THE HERALD,

A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and for the cough following la grippe, and find it very efficacious." For sale by Anderson Drug Co.; Shorter, Darlington Heights.

The Westminster confession of the Presbyterian church was adopted in 1645, and of late has been receiving blows at the hands of it friends. The Northern branch of the church, at the recent session of its assembly, appointed a committee of revision, whose report will be made at the next meeting of the assembly, a year hence. If any mere man, North or South, hopes to reconcile God's sovereignty with man's free agency, he will die in despair. The only sensible thing to do is to follow the example of sensible farmers who plow and plant, work and wait, knowing full well that without the sunshine and the shower there will be no harvest gathered. Let man deal with things eternal as he does with things temporal and mystery all vanishes.

Didn't Marry For Money.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c at White & Co.'s drug store, and R. J. Carter's, Prospect.

Man is the only animal that tries to fence in the earth—and fence out his neighbor.

Unnecessary Loss of Time.

Mr. W. S. Whedon, Cashier of the First National Bank, of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by Anderson Drug Co.; Shorter, Darlington Heights.

To hear a mother's wail of want, and a child's cry of hunger, and a father's plea for work, makes a hell out of the happy man's paradise.

A severe sprain will usually disable the injured person for three or four weeks. Many cases have occurred, however, in which a cure has been effected in less than one week by applying Chamberlain's Pain Balm. For sale by Anderson Drug Co.; Shorter, Darlington Heights.

Most of the old authors live in their works, because they flattered aristocracy; Dickens, the great, lives because he ridiculed snobocracy.

A Terrible Explosion

"Of a gasoline stove burned a lady here frightfully," writes N. E. Palmer, of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her." Infallible for Cuts, Corns, Sores, Boils, Bruises, Skin Diseases and Piles. 25c at White & Co's.; R. J. Carter, of Prospect.

Every individual and every nation has made double history: One that proclaims their glory, and one that whispers of their shame.

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Samples free at Anderson Drug Co.'s.; Shorter's, Darlington Heights, drug store.

A blush on the face is better than a blot on the heart.

Call at Anderson Drug Co.'s; Shorter's, Darlington Heights, drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

A fool at home will be none the wiser when abroad.

HIS LIFE SAVED

By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I am sure that Chamberlain's Colic, Cholera and Diarrhoea Remedy at one time saved my life," says A. E. Lafalette, of Gregory Landing, Clark county, Missouri. "I was in such bad shape that the doctors said I could not live. When I was at the lowest ebb, one of my neighbors brought in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I took it and got instant relief. I soon got up and around. That was nine years ago and I am still in good health. Since then that medicine has always been in my house and always will be. It is the best on earth." For sale by Anderson Drug Co.; Shorter, Darlington Heights.

When, oh, when will we have law enough? I want to see the day when lawyers are able to know where they are at.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1 bottles guaranteed by White & Co., and R. J. Carter, of Prospect. Trial bottles free.

Political parties are like mushrooms and toad stools—they all look so much alike that you can't tell the poison ones from the good till after you get a fatal dose.

BELGIAN HARE NOTES.

The Doe and Her Young Require Considerable Care and Must Be Fed Judiciously.

When a doe is bred she should be separated from other hares, and more especially so when near the time of kindling, when she must occupy separate quarters exclusively to herself. Four or five feet square floor space will accommodate her nicely. She must be furnished with a nest box, and an ordinary cracker box is just as near the proper size and shape as we could make one. The nest box must be furnished with material for a nest, which may be soft, clean, fine straw or blades of grass or soft dry hay.

The doe carries her young 30 days, which is the period of their kindling. They usually have from six to ten young. Young does seldom have as large number as the older ones. The young when born are very helpless little creatures, and on taking a look at them, one would say they were immature. They grow exceedingly fast, and in 15 or 20 days they are running about, and beginning to eat. Perhaps the first best feed to offer them is shorts or bran. I prefer shorts.

The doe must be carefully fed milk-producing food, but right here I would caution you to feed only sparingly of green food, for the doe if not used to such will over-eat of it and diarrhoea and a sick doe will be the result. I have carried the doe and her young until weaning time exclusively on dry clover hay, shorts, bran, oats and other grain, with plenty of pure water, and never had better results in growing the young and keeping the doe in good condition.

After the young hares begin to eat well they may be weaned, but I prefer to let them run with the doe six weeks, and they will usually be much better developed specimens than if weaned younger. I have young hares eight weeks old that weigh five pounds, and bred from very fine does scoring as high as 94½ and weighing ten pounds.

