KILLED WHILE HUNTING

MR. T. C. ALLEN ACCIDENTLY SHOT BY A COMPANION.

Sad Termination of a Day's Sport in Chatham—"Oh, My Wife and Children," the Dying Man Exclaimed as He Fell.

DANVILLE, VA., Nov. 2.—Special.—Thomas C. Allen, aged twenty-five, and Fletcher Watson, aged sixteen, both of Chatham, in this county, went bird hunting together yesterday. Just about sunset, when their dog was "standing" a covey of birds, and the gunners were making ready to shoot, Watson's weapon was prematurely fired, and the entire load of bird shot was poured into Allen's side. Allen fell to the ground and expired almost instantly. As he fell he exclaimed, "Oh, my wife and children." Before he could utter another word he was dead. The burial took place at Chatham this afternoon. Allen leaves a widow and two children.

Colonel Charles T. O'Ferrall addressed an enthusiastic gathering of Democrats here to-night. Large numbers of farmers, who are in the city marketing tobacco, were among those who listened to the gifted orator. His speech was one of his best, and created great enthusiasm.

Senator Daniel will speak here to-morrow night.

Judge Aiken, of the Hustings Court, this afternoon appointed P. H. Boisseau receiver for the firm of Fetzer, Overman & Williamson, clothing merchants of this city. This was done on the petition of George J. Williamson, the junior member of the concern, who brought suit against Fetzer and Overman for the purpose. The bill alleges that the available assets of the firm, including notes, accounts and stock, amount to $25,000, and the liabilities to $21,000.

Late yesterday afternoon Miss Kate Jeffries, daughter of Thomas Jeffries, a prominent farmer living ten miles from here, dropped dead while gathering flowers. At the recent term of the Circuit Court of Sussex county, the two cases of S. V. Ellis and W. B. Johnson vs. the Norfolk and Western Railroad Company, were removed to the Circuit Court of this city, in order that there may be an argument before Judge R. A. Hancock of the law points raised in these and the eleven other cases pending against the same railroad company in the Circuit Court of Sussex, growing out of the fires that burned over the lands of the plaintiffs on the first day of last April in the vicinity of Waverly.

The damages claimed in these suits amount to several thousand dollars.

"JEFF" ON THE WAR PATH.

The "Milton Cane Manufacturer" Defies the Law—The Rocks Whistled.

CHARLOTTESVILLE, VA., Nov. 2.—Special.—Thomas Jefferson Craddock, extensively known in the State as the "Milton Cane Manufacturer," raised cain in the "Milton Court" yesterday. It seems that Magistrate G. W. Harlow was trying some case, when "Jeff" entered the room in a boisterous manner, flourishing a revolver, defying the court to molest him, when the magistrate ordered him under arrest. "Jeff" was requested by an officer to be quiet and go with him. This Mr. Craddock refused to do, saying that he would shoot any man who dared put his hands on him. The court determined that its authority should not be impugned, so the offender was doubled on and tied with cords, and carried to his home, when the female part of Jeff's family waged war on the crowd, and it is said rocks whistled through the air like bomb-shells for a season, several of the officers and their assistants being carried from the field with bruised shins and bloody noses. Finally the disturber of the court was put on the train and brought to this city, where he had a hearing in the City Court, and was bailed to appear before the County Court at its November term.

REMOVAL OF POSTMASTERS

Several Fourth-Class Ones in Albemarle Will be Dropped This Week.

LEXINGTON, VA., Nov. 2.—Special.—There is some talk of the disbandment of the foot-ball team of Washington and Lee University for this season.

The foot-ball team of the Virginia Military Institute continues in practice, and is ready to meet all comers. It xis said there is to be arranged a list of games to be played here before the cold weather sets in. Several strong and well-known teams from other States are expected here to play the V. M. I. boys.

