STOCK PRICES WERE IRREGULAR.

Railroads Fractionally Off, While Specialties Made Some Notable Gains.

FAVORED BY PROFESSIONALS.

High Priced Securities Developed Much Interest in Early Dealings. Bonds Moved in a Hesitating Way—Market Closed Dull.

NEW YORK, March 10.—The movement of stock prices today was irregular, the railroads being generally fractionally off, while some notable advances were recorded among the specialties. Local traction stocks were buoyant on the idea that the action of the State Senate yesterday diminished the chances of hostile action in restricting the use of Amsterdam avenue, which would practically affect Third-Avenue, which rose to an extreme of 12 points, while Metropolitan steadily rose nearly as much. Among the other specialties to display strength were Tobacco, American Steel and Wire, People's Gas, American Spirits, Standard Distributing, Consolidated Gas, Brooklyn Transit, New York Air Brake, American Tin Plate, Cotton Oil and Tennessee Coal and Iron, although the full gains were not maintained. The railways and some other standard stocks sagged slightly for lack of attention. On the announcement that a dividend of 1½ per cent had been declared on Union Pacific preferred, the stock eased, it having been previously falsely rumored on the board that the disbursement was 2 per cent. In the early dealings Lead was the principal seller, while in the afternoon some selling appeared for cash accounts on prognostications that there would be another heavy decrease in the supply reserve in to-morrow's bank statement, but prophesies as to the bank statement based on the known data of Friday had often of late proved misleading. The action of the day's market seemed to show that the specialties were pre-eminently in favor with the professional element. The early dealings were featured by an atmosphere of interest in the high-priced securities. The standard stocks trailed along somewhat sympathetically, but soon developed a yielding tendency. In the late session interest shifted into the low-priced specialties, which had not moved proportionately with the rise in the industrial division in the morning. The last hour's trading falling, the Union Pacific announcement was of an exceptionally uninteresting character, scarcely any interest being evidenced in the movement of prices. The closing was dull and steady.

Bond prices moved somewhat hesitatingly, some active lists working upward, while others yielded in sympathy with stocks. Total sales, $3,250,000. United States new 4's registered advanced ¼ in the bid price.

The total sales of stocks were 320,400 shares, including 18,900 Atchison preferred, 25,077 Metropolitan Street railway, 17,800 Reading first preferred, 5,350 Northern Pacific, 8,585 Ontario and Western, 10,640 Union Pacific, 38,747 do. preferred, 20,875 St. Paul, 18,255 American Steel and Wire, 5,050 do. preferred, 5,000 American Cotton Oil, 20,470 American Spirits, 9,182 do. preferred, 26,587 American Tobacco, 3,700 Bay State Gas, 15,550 People's Gas, 7,100 Consolidated Gas, 37,500 Brooklyn Rapid Transit, 28,905 Sugar, 10,800 Tennessee Coal and Iron, 5,885 United States Rubber.

MONEY AND EXCHANGE.—Money on call steady at 2@3½ per cent., last loan at 2½ per cent.; prime mercantile paper, 3½@4¼ per cent. Sterling exchange easy, with actual business in bankers' bills at $4.85@4.85¼ for demand and at $4.82½@4.83 for sixty days; posted rates, $4.84½@4.85 and $4.86@4.87; commercial bills, $4.82@4.82½. Silver certificates nominally 59@59½; bar silver, 59½; Mexican dollars, 47½. Government bonds strong; State bonds inactive; railroad bonds irregular.

BANK CLEARINGS.—The total bank clearings in the United States for the week were $1,930,473,027; per cent. increase, 49.5. Exclusive of New York, $959,580,449; per cent. increase, 20.7.

COTTON MARKETS.

NEW YORK, March 10.—COTTON—The disposition to liquidate long contracts, recently apparent in the cotton trade, was the feature of the day's rather small market. Caution, however, was characteristic of all classes of traders, and the volume of business was not great. The scope of fluctuations was a matter of 6 points, this being shown only on the more active positions. The market opened steady at unchanged prices to a decline of 1 point, and, after a period of apathy, became suddenly weak and lower under an avalanche of local long stuff, which was dislodged by unfavorable cables, most gratifying weather reports, predictions for a marked increase in receipts, and an absence of outside support. Rumor had it that the southern spot markets had taken an easier turn, and that on all sides planters were making herculean efforts to catch up in field work. This array of adverse influences induced a number of the leading shorts to increase their interests in an endeavor to stampede their opponents. In the afternoon covering was indulged in quite freely at times, causing a reactionary turn of prices, but their efforts proved inequal to the task, and at the close prices showed a net loss of 3 to 5 points net.
