The New Theatre will probably close in the near future until next Spring, possibly until after the war. The theatre's books and its receipts from the collector of internal revenue are proof that the theatre has been for sometime and is now running for the benefit of the government. License, film and admission taxes have run as high as \$120.00 for a single month. This money does not hang fire, but goes straight into Uncle Sam's pocket to help win the war.

American Expeditionary Force, August 23, 1918.  
Dear Mama: I will write you a few lines in answer to your letter, which I received a few days ago, and was glad to hear from you all and to hear that all were well. I had a letter from Sidney a few days ago, and he said he was well and having a good time.  
Mama, you ask me if I ever get any good apples to eat. No, I haven't eat an apple since I left New Jersey. There are lots of plums and grapes over here, but not many apples.  
Mama, you wanted to know if I had ever been in a battle yet. Yes, I have been in two.  
Well, as news is scarce I will close for this time, so answer soon and tell me all the news. From your loving son.

**OATA BOWMAN.**  
To his mother, Mrs. D. H. Bowman, Tip Top, Va.

### AMERICA'S ANSWER.

Science prostituted to wholesale murder is the diabolical scheme with which Germany has sought to destroy civilization in order that on the ruins it might build a world-controlling, autocratic, atheistic power.

All that German scientists have been able to achieve has been, by the German government and the German people, prostituted to the killing and the maiming of millions in order that Germany might conquer and loot the world.

In the air, on the land and under the sea every device which the chemist and the engineer have been able to devise for bringing suffering and sorrow upon the world has been put into effect by German experts. All that the whole German nation has accomplished in the past in the development of science has been prostituted to the destruction of moral forces at home and to the murder of millions of people on the battlefield.

It has been said that this is a war of science, but, broadly speaking, we are not engaged in war, for the fight to which this nation and our allies have dedicated their lives is not a war such as the world has ever known.

This is a campaign by Germany of deliberately, definitely-planned, long-glittered-in-murder.

This is a campaign of frightfulness which finds expression in ruthless destruction of every country over which the rotten-sold armies of Germany have marched.

This is a campaign in which Germany has gloried in its power to inflict suffering untold upon women and children, in which it has ruthlessly shot the aged and infirm, in which it has destroyed churches and cathedrals with the same gloating glee of the demon with which Germans have destroyed womanhood and childhood.

This is not, therefore, a war of science; it is a fight in which science as expressed through chemistry and engineering, is being used to the utmost power of human ingenuity, aided by every influence which the devil himself can put into effect to enable Germany to make more frightful its hell-devised and hell-begotten plan of murder.

We have been compelled to meet German science with greater science. We have been forced to find a way to master its work in the air, on the land and under the sea; and the science of Americans and of our allies will yet prove as far superior to the science of Germany in its campaign of murder as American honor exceeds the black dishonor of Germany.

As every telegraphic click across the Atlantic brings a new toll of death and of suffering our hearts should be steeled to an unbending and unbending determination that Germany and the German people shall pay to the utmost extent of human power the penalty of their crimes, not only because they deserve punishment as the blackest criminals in human history, but in order that civilization may be safeguarded for the future.

Every word of peace spoken in America or in the countries of our allies is uttered by some one who is a pro-German at heart, whatever may be the disguise under which he seeks to cloak his treachery.

False to the teachings of God himself, false to the history of all humanity, false to every man who has died and to every man who has been wounded on the battlefields in defense

**VIRGINIA:** In the Clerk's Office of the Circuit Court of Tazewell county, in vacation, the 25th day of September, 1918.  
**H. G. McCall**, Guardian of Gratton Keesee, an infant under the age of twenty-one years, Plaintiff, vs. J. In Chancery, Defendant.  
**J. T. Keesee**, Sallie M. Keesee, Gratton Keesee and Lena Keesee, the last two of whom are infants under the age of twenty-one years, Defendants.