There will be, it is stated, several important changes in the fourth-class postoffices at several points in the county at an early day—in one instance the present postmaster will be decapitated for neglect of his official duties and devoting all of his time to the promotion of the Populists' interests. At two points in the county where commissions have expired, there were no Democrats applying for the offices, and Republicans had to be selected to fill the places. One of the offices pays over $300 per annum.

It is said that Mr. Overton, the Populist candidate for the House of Delegaes, with Mr. McCurdy, the head of the original ticket as nominated, has withdrawn, and Mr. Ananias Smith, one of the leading Republican managers, takes his place. It is a fusion of the Populists and Republicans—McCurdy and Smith.

AFTER THE LIQUOR SELLERS.

Rev. Mr. Ferguson Calls Attention to Sunday Tippling and the Gambling.

FREDERICKSBURG, VA., Nov. 2.—Special.—Rev. S. G. Ferguson, of the Methodist church, in a recent sermon, charged that liquor is sold in this city on Sundays, and gambling carried on in open violation of law.

The grand jury met to-day in regular term, and summoned Mr. Ferguson to appear before it. In the examination he gave the names of several young men, who were also summoned, but nothing developed to show that there is any infringement of the law or neglect on the part of the authorities.

There was a great outpouring of the people of Lower Stafford and King George counties to-day at the county seat of the latter, to hear the issues of the campaign discussed. Hon. R. C. Kent represented the Democrats and Mr. J. Brad. Beverly the Populists. Both speakers had good audiences and enthusiasm ran high.

A NARROW ESCAPE.

An Accident on the Atlantic and Danville. Cab Demolished But Engineer Unhurt.

PLEASANT SHADE, VA., Nov. 2.—The passenger train of the Atlantic and Danville railroad, due at Pleasant Shade 8:45 P. M., came near having a serious wreck last night two miles east of this place. Caused by the connecting rod of the engine breaking. The train was running at a speed of thirty miles an hour, when the rod broke. It completely demolished the engineer's side of the cab, and threw him back in the tender. However, Mr. James Sandford, the engineer, did not receive a bruise, which is very remarkable. The fireman jumped and was slightly injured.

The Best Plaster.

Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by Owens Minor Drug Company, P. M. Slaughter, E. P. THE HOBBS MYSTERY.

IT IS BELIEVED THAT THE WINSTON MAN WAS MURDERED.

Police at Work on Clues Connected With the Case—Missing Man Had a Large Sum of Money on His Person.

WINSTON, N. C., Nov. 2.—Special.—The disappearance of Mr. George Hobbs is still a mystery. It is generally believed now that he was murdered for his money, and his body thrown in Belos Pond. A wheelbarrow track leading to the bank of the pond has been discovered. It is now learned that the missing man had $300 on his person the evening of his disappearance. Had he intended running away, it is thought he would have collected $1,100 which was due him. The police are actively at work trying to find out if there has been foul play.

The Winston Machine Company, with a capital of $25,000, was incorporated to-day. Several of Winston's best business men are interested in the new enterprise, the object of which is the manufacture of cigarettes, cigarette machines, cheroots, cigars, etc. The company will use new machines of recent invention.

Yesterday I telegraphed The Times about heavy raids on "moonshiners" in and around Winston by revenue officers. Between midnight and day this morning, the "moonshiners" turned the tables by making a raid on the "revenuers." They broke into the building in which were stored hundreds of gallons of whiskey and brandy, placed there by the officers. The blockaders loaded up their property in wagons and drove off with it. The officers are still at sea regarding the stolen spirits.

THE NORTH CAROLINA SYNOD.

Home Mission Work Discussed Yesterday. What Has Been Done in Southern States.

TARBORO, N. C., Nov. 2.—Special.—This morning in the Presbyterian Synod, Professor C. C. Hersman, D. D., of Union Theological Seminary, Virginia, was introduced, and invited to sit as a corresponding member.

