HAVE ORGANIZED A SUNDAY SCHOOL

Former Members of Grove-Avenue Baptist Church.

SEVENTY-FIVE WERE PRESENT.

Four New Deacons Elected at the Third Presbyterian Church—Bishop Whittle Confirms a Class, Other Religious News.

A Sunday school was organized Sunday morning at Monroe Hall, under the auspices of those who recently withdrew from Grove Avenue Baptist church.

The meeting was an unqualified success, there being present about seventy-five children and about a dozen teachers.

Those in charge of the new Sunday school feel greatly encouraged and it is their intention to build up a great school, although it is not yet known whether Monroe Hall will be selected as a permanent place.

A superintendent was not selected Sunday, but this will be attended to later.

FOUR NEW DEACONS.

At the Third Presbyterian church four additional deacons were elected on Sunday morning.

The following named gentlemen were the unanimous choice of the congregation for this office: Mr. L. H. Kemp, Mr. Charles T. Tinsley, Mr. John Morrison and Mr. John H. Reed.

The ordination and installation will take place the first Sunday in April.

SERIES OF MEETINGS.

There will be a series of meetings at Grace-Street Baptist church, this week, commencing last night at 8 P. M., and continuing throughout the week. Preaching every evening by the pastor.

The public is cordially invited to attend.

AT DENNY STREET.

Rev. Mr. Constable conducted the services Sunday morning and evening at Denny Street Methodist church, owing to the absence of the pastor whose daughter, Miss Ruby Routten, was critically ill.

SEEKING A PASTOR.

No steps have yet been taken by the congregation of Venable-Street Baptist church looking to the selection of a successor to Rev. Dr. J. S. Dill, except to appoint a committee on call.

This committee met last night for organization. A chairman and secretary were chosen and a committee of five on correspondence appointed.

"We are at sea as yet as to who we will call," said a member of the committee yesterday morning, although a number of names have been talked of."

A CLASS CONFIRMED.

The Right Rev. F. M. Whittle, the venerable bishop of the Diocese of Virginia, preached a powerful sermon Sunday morning at St. James church and confirmed a class of about twenty-five persons, nearly all of whom were young. The church was filled to its utmost capacity, and the services were very impressive.

TRINITY M. E. CHURCH.

Notwithstanding the inclement morning, Dr. W. V. Tudor, of Centenary church, occupied the pulpit for Rev. J. T. Mastin at Trinity church Sunday, and preached to a large and attentive congregation from the beautiful prayer of David, contained in the 25th Psalm, 12 and 13 verses:

"Hear my prayer O Lord and give ear unto my cry, hold not thy peace at my tears, for I am a stranger with thee, and a sojourner as all my fathers were.

"O spare me that I may recover strength before I go home and be no more."

ACETYLENE GAS.

State Chemist Taylor Writes to the Fire Commissioners.

At the regular meeting of the Board of Fire Commissioners last night, President Frischkorn in the chair and every member present, the following letter from State Chemist Taylor regarding acetylene gas was submitted:

"March 16, 1899.

John H. Frischkorn, Esq., President of Board of Fire Commissioners:

Dear Sir—In compliance with your request for an examination and opinion, I have compared the two ordinances relating to calcium carbide and acetylene and find that the modifications proposed in the substitute ordinance are essentially these:

Liberty is granted to store two hundred pounds of carbide in a building at a minimum distance of ten feet from other buildings, instead of one hundred pounds at twenty-five feet.

The outhouse building where the gas generating and holding apparatus is installed is not required to be fireproof.

The requirement as to charging the apparatus by daylight and prohibition of the use of artificial light in the apparatus room, and the requirement that the detached building shall be heated only by steam, are omitted.

There is no restriction as to liquified acetylene.

The amount called "limited supply," comprising twenty-five pounds of carbide for the generator and fifty pounds surplus, is changed to allow one pound to each burner capacity and the same amount as a surplus supply.

As the question of limited supply appears to dominate the others, it will probably be sufficient for me to say that, in my opinion, it would not be advisable to adopt the provisions respecting this which are proposed in the substitute ordinance, since to allow one pound of carbide to each burner capacity—note that this allowance is based, not on the number of burners which may be necessary for lighting, but on an undefined and unlimited capacity of the apparatus—and another pound per burner capacity as a surplus supply, would be, practically a removal of all restriction as to quantity.

