gift assures the erection of the library in honor of the late university president.

RUSHING WORK ON FLEET

All Other Work At the Navy Yards is Ordered Postponed

is Ordered Postponed

SHIPS MUST START ON DEC. 15.

Secretary Metcalf Takes Action To Insure Completion of Repairs Ordered by the First of December—Commanders Ask for Many Repairs.

WASHINGTON, Oct. 11.—Secretary Metcalf today notified commandants of the navy yards at Portsmouth, N. H., New York League Island and Norfolk that all work which may in any way interfere with getting the Atlantic fleet ready by December 1 be suspended. Work on the fleet is to be given a clear field.

This is another decisive step toward guarding against any possible delay. The problem of getting the fleet in readiness is twofold. All work must be completed by December 1 and the battleships must start for the Pacific in prime condition, as if they were steaming to meet an enemy. Under no conditions is the date of departure (December 15) to be changed. The ships after leaving the navy yards must take on provisions and coal, and the time between December 1 and December 15 is so short that in order to sail on the latter date all repairs must be completed by December 1.

Since the return of Secretary Metcalf from California he has recognized that there might be some difficulty in getting the fleet started, as some of the battleships needed considerable repairs before starting on the long cruise. The Navy Department then decided to extend the time allotted for repairs to 50 days, with the stipulation that nothing be begun which could not be finished before December 1.

Commanders of ships, following orders of the Navy Department, then began sending in requests that repairs be authorized. It was found that practically every ship needed some work in equipment or ordnance work or steam engineering repairs, enough to

FIRST TURRET INSTALLED ON THE NORTH CAROLINA

Big Cruiser is Ninety-two Per Cent Completed and Will Have Dock Trial Shortly.

The forward 10-inch gun turret was installed aboard the new United States armored cruiser North Carolina by the big electric crane Hercules at the ship yard yesterday afternoon. The armor will be placed on the turret within the near future. Many of the guns for the North Carolina have arrived at the shipyard and the work of installing them will soon begin. The cruiser is now about ninety-two per cent completed and she will be given a dock trial within the next few weeks. No date has been set for official builders' trial, but it probably will take place in December. The vessel is to be delivered to the government on January 3, 1908.

LAKE STEAMER GOES DOWN; 22 PERISH

Fine Steel Freight Cypress Founders in Lake Superior; But Cause Is Not Known.

ONE PER ON SAVED UNCONSCIOUS

He is Unable to Tell Why the Vessel Went Down and the Mystery Will Not be Solved Till He Recovers—Plates May Have Opened, Causing Leaks.

SAULT STE MARIE, MICH., Oct. 12.—Bound down from the head of the lake on the second trip she had made since being launched at Lorain, Ohio, on August 17, last, the fine steel freight Cypress, 440 feet long and owned by the Lackawanna transportation Company of Cleveland, foundered last night in Lake Superior, off Deer Park, taking down with her twenty-two members of the crew.

Second Mate C. J. Pitt washed ashore lashed to a life raft, is the only person left alive of the ship's crew and his condition is so critical that since he was found on the beach, he has only been able to gasp out the name of the sunken ship and the fact that 22 lives were lost.

Pitt is suffering from the dreadful exposure in the icy water of Lake Superior, in addition to the buffeting he received from the breakers. Until he recovers sufficiently to talk the story of the wreck and the exact cause of the steel ship foundering will not be definitely known.

Deer Park is about thirty miles south of Gand Maris on the shore of Lake Superior.

Several bodies from the wreck have washed ashore and two are known to be those of the first mate and the watchman.

Marine men suggest as possible explanations of the foundering that the engine became disabled; that the plates opened and that the ship sprung a leak and that the hatches may not have been securely battened, permitting the steamer to fill with water from the waves washing over her decks.

ROCKEFELLER GIVES \$600,000. New Donation to Chicago University Announced. CHICAGO, Oct. 11.—The University of Chicago authorities announce a new gift of \$330,000 from John D. Rockefeller and the founder's promise to treble future donations to the William Rainey Harper Memorial Library fund to the amount of \$90,000,000, making the aggregate of his latest benefaction \$600,000. The gift assures the erection of the library in honor of the late university president.

Dr. Thomas W. Goodspeed, registrar of the university, and secretary of the board of trustees, declared that the Memorial Library would be planned to cost between \$600,000 and \$700,000.

The Rockefeller gift was announced to the board through John D. Rockefeller, Jr., who for several years has acted as his father's agent in his gifts to the Midway school.

The \$330,000 announced today as Mr. Rockefeller's gift represents his fulfillment of a promise to treble the amount raised from other sources, which has been \$110,000, given by the public in small amounts. Dr. Goodspeed and President Judson will begin a personal canvass to raise an additional \$90,000 needed.

Held for Grand Larceny.

Little Negro Accused of Stealing Diamond Ring. Robert White, a 15-year-old negro boy was arrested in Rocketts yesterday afternoon by Detective Pearson on the charge of grand larceny. It is alleged that the negro stole a watch valued at \$65, a diamond ring and a signet ring from C. Gordon, a tailor.