Rev. J. B. Shearrer, D. D., of Davidson College, presented the report of the Committee on Church and Christian Education. It showed the practicability of establishing presbyterial and parochial schools, and gave gratifying accounts of several already in existence especially in connection with the work in the new mission fields of Rev. Messrs. R. P. Pell and C. Miller, in the western part of the State. These schools have been exceedingly helpful in the establishment of Presbyterian churches in communities where Presbyterianism was but little known.

Dr. Shearrer made an eloquent and forcible address pressing this cause upon the attention of Christian people, and showing the importance of its being supported by generous contributions. He was followed by Rev. R. P. Pell, who explained how the parochial school in his field had aided him in work.

The Presbytery of Orange, the oldest Presbytery in the South, has established a school of high grade under the principalship of Rev. E. C. Murray, with every prospect of permancy and success.

Rev. C. Miller went into Stokes county about eighteen months ago. At that time there was not a vestige of Presbyterianism in that county. He found a section in which there was a territory of 200 square miles without a church of any denomination. He visited forty families without finding a member of any evangelical church. Within the last year he has built a church and school building, and has received into the church recently organized seventy-two members.

It is the purpose of the body to continue the prosecution of this branch of their work.

The aggregate results of home mission work were 1300 professions of faith, 509 additions to the Presbyterian Church, eleven churches organized, ten new buildings erected.

DEATH OF MRS. J. P. CALDWELL.

The Wife of the Editor of the Charlotte Observer—Known Throughout the South.

CHARLOTTE, N. C., Nov. 2.—Special.—Mrs. J. P. Caldwell, wife of Editor Caldwell, of the Charlotte Observer, died in Statesville this afternoon at 4 o'clock, of typhoid fever. Mrs. Caldwell had been dangerously ill for the past two weeks, her husband having been summoned to her bedside ten days ago. This death is a particularly sad one. Mr. Caldwell has just completed a handsome residence in this city, and was to have moved his family from Statesville, his old home, the 1st of December. Mrs. Caldwell was one of the most lovable women in North Carolina, and her popularity extends throughout the entire South. A special train will leave Charlotte to-night, taking the friends of the deceased to the funeral, that takes place to-morrow afternoon in Statesville.

It is a beautiful shaft seventy-five feet high, upon a pedestal which is half of this height. There will be three bronze figures representing the three branches of service, and on the pedestal will be the coat-of-arms of the Confederacy and the coat-of-arms of North Carolina. The monument will be in Capitol square. Colonel Muldoon, the designer, was a colonel in the Confederate army, and was on General Morgan's staff.

VANDERBILT'S MANAGER.

The Defaulters Case Called in Court But no Response is Made.

ASHEVILLE, N. C., Nov. 2.—Special.—Fletcher & Perry, proprietors of a confection and bakery business on south Main street, made an assignment for the benefit of their creditors yesterday. J. S. H. Stevens is the assignee. Their assets amount to about $1,800, while their liabilities will not exceed $700.

O. B. Wheeler, the defaulting manager of the brick and tile manufacturing department on the Vanderbilt estate, was called formally in the Criminal Court here yesterday morning, but, as everybody understood when he was released on bail two months ago, he failed to respond. Judge Jones had judgment nisi entered against his bondsman, ex-Sheriff Dan. L. Reynolds, and directed a capias issue, returnable to the next term of this court. The amount of the bond is $5,000, but as D. L. Reynolds is insolvent this makes but little difference.

It is very well understood that, barring accidents, Wheeler will never be brought to trial. This seems to be an instance of the flagrant miscarriage of justice, but there are those who believe that Judge Thomas A. Jones has backbone enough to investigate rigidly and thoroughly the release of Wheeler, and, if wrong has been done, to punish it, whatever may be the consequences. We shall see.

Mrs. Wheeler, it is thought here, is in Cairo, New York.

THE OIL CONTRACT SETTLED.

Mr. Nicolai Will Continue to Furnish the City With Oil.

