

STOCK MARKET MOVED UPWARD. Efforts to Sustain Tuesday's Reaction Were Unavailing. THE GAINS WERE FRACTIONAL In the General Market, but Substantial Gains Were Made in Some of the Specialties - London Was Again a Buyer.

NEW YORK, Jan. 18.—The stock market, except for an initial hiccup in sympathy with London which in turn reflected the weakness of the New York market, made practically no movement in the general market, but the Grand and British markets made substantial advances. Investment purchases were very heavy and largely confined to the New York and London markets. Early efforts to cause a continuance of yesterday's reaction failed but a short recovery was made by the London market. The Grand market generally was in a number of stocks. The market was dull in the forenoon and then gradually improved in activity and strength toward the close. The feeling in London improved and there were some purchases for that quarter. The London market was generally in a number of stocks and was not very active. The feeling in London improved and there were some purchases for that quarter.
