Certain-teed Roofing. Certain-teed renders a war service. Certain-teed saves war supplies, because it is made of materials which have no use in war products. It serves war needs because it provides our armies, and peoples everywhere, with efficient, economical roofing. Certain-teed saves war transportation, because it is so compact that it takes minimum car space, and so easy to handle that it requires the minimum time to load and unload. Certain-teed saves war labor. It can be laid in less time than any other type of roof, and no skill is required—anyone who will follow the simple directions that come packed in the center of roll can lay it correctly.