I may add that in considering the substitute ordinance as a whole, it does not seem to me as satisfactory as the original one. In reaching this conclusion I reason on the fact that the manufacturers of any gas for illuminating purposes is always beset with dangers, and that if the manufacture is to be permitted to persons unfamiliar with the principles involved and who are careless in manipulation, as most persons are, rigid measures should be taken to prevent this class of manufacturers from becoming a menace to other people, if not to themselves.

Very truly yours,

WM. H. TAYLOR, M. D.,
State Chemist.

Mr. Levy moved that the Chief and Assistant Engineer together, visit every hotel in the city and make an examination of the fire escapes and other precautionary measures. The motion was adopted.

George T. Acree was appointed substitute in Engine Company No. 2, on probation, and George D. Rust was appointed substitute in Engine Company No. 1, on probation.

The committee appointed to purchase a lot on which to erect an engine house for company No. 2, recommended the purchase of a lot fronting fifty-one feet on Main street, between Twentieth and Twenty-first streets, at the price of $1,950. The report was adopted, and the same committee was appointed to attend to the building of the house.

Don't Swallow, Nauseating Capsules, but take Groves' Tasteless Quinine Powders. Absolutely tasteless. Indorsed by chemists. 25c.

The good name & good quality of

BETWEEN THE ACTS

LITTLE CIGARS

has caused many manufacturers to imitate them. They are now sold in tin boxes—10 for 10 cents; 50 for 50 cents. There are other tin boxes but no other little cigars as good—as clean—as desirable as "Acts." You can use them scores of times when you cannot stop to buy or smoke a cigar. You can carry them conveniently, as the box of 10 fits any pocket. Let us send you 50, post paid, for 50 cents—they will save you their cost.

American Tobacco Co.,
507-529 W. 22d St., New-York City.

SOCIAL AND PERSONAL.

The first "drill" in Parliamentary Law, given by Mrs. Coles-Bethell, of Ohio, at the Woman's Club last evening, proved most interesting, and the result of the entire week's course promises to be most helpful to the club. By special invitation, there were present representatives of the Consumers' League, Colonial Dames, Daughters of the Confederacy, Woman's Christian Temperance Union, Woman's Christian Association, Colonial Dames, and other organizations of women. Mrs. Bethell is charming, personally, and is thoroughly mistress of her subject. She has given similar drills throughout this country, and is the author of a valuable book on parliamentary law, which has had a circulation of 21,000. Defining "parliamentary usages" as "the laws which govern deliberative assemblies," she proceeded by question and answer, to give practical illustration of her meaning, requiring her audience to repeat the answers in concert after her. She encouraged voluntary questioning on the part of the latter, and there was quick response to her efforts to interest. In conclusion she directed attention to the chart upon the wall, and stated that when it shall have been thoroughly mastered, the club will be an adept in parliamentary law.

There will be daily drills; on Thursday, "election of officers," and on Friday "a convention with this law in force."

Miss Dora Duty Jones last evening delivered the third of her lectures on the general subject, "The Renaissance of Art in England." Her special theme on this occasion was "Sir Edward Burne-Jones and the Aesthetic Movement," and in spite of the fact that she has been ill for three days past, her audience were delighted both with the substance of her paper and the fine stereopticon illustration. In order that no confusion to the speaker might arise from the sound of voices in the adjoining dining-rooms, the time for the lecture was changed to fifteen minutes of 9 o'clock, and the result was eminently satisfactory. Like its predecessors, the lecture was characterized by a fine intuition of the motif and the methods of the artist under consideration and was marked by the analytic power requisite for a just and sympathetic criticism. Its diction was exceptionally beautiful.

The audience was a large and discriminating one.

Miss Agnes Johnson, of West Virginia, is visiting Miss Kate Blankenship, south Third street.