No one should think that all stock of Belgian hares is about one and the same thing by any means. The facts are that as yet there is but a limited number of first-class breeding stock in the country.—A. H. Duff, in National Rural.

HANDY DUMPING SLED.

A Convenient Vehicle for Use Around the Fields and Barnyard During the Winter.

A sled drawing manure, stone or other coarse materials, from which the contents can be instantly dumped, such as is shown herewith, will often be found a very convenient farm vehicle. It consists of stout runners, upon which the plank deck is fastened, and a pair of inverted runners are fastened to the upper side. These operate as side planks and runners at the same time. The sled is

HANDY SLED FOR WINTER USE.

drawn by a stout chain and ring fixed to the front. A longer chain is fastened to the back of the sled, as portrayed. The draft-chain is fastened to a snap-hook, which may be released. Then the dumping-chain comes into use and tips the sled over, releasing the load. The ring is then attached to the draft-hook; the dumping chain, fixed as before, and the sled is ready for reloading, this time upon the reversed side. It is in fact two sleds in one, and by rounding the runners, front and rear, it may be drawn equally well from either end.—E. L. Hayes, in Farm and Home.

Kaffir Corn in the West.

There is much truth in the saying, especially in the Western states, that "corn is king." Yet for the farmer of these sections Kaffir corn is too valuable a crop to be neglected. In dry seasons it is much more certain than Indian corn. In any season it produces as much grain as Indian corn, and in dry seasons much more. It is a better feed for growing animals than other corn, and it has no superior as feed in the poultry-yards. Its grain makes excellent bread, mush and batter-cakes. Kaffir corn has been the salvation of the semi-arid regions, and has been raised with profit by the farmers of more favored sections. It is a crop that bids fair to grow in popularity as its value is better understood.—Farm and Fireside.

How to Put Up Wire Fences.

Wire fences should be straight from point to point. Corner posts should be tree trunks dug out with the lump or stump set in the ground not less than 3½ or 4 feet. Line posts should be driven so that if frost raises them they can be driven down past it. Should be either 16½ or 33 feet apart, with a false post between; 1¼ inch staples are best. For trees, use a board nailed on tree, fasten wire on board. Sap corrodes zinc and rots wire. Two points are safer and cheaper than four points. In stretching always begin on top wire. Never use more than one staple on line post two on end, or better, ratchet.—Ernest Moses, in Farm and Home.

Good Farm Disinfectant.

One of the best disinfectants for the stable, drains, poultry yards or contaminated ground is to dissolve a pound of copperas and a pound of blue stone in four gallons of boiling water adding four ounces of sulphuric acid. This mixture may have twice as much water if used once a day for a week but it is better to use it somewhat strong for the first two or three applications. It will destroy the germs of all diseases.

Boys who are away at school should have a sure remedy for sudden attacks of cramps, diarrhoea or dysentery, and an hour's delay in cases of this kind often leads to serious results. Parents should supply their sons with PAIN KILLER, which is simple, safe and sure. One dose rarely fails to bring relief from any bowel complaint. There is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

Warm weather is coming. See our wash goods before buying.

Fleming & Clark.

When it is fair, be sure take your great-coat with you.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're ill or will be. Keep your bowels open and be well. Force, in the shape of violent physic or pill poison, is dangerous. The smoothest, easiest, most perfect way of keeping the bowels clear and clean is to take

FACULTY.

RICHARD M. SMITH, M. A. (University of Va.), Ph.D. (Leipsic), Principal and conductor of High School.

Miss FANNIE SMITHSON, graduate State Female Normal School.

Miss MAUDE GRAY, graduate State Female Normal school.

Miss LOUIE MORRIS, graduate State Female Normal School.

The Trustees are proud of the record of this school under the management of Principal S. C. Starke and his co-workers. They desire to develop it still more as part of the Public School System of the Farmville District. It will be continued in all grades for the full session of nine months.

THE HIGH SCHOOL is intended to prepare our boys and girls for College and University, or for life.

The Trustees are glad that it is a part of the public school work of the district, and intend that it shall be so conducted as to be a credit to the district and a great saving of expense to those that avail themselves of the advantages it offers.

Owing to the fact that the High School is a department of the Public School, instruction in it can be obtained for the fee of $2.50 per month.

LESS THAN $23 A SESSION.

Sustain it, and build up what will be a help and a credit to the community.