The Committee on Light held a called meeting in the office of City Attorney Meredith yesterday morning at 10 o'clock. There were present Chairman Gunn, and Messrs. George B. Davis, Grimes, Hardwicke and Taylor. The object of the meeting was to reach some agreement as to the amount to be paid to Mr. Charles H. Nicilai, of Baltimore, for the oil furnished to the water-gas plant up to September 22d, which proved to be of a lower gravity than the contract called for. The provisions of the contract called for naptha of from 68 to 92 degrees, for which the city is to pay at the rate of $2.95 per hundred gallons.

Superintendent Adams stated that Mr. Nicolai had furnished in all sixteen car loads of oil, three of which came up to the standard, one was as low as 44 degrees, while the others ranged from 46 to 48 degrees. He added that on the receipt of each car containing inferior oil he had notified Mr. Nicolai of this fact. The latter had acknowledged the inferiority of the oil by charging only $2.80 per hundred gallons for the same.

Mr. Meredith explained that Mr. Nicolai had no right to send inferior oil, and that by doing so he violated his contract. Whether or not the city paid him at the first of each month for the oil furnished did not offset Mr. Nicolai's obligation.

Mr. Adams stated that there was hardly any difference in the candle power of the gas made from oil of 48 or 68 degrees. There was only a slight difference in the purification. He also thought from the information which he had gathered while attending the gas convention in Chicago that $2.80 was a fair price.

Mr. Meredith stated that under the circumstances the city was bound to pay the bills.

Mr. Adams explained, when questioned by Mr. Taylor, that any gas of high candle power did smoke, and if coal gas was made of as high a candle power as the present water-gas it would smoke him out of the house.

Mr. Davis moved that the bill of Mr. Nicolai be paid as rendered by Mr. Nicolai at the rate of $2.80. Carried.

When asked by Mr. Davis, the City Attorney stated that under the circumstances the city could not cancel the contract at this time.

Mr. Nicolai was then called in and stated that he proposed to send the oil just the way the contract called for. He explained that immediately after the awarding of the contract, the Standard Oil Company made a corner in oil, whereby he was cramped to some extent. He expected, however, to furnish hereafter the quality of the oil for which the contract called. He said that heretofore he had been in the belief that the oil which he ordered for this city was of the quality which he ordered, while it afterwards turned out to be of inferior quality. He promised that hereafter there would be no further trouble in regard to the gravity of the oil.

Mr. Nicolai then retired, and Mr. Meredith explained that the former was not at fault, for he only continued to furnish the oil until the city paid his bill for the oil furnished. He was of the opinion that the city was compelled to pay the extra price for the oil furnished recently by the Standard Oil Company.

After some further discussion, the committee decided to continue to take the oil from Mr. Nicolai, provided it comes up to the contract.

The committee also decided to pay the bill of the Standard Oil Company, amounting to $1,305.56.

The bill of Mr. Nicolai, as allowed by the committee, amounted to $1,343.56.

POLICEMAN PILLOW FINED.

The Board of Police Commissioners Found Him Guilty of Misconduct.

Policeman B. A. Pillow was before the Board of Police Commissioners yesterday afternoon to answer several charges brought against him by Dr. W. H. Harbaugh. Mayor J. Taylor Ellyson was unavoidably absent and Mr. J. W. Laube presided. All of the other members of the board were present.

The story of the case has attracted very general attention. Dr. Harbaugh was arrested by Policeman Pillow on a charge of drunkenness, and shortly after the arrest there was a considerable wrangle as to the driving of the doctor's buggy. A crowd gathered, and there seemed to be at the hearing an unanimity of opinion as to the officer becoming excited and using loud tones. As to the other details of the arrest, the testimony of the witnesses varied no little.

After a patient hearing of over eight hours a verdict was reached as follows:

"The board finds the charge of conduct unbecoming an officer' sustained, as a violation of section 4 of police regulations, requiring that an officer in the performance of his duty must maintain full command of his temper. As to the other charges, the testimony being so conflicting the board is unable to determine upon the same."