The object of the above styled suit is to obtain a decree for the sale of the interest of Gratton Keesee in all of that certain piece or parcel of land situate in Baptist Valley, in Tazewell County, Virginia, on the North side of the public road, upon which the said Gratton Keesee and his mother, Sallie Margaret Keesee now reside, which contains about 15 1/2 acres, and which was conveyed to the said Sallie Margaret Keesee by her death to the said Gratton Keesee, by deed bearing date the 7th day of July, 1917, and which deed is of record in the office of the Clerk of the Circuit Court of Tazewell County, Virginia, in Deed Book 83, page 86.

And it appearing by affidavit filed according to law that J. T. Keesee, one of the above named defendants is not a resident of this State, it is therefore ordered that the said J. T. Keesee do appear within fifteen days after due publication of this order in the Clerk's Office of our said Circuit Court and do what is necessary to protect his interests. And it is further ordered that this order be published once a week for four successive weeks in the Clinch Valley News, a newspaper printed in the county of Tazewell, Virginia, and no newspaper being prescribed by our said Circuit Court, the newspaper hereby directed.

of civilization, false to the honor of womanhood and the safety of childhood, is every man or woman who utters one word suggestive of peace without punishment.

False is every man who even for one moment thinks that an unbeaten, unrepentant, unpunished Germany, would not for all the centuries to come be a blot upon civilization and an everlasting disgrace to those who profess to believe in that righteous wrath, which every honest-hearted man and woman should have as we contemplate the boundless woe and unvoicable sorrow with which Germany has filled the world, merely that its people might become the murderers, the outragers, the looters of all mankind for personal and national aggrandizement. It should seem that even Almighty God would to such spineless moral degenerates or cowards as those who favor peace without punishment say, "Because you are neither hot or cold I will spew you out of my mouth."

### THE FORDSON AT WORK.

A number of people went out on Wednesday to see the Fordson Tractor perform on one of the Peery farms. The tractor was drawing 27 disks in corn stubble, and, as some one put it, "tearing the ground all to pieces." Being two sets of disks—one behind the other, it was double-disking, doing double the necessary work of, say, six horses, and doing it well, with only one man—the driver, in this instance, Mr. Pribble. Under reasonably favorable conditions, such as prevailed at this demonstration, the tractor would cover some 25 acres a day, it was claimed. And then, too, a harrow can be attached, and both operations—disking and harrowing—be performed at the same time. The Fordson seems no longer an experiment in its field. On lands, reasonably smooth and not too steep the machine is a great labor saver and time saver. Mr. A. J. Higginbotham, said to be one of the very best farmers in the county, was present and much pleased with the performance of the Fordson.

### NEW RULES GOVERNING TELEPHONES.

The postmaster General has issued the following order:  
Order No. 1931.  
Owing to the necessity for conserving labor and material and to eliminate a cost which is borne by the permanent user of the telephone, a readiness to serve or installation charge will be made on and after September 1, 1918, for all new installations, also a charge for all changes in location of telephones.  
Installation charges to be as follows:

Where the rate is more than \$2, but not exceeding \$4.00 a month, .....10.00  
Where the rate is more than \$4 a month, .....15.00  
The moving charge to the subscriber will be the actual cost of labor and material necessary for making the change.

In accordance with bulletin No. 2 issued by me August 1, 1918, stating that "until further notice the telegram and telephone companies shall continue operations in the ordinary course of business through regular channels," and all cases where the rate adjustments are pending or immediately necessary they should be taken up by the company involved through the usual channels and action obtained wherever possible. ### WRITE A LETTER TO A SOLDIER TODAY.

What are you doing to cheer up the boys in the camps? They are giving their whole time and perhaps their lives, for you. You can do something to keep his spirits up, at very little trouble, and the cost of a postage stamp, envelope and sheet of paper. WRITE TO HIM. We will appreciate a letter from you all the more perhaps that you are of no kin to him. It is small satisfaction to the editors of this paper, that they send a weekly letter to the boys scattered in various parts of the world, as well as in the camps in the United States. You know the boy here, and while he may not have been an intimate friend of yours, he is representing you—fighting for you, and has a strong claim, therefore, upon your sympathy and notice. Write letters—good, newsy, cheerful, appreciative letters. He has money, clothing, amusements, but needs such cheer and encouragement as only good letters from the homefolks can give. Write—the oftener the better.