On Saturday afternoon the Saturday Club held a particularly delightful meeting at the residence of Mrs. E. C. Minor, the subject being "Italian Unity." By the aid of a beautifully prepared map Mrs. Minor gave the interesting story which had its culmination in that unity, Miss Augusta T. Daniel being associated with her in the presentation of the subject, and contributing to the evening's discussion some of the most interesting details. At the next meeting, which is that on April 1st, the Committee on Preparation of a programme for next season will present the result of their work, and a full attendance of members is urged. At Saturday's meeting attention was called to the fact that three successive absences without excuse being assigned, were, under the rules of the club, susceptible to a construction of resignation, and the hope was expressed that this might be thoroughly understood. Those present at this meeting were Mrs. E. C. Minor, Miss Augusta Daniel, Miss Maria Blair, Mrs. William T. Robins, Miss Mary Cameron, Miss Houston, Miss Carrie M[illegible] L. L. Lewis, Mrs. John C. Robertson, Mrs. Ely and Mrs. Charles Bosher.

Pickett Camp, C. V.

Pickett Camp was called to order last night by Commander C. J. Johnson, presiding. Prayer was offered by Chaplain Grimsley. Major Charles Pickett was reported very ill.

The committee appointed to investigate the charges against J. L. Singleton reported that he was never a member of Pickett Camp, that they have exhausted all means to find him, but were unable to do so.

A very attentive and highly interested audience listened to Colonel R. L. Maury lecture on the War Governor, Honest John Letcher, which was highly appreciated by the camp. A rising vote of thanks was tendered.

Captain Wash W. Well, of Ohre, Chesterfield, paid the camp a visit.

Sons of Veterans.

The regular weekly meeting of the Sons of Veterans was held last night at Lee Camp Hall, Commander E. Leslie Spence, Jr., presided. Only routine business was transacted.

Mr. W. P. Moore Kellam was elected a member of the camp.

Captain John L. Talley, of Lee Camp, will read a paper on "Stuart's Cavalry Corps" before the camp on April 10th.

Colonel Thomas P. Pollard addressed the camp.

ST. LUKE'S WILL BE IN THE WEST END

Handsome Private Sanitarium to Be Erected on West Grace.

THE OLD BUILDING TO BE SOLD.

Dr. McGuire to Establish on the Corner of Harrison and Grace Streets a Splendid Building to Be Ready by September 15th.

The site has been purchased, plans adopted and contract for the work given out, for the erection of a splendid building to be known as St. Luke's Home for the Sick at the corner of Grace and Harrison streets.

This will be the private sanitarium for the patients of Drs. Hunter and Stuart McGuire.

Old St. Luke's, at the corner of Govwere made one at Corcoran Hall Sunday evening at 6 o'clock.

The ceremony was performed in accordance with the strict doctrines of Judaism by Rev. P. Philip, assisted by the Rev. Mr. Newell. Miss Rosa Salomonsky played in excellent taste the wedding march.

The bridal party stood under a damask canopy upheld by four of the attendants. Before the canopy stood a burning candelabra, the scene being a very impressive one.

The bride looked charming in white satin en train. Her bridesmaids were her sisters, Misses Dora, Rosa and Annie Schapiro, and Miss Bessie Cook, of Baltimore. They were attired in blue satin.

The bridegroom and the officiating ministers, according to the usual custom, wore silk hats during the ceremony. The ushers were in full dress. They were Messrs. Jacob Levy, D. Gellman, B. and I. Schapiro. The attendants upon the couple were Mr. and Mrs. William Brodie and Mr. and Mrs. H. Harris.

After the ceremony an elegant supper was served in the room below, which was attended by numbers of the friends of Mr. and Mrs. Weinberg.

Mr. Weinberg attended the law class at Richmond College for some time, and had an extensive acquaintance among the students there, many of whom were present at his wedding.

He also studied at Georgetown University, and has just entered upon the practice of his profession here.

His bride is a daughter of Mr. A. C. Schapiro, who formerly resided in Baltimore.

Mr. and Mrs. Weinberg will go on a wedding trip which will include the prin-

FRONT ELEVATION OF ST. LUKE'S NEW HOME.

ernor and Ross streets, is for sale. It will not be reopened as a hospital under its present management after it is closed for the summer, for the new building will be completed by the 15th of September.

THE NEW BUILDING.

Messrs. Noland and Baskerville are the architects of the proposed building. Mr. W. A. Chesterman is the contractor, and ground has been already broken.

