

New York Stock Market

New York, September 6.—The movement in stocks today ran largely to specialties with virtually no change in the other issues. There was, however, times when some pressure was shown upon Leligh Valley and Canadian Pacific, while other high grade railroad shares failed to move beyond fractional limits and United States Steel and the Coppers were little more than steady.

Some diversion was again furnished by the tobacco group on relatively large dealings, but the gyrations of these prices failed to excite more than passing attention. The cotton stocks, notably American Cotton Oil and smart advances, largely as a result of cotton crop prospects, while Bethlehem Steel and Republic Iron were strong in the accompaniment of another upward turning in the schedule of unshipped iron and steel.

Among the less conspicuous specialties, National Lead, Central Leather, common and preferred, and American Linseed preferred, rose from 1 1/2 to 2 points. Over the day, 100,000 shares of light business was transacted in the first hour, the balance of the session, especially the last two hours, being characterized by absolute inertia and another advance in call money to 1 1/2 per cent. The price of the previous two days. The top of the market at the close was heavy.

Portfolios points to a cash loss by the banks of only \$2,500,000, an amount, however, a estimate of almost equal that amount.

New York city 4-14 per cent bonds again sold under par, with a lower tendency in other issues. Total sales par value, were \$2,695,000.

United States government bonds were unchanged on call.