The board, therefore imposed a fine of $30 upon Policeman Pillow, and agreed further that he should be reprimanded by the president of the board.

It was 1 o'clock this morning before the board completed its task.

CELEBRATING THE OCCASION.

Street Parade and Reception of the Anheuser-Busch Brewing Association

Yesterday was a red-letter day for Mr. F. W. Hoppe, the Richmond agent for the Anheuser-Busch Brewing Association, for he celebrated the awarding of the first prize to his company at the World's Fair in Chicago.

Early in the morning Mr. Hoppe had arranged for a street parade. He himself took the lead in his buggy, followed by the various conveyances which he uses in distributing the St. Louis beer among his customers in this city. All the vehicles were handsomely decorated at half an hour's notice by Messrs. Mitteldorfer & Son.

In the evening a reception was tendered at the depot of the St. Louis house in this city, on Union and Grace streets. The spacious bottling room was tastefully ornamented with flags and bunting, and Iardella's orchestra held forth in one corner of the room, dispensing sweet music during the evening. Mr. Hoppe was everywhere, and took good care that his many friends and patrons did not want for anything. The product of Gambrinsus was freely served, and a substantial dinner was set out for all who felt disposed to partake of it.

Verdict Set Aside.

Judge Hughes yesterday morning set aside the verdict rendered Wednesday in the United States Circuit Court in the case of Patterson's administrator against the Richmond, and Danville Railroad Company, in which the plaintiff was awarded $5,000 damages.

The judge says he would have set aside the verdict had not counsel for the defendant company made a motion to that effect, as he erred in his instructions to the jury.

The plaintiff will appeal to the United States Court of Appeals.

Herrmann at the Academy.

Herrman, the delight of all who enjoy his very interesting performances, appears at the Academy this and to-morrow evenings, with a matinee on the latter day. In addition to his programme, Mme. Herrman will present her serpentine, butterfly and La Blanche dances, with fourteen calcium light effects, etc., and they are said to be as beautifully bewildering as those done by La Loie Fuller.

The chief illusion in Herrman's repertoire this season is his last senation, which he has named "After the Ball." The idea of it is taken from the jewel scene in "Faust." A large mirror is placed upon the stage so that the audience can see underneath, on both sides and over it; it is entirely isolated from all other objects. Marguerite is discovered disrobing herself. Without any curtains, cabinet or covering of any kind whatsoever, at a wave of Herrman's magic wand, she disappears as though the earth had swallowed her up.

Nicholas, the Murderer.

Judge Wellford has not as yet rendered his decision in the Nicholas murder case. It is understood that he is awaiting the return from the World's Fair of Mr. H. M. Smith, Jr., one of the counsel for the prisoner. Mr. Smith is expected back today. It is believed that the verdict of the jury in convicting Nicholas of murder in the first degree will remain unchanged. The prisoner remans silent, and looks considerably depressed.

Initiation of Beta Theta Pi.

The Richmond College Chapter of the Beta Theta Pi Fraternity initiated three new members into that organization last night at the college. The exercises were of a highly interesting character to the old members and quite novel to the candidates. After the initiation the chapter enjoyed a splendid banquet at Zimmermann's.

The City Committee.

The executive committee of the City Democratic Committee met in Mr. S. S. P. Patteson's office at noon yesterday and transacted routine business.

The City Democratic Committee will meet in the Circuit court-room this evening to make the necessary arrangements for the coming election.

Adjourned to Hear Goode.

The School Board of Manchester held an adjourned meeting at the High-school building last night. Owing to the Democratic rally at Leader Hall the meeting transacted only routine business, and adjourned to attend the political speaking.

Oyster cultivation is a very important industry in many parts of the continent. At Arcachon, on the French coast, there is a huge salt water lake open to the sea at high tide, and this has become the center for rearing and fattening the oysters.