The building will have a frontage of fifty feet on Grace street and will run back one hundred and fifty feet.

It will be a modern and, in every respect up-to-date building, for its purposes. The walls will be constructed of brownstone and red brick. It will be three stories high, with basement and mansard roof. There will be ample parlors and offices and operating rooms. In fact, it is proposed to make it one of the most modern and up-to-date surgical hospitals in the country.

PRIVATE SANITARIUM.

The building will accommodate fifty patients.

In adopting the plans the Drs. McGuire had in view the fact that the hospital would be in a fashionable residential portion of the city. The building will be an ornament to west Grace street. It will be a private sanitarium in every sense of the word. Only those patients who desire treatment by Drs. Hunter or Stuart McGuire will be received there.

MISS SCHAPIRO MARRIED.

She Became the Bride of Mr. A. I. Weinberg Sunday.

In the presence of one of the largest assemblages that ever assembled to witness a marriage in this city, Mr. Abraham I. Weinberg, a rising young attorney of this city, and Miss Carrie Schapiro, formerly of Baltimore, and well known there,

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one can know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely, the dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of

S.S.S. For The Blood

will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.

MILLINERY MELANGE.

Kaufmann & Co's. Store a Vast Bower of Beauty.

Easter suggests Millinery, and Millinery suggests Kaufmann & Co.

The annual spring display of this popular establishment began yesterday, and all day crowds of friends and purchasers filled the various floors and admired the handsome assortment of millinery and other goods that this house has become famous throughout the South by handling.

The main floors, where are located the largest and most complete stocks of ribbons and lace effects in fronts and neck fixings, and a complete kid glove department, is gracefully decorated with evergreens, the beautiful artificial flowers that are displayed making a foreground pretty enough for a setting in fairyland.

This spring display is large and complete and embraces styles from Paris, London and New York, besides the original Kaufmann styles.

This house has grown famous in its millinery line because it has always secured the most proficient, intelligent, courteous and competent clerks. It is a recognized fact that almost any woman will leave home with $25 in her pocket to buy a hat without having the faintest idea of what style of hat she intended to buy. Naturally she seeks the house whose employes are competent to make intelligent suggestions and give valuable hints, and she, forsooth, goes to Kaufmann's, where she finds clerks with trained artistic eyes of artists. The suggestions are given courteously, and the customer is supplied with just what she wants. This is true at Kaufmann's, as is proven by the great amount of business done at that establishment.

While millinery is a feature at Kaufmann's, both wholesale and retail, there are other portions of the establishment that cater to the wants of those in search of ladies' and children's suits, cloaks and wraps. And this display is large and most complete.

Rich colored parasols and those in more sombre and sober shades abound, and there is nothing that will give style to the Easter parade more than a Kaufmann hat, a Kaufmann lace front and collar, a Kaufmann pair of kids and a Kaufmann parasol.

The attaches of the Kaufmann establishment have been thoroughly trained in the art of blending the various shades and colors in order that an artistic effect might follow, and a lady entirely ignorant of the prevailing styles may with perfect confidence place herself in the hands of the clerks at Kaufmann's with the knowledge that she will be fitted out to her own taste.

The beautiful display that is now going on at Kaufmann's is to continue for three days. A view of the handsomely decorated and arranged store is worth a trip from a long distance, and the lines of millinery, suits and wraps, gloves, parasols, ribbons and laces represent all that is fashionable in the fashionable world.

Not only is the whole field of the milliner spread out before one at Kaufmann's, but the kaleidescopic display of ribbons is enough to charm the most aesthetic young boarding school miss, while the great bouquets of artificial flowers of all kinds are so natural that one almost detects the sweet scent of roses, violets and posies, or the hum of the honey bee as it flits from flower to flower.

As wholesale milliners the Messrs. Kaufmann & Co. cover the South as far as Florida and have five salesmen out on the road.

Those looking for Easter bonnets, ribbons, laces, gloves and parasols need go no further than Kaufmann & Co.'s, at Fourth and Broad streets.

REORGANIZATION MAY BE DELAYED.

New Laws are Needed for the Military.

BIGAMIST MOORE GOES FREE.

The Old Man Thought He Had a Right to Marry Another Wife—Virginia Lands in Demand—Capitol News Items.

