## RECAPITULATION.

Killed.....	15
Wounded.....	18
Missing.....	85
Total.....	118

It will be seen, by the list of prisoners of the above regiment, published in yesterday's Gazette, that many of those reported missing were captured.

The 17th Virginia regiment went into the engagement on Monday, on the Charles City road, with 250 men, and came out with 115—the remainder of the regiment were either killed or taken prisoners. The following are the names of those who answered at roll call in Co. K after the engagement: Lieuts. Brodie and Tompkins; Corporals Murray and Sedwick; Privates H. Allen, Bennett, Cologne, Field, Hart, Hoffman, McIntosh, Parkinson and Nelson. Private Coles, of company K, was severely wounded in the thigh.

Among the casualties of the 8th Virginia regiment, commanded by Col. Eppa Hunton, who, it is stated, had just recovered from a severe attack of illness, are the following:

Killed—Privates Wm. F. Janney, Robt. S. Young, Lieut. Robt. O. Grayson, E. L. Fant.

Wounded—J. E. Hutchinson, Levin Lackett, and Lieut. E. W. Chamblin.

The regiment went into action with 185 muskets.

LATER FROM PORT ROYAL.—The steamer Arago arrived at New York on Saturday, with dates from Port Royal to the 1st instant. The new military governor of South Carolina, Gen. Rufus Saxton, has arrived at Beaufort, which place has been designated at his future residence. Thus far Gen. Saxton had not issued any proclamation. General Hunter is much censured by all the officers for his conduct at the battle of James Island. Though the withdrawal of the troops from James Island is said to be but a sanitary measure, it is not looked upon with much favor by the soldiers, who say that there was no necessity for taking that place at so great sacrifice of human life, and giving it up now. All the hospitals at Hilton Head are filled with sick and wounded, but the mortality does not exceed five per day, chiefly wounded, the weather inducing mortification of the wounds. All the available transports are being got ready to take the wounded men North. Hilton Head is overrun with fleas, which penetrate everything with their stings, and thus far no remedy has been of any avail. The famous negro brigade remains quartered at Hilton Head, on Gen. Drayton's plantation. A few men are daily sent to the Head as a working party but it is said that this plan would soon be abandoned. The revenue steamer Flora has been taken possession of by Gen. Saxton, as a dispatch vessel, and her officers and crew sent home in the Arago. A court-martial, held at the end of last week at Hilton Head, sentenced David Foley and John Kearin, of the third New Hampshire regiment for striking an officer, to have their heads shaven and be drummed out of the service. This sentence was carried into effect on the 21 inst.

## Later from Europe.

The steamer Europa has dates from Liverpool to the 28th ultimo.

The Persia's news caused increased excitement in England, and cotton further advanced.

The London Times says that in America nothing much can be accomplished before the fall, and hopes that means may be devised to end the conflict between the North and South.

The French chambers have adjourned. It is rumored that the emperor is reconsidering the principles of the Mexican expedition, and the embarkation of troops has been provisionally suspended.

The ship Sailor's Home, formerly the Independence, had reached Liverpool from Havana with nearly two thousand three hundred bales of cotton.

France is about to construct reduced models of the Monitor and the Merrimac in order to test their merits.

Russia has recognized the kingdom of Italy.

The London Times comments on the fearful carnage in America, and says, never at any time could the map of Europe show so many blood-stained spots. Whatever may be the result, it is plain the war has now reached a point at which it is a scandal to humanity. It has become a war of extermination, yet submission is as far off as ever. The Times does not believe the cry for more bloodshed represents the minds of the American people.—Enough blood has been spilt and enough damage done. The opportunity must be present or at hand when some potent American voice prudently calling "peace," may awaken a universal echo.

The Times has another editorial on American finances. It says that they are in a most critical condition, and ought to produce a serious alarm, instead of empty boasting and exultation.

The London Post charges the American government with being all along influenced solely by popular clamor, having never pursued an independent course.

The Philadelphia Ledger says:—"The banks of New York, Philadelphia and Boston, by their last statements, held about forty-four and a quarter millions of dollars in coin. Not a dollar of this will they consent to part with.—The Philadelphia banks by their last statement held over five and a quarter millions of specie, about the same as on the first of January last, and 20 to 30 per cent more than January 1st, 1861, when specie payments were maintained without any apparent difficulty. The New York banks hold at this time about thirty-one millions of specie, not a dollar of which is permitted to mingle with the currency, whatever the inconvenience its absence may cause the business public in the way of small change."

The mayor of Fredericksburg, Mr. Slaughter, and Mr. John F. Mayre, a prominent lawyer, have started for Richmond as a committee on the part of the citizens to procure the release of General Reynolds, recently captured before Richmond. Gen. Reynolds, as military governor of the city, won the esteem of the citizens.
