Deputy Clerk Kilby Fuller reports that there has been only one marriage license issued within the last ten days which is very unusual. The average is about one every two or three days. Until August the warm summer months had a heavy marriage roster. No one seems to know the cause of this slackness — it is especially noteworthy when one considers that winter is only a month or two off.

Gloomy Days For Relievers

From page one
charged that high engineers of WPA were not operating a relief program, as Congress intended. Standards of physical fitness, it was said, have been made higher for WPA than for private industry. One speaker declared that WPA officials have been stung by the shovel leaning jokes and have forgotten that relief for the needy is the reason for WPA. Unless WPA engineers come to an understanding of the social program, said the speaker, Congress will soon decide to throw the whole WPA structure aside.

Apple Is Popular
"Certain it is the apple has, on the whole, no rival among fruits. There are fruits of more pronounced and even of more delicious flavors. There are fruits which present a high proportion of nutriment. But in variety of color and flavor, in satisfying qualities, in ability to hold its place as a fruit staple against all comers, no other fruit equals the apple."—National Apple Institute.

Lights for Poultry Houses
Once a mining post, Fort Yukon is now chiefly noted for its fur trade. Like other towns of Alaska, its chief problem used to be its chickens, for those canny birds tried to take advantage of their sunlit nights and to work and scratch around the clock. Distraught by their worthy efforts, they lost weight and would not lay, until Alaska solved the problem by providing them with artificially darkened houses for nights.

Picking Pullets Fed Oats
The picking pullet's desire to eat up her sisters is easily overcome by adding oats to her diet, says the Washington Experiment station, in the Country Home Magazine. Oat hulls or oat millfeed will do the trick. But oat hull ash or oat ash will not cure cannibalism.