Governor Tyler is very much puzzled about the military organization. He realizes that new legislation by the General Assembly is needed. If companies and regiments are formed under the existing acts, they will have to be reorganized when new State regulations are made.

It is a question as to whether it is better to begin now and then have to undo much that may be done, or to wait for legislation. Governor Tyler and the military people wish to have the organization conform to the Federal plan, but this cannot be accomplished under the present laws.

A BIGAMIST PARDONED.

The Governor has granted a pardon to George Washington Moore, an old negro who is serving a term of three years in the penitentiary for bigamy. This man's first wife had left him several years before his second marriage. A lady of high standing in the community advised him that he had a right to marry again. This George proceeded to do. He has served several months and a very strong petition was presented in his behalf by the lady who advised George that he had a right to take another wife. She is greatly distressed about the matter and has pleaded with the Governor to set the negro free. The Governor is convinced that George has been sufficiently punished to serve the ends of justice.

ONE LADY RESPONDS.

At least one young lady is willing to become the wife of the Illinois youth who wrote to the Governor to put him in correspondence with a pretty damsel of very blue blood. A Richmond lady of well-known family has written to the Governor asking him to put her in correspondence with the alleged prospective millionaire.

Messrs. Sam Stern and J. Samuel Parrish, president and vice-president respectively of the John W. Daniel Club, called on the Governor and invited him to attend the masquerade ball at Sanger Hall Wednesday night. He promised to go if possible.

Many letters are being received by the Governor asking for vaccine matter. He is unable to comply with the requests for the Legislature made no appropriation for this purpose.

AN INVITATION.

Governor Paynter, of Nebraska, has sent Governor Tyler a cordial invitation to attend the Trans-Mississippi Exposition at Omaha, which opens on July 1st and continues till November 1st.

The Governor has been asked to appoint twelve delegates to the National Farmers' Congress.

The War Department has notified the Governor of the honorable discharge from the army of Jesse A. Parker, Company I, 4th Regiment, and Archie M. Beattie, Company A, 4th Regiment.

An old colored man called at the Capitol to present a petition for the pardon of Fleming Randolph, who is in the city jail.

"Why was Fleming sent to jail?" asked Secretary Owen.

"'Twas somthin' nuther bout a wheel barrow, bucket of lime and white wash bresh," said the visitor.

"Do you mean that he stole those articles?"

"Not zactly dat; but he was caught rollin' de barrow off."

MANY WANT FARMS.

Commissioner Koiner has received letters from twenty States asking information about Virginia farm lands. There is a great demand for maps. Recently there have been numerous requests for information concerning lands on which there is mineral ore. Mr. Koiner replies to all these communications and gives the best information he has in his possession.

NEW THEATRE.

Manager T. G. Leath to Have One at Newport News.

Manager Thomas G. Leath, of the Academy of Music, has just signed a ten-year lease with Mr. R. W. Withers, of Newort News, for the new theatre to be built at that place. The new place of amusement will be a handsome up-to-date affair, and will cost not less than $70,000. It is to be built in modern fashion, and is to be completed by August 28th. The theatre will be located on Washington avenue, the principal street of the city, and will be in the business district.

Associated with Mr. Leath in this new house, will be Mr. G. B. A. Booker, who is now connected with the local theatre at that place. Mr. Booker will be the resident manager.

Captain M. J. Dimmock, the architect, is preparing the plans for the new theatre and work will begin on the building just as soon as he completes them, which will be in about ten days.

Captain Dimmock is also at work on plans for a summer theatre for Manager Leath to be located at Buckroe Beach. This theatre will be ready for occupancy in June.

When the Newport News house is completed Manager Leath will control a circuit of three houses—Richmond, Norfolk and Newport News.

Home for Incurables.

The Virginia Home for Incurables is situated corner Mulberry and Broad streets, where the Traction car line leaves Broad street for reserevoir. The board begs to acknowledge the receipt of of additional Easter offerings, viz: Mrs. J. S. Parrish, towels, preserves, catsup; Misses N. Mangum and Mr. Higgins, a beautiful set of china; Mr. John Bowers, donation of tinware; Mrs. Moesta, another large donation of delicacies; Messrs. Carneal & Davis, window glass, for which Miss Mary Gresnhow, president, and the board return thanks. Any donation sent to the above address will be receipted for with many thanks by Miss Walker, the matron of the institution.

Henrico News Notes.

All the candidates for office in Henrico are expected to hand in their names to Judge Wickham after March 22d at noon. Judge Wickham will then appoint the judges for the various precincts.

The County Court adjourned for the term yesterday.

Aubrey Farmer, a white man, was before Justice James T. Lewis, at the county courthouse yesterday charged with breaking into and entering the storehouse of a man named Goodwin, near the New Reservoir. After all the evidence was submitted, the justice did not think the charges were proven, and the accused was dismissed.

Laid to Rest.

The funeral of Mr. Henry S. Gardner took place Sunday afternoon at four o'clock from Epiphany church, Barton Heights. The services were conducted by the pastor, Rev. W. P. Chrisman, assisted by Rev. J. P. Smith, chaplain of the Howitzers. The interment was in Hollywood.

The following detail from the Howitzers served as pall-bearers:

Capt. R. A. Williams, Sergeant Wythe Rolling, Fred Minson, B. W. Wilson, G. M. Terrell, James Poindexter, Henry Poindexter and W. W. Barnes.

The funeral of Mr. John F. Glazebrook was held Sunday afternoon at 3 o'clock from the residence.

"CUPID" Shoes is our own especial brand of ladies' fine shoes. With every pair goes our broadest warrant for complete satisfaction. "Cupid" shoes are built so that they LOOK SNUG and FEEL LOOSE at the same time. DO remember that. We ask you to buy them because they are easily the best shoes in town for $3.50. We expect to sell them for years to come and are fully prepared to PROVE all we say about them. We shall be glad to show them to you, whether you buy or not.

Taylor-Brown

918
EAST MAIN STREET.

JOHN BULL'S MUSICIANS.

The Royal Band of England Makes a Hit in Richmond.

The British Guards Band under the direction of Lieutenant Dan Godfrey sustained its representation yesterday as a thoroughly competent organization of a high standard. The newspapers from the cities where the band has recently performed published the most flattering criticisms of the organization, and a number of the performers were referred to as artists. Richmond lovers of band music were prepared to hear good playing. They were not disappointed. It is one of the best military bands which has ever appeared here.

Considerably smaller than Sousa's band and selecting a somewhat different class of music the Englishmen did not reach that standard of Mr. Sousa in giving classic selections. Indeed, most of the numbers were selected with a view to harmony rather than for that complex effect which is produced by such works as Leitzs' Second Rhapsody. Some of their work, however, was exceedingly artistic and strikingly impressive. The selections from Carmen, which were rendered at the matinee, were well played, as were also the ballet suite by Tschaikowski.

I have never heard Caryll's Patrol March rendered with more grace and finish, and when Sousa's Washington Post March and Stars and Stripes Forever were given as encores, the effect was almost equal to that which is produced by Sousa himself.

The Xylophone solo by Mr. Byrne completely captivated the audience.

The programme at night was much more varied, and included some descriptive music which was as vivid as it was cleverly rendered. The marches were rendered in a manner that was inspring. The solo work was highly creditable, and the entire programme was well selected and well received.

Mr. Reitern's work on the flute was of a very high order. He played two solos in a way that showed him to be a master of the instrument and a musician of refinement and genuine appreciation. He was heartily applauded.

Employes Surprised.

The employes of "Rinearson," the woman's tailor, who, a short time ago, established his place of business on Franklin street, between Eighth and Ninth, were surprised yesterday morning to find the place locked up when they came down to go to work, and to be informed that Mr. Rinearson was out of the city.

A young man, who seemed to be looking after things, said that he thought Mr. Rinearson had gone north after goods and would be back in a short time. He had a valuable stock on hand now, the young man said, and he did not expect to let anyone touch it until the proprietor was heard from.

The Third Keel.

The W. R. Trigg Shipbuilding Company last week laid the keels of the Thornton and Stockton, two more of the 26-knot torpedo boats, which they are building and they are now at work on all three of this class of boats at once.

The keel of the Shubrick, the first of these boats, was laid two weeks ago.
