**From Buckingham.**

Nov. 14th.—Attorney John L. Lee in his argument before the Supreme Court last week, said that the evidence in the Wright case "challenges human belief," and that the conviction of Wright, Jones and Perkins was the result of a dream. Mr. Lee's argument was quite lengthy. Commonwealth's Attorney E.W. Hubbard and Mr. Samuel W. Williams, Attorney General for the State, argued the case for the commonwealth.

Circuit Court opens here tomorrow, but I do not know if the decision of the Supreme Court will be made in time for any action to be taken in regard to the fate of these unfortunates at this term of court.

It seems strange indeed that the price of corn should have started at 40 cents a bushel, when the price of labor and everything else is so high. Hands want 75 cents a day now and these short days they would hardly touch and house five barrels of corn.

The printer made me to say I ordered wine when I had only ordered wire.

The Methodists have been watching the papers with interest to see the names of the ministers sent out by Conference.

Rev. C. M. Barrell preached an unusually appropriate sermon last Sunday here, in which he reminded the members of his church of their duty in regard to the converts who have recently joined the church. It was a noteworthy fact that the Sunday School and church service on last Sunday was attended by so many of those who have recently been added to the church.

Mr. and Mrs. W. J. Hubbard gave an enjoyable entertainment to some of their young friends on the night of the 9th. The entertainment was given in honor of Mr. John Simms, a brother of Mrs. Hubbard, who was on a visit here.

People are anxious for a tobacco season to come so that they can sell some before Christmas.

The weather the past week was hard on wheat, oats and grass, all of which needs a warm and wet spell to give them a start before winter sets in.

Drs. Perkins and Glover, and Mr. Ralph Root, of Arvonia, have been up to "Fountain Ridge" and Woodburn hunting and bagged a nice lot of birds and rabbits.

**From Crewe.**

Misses Virgie and Ethel Ranson spent Saturday and Sunday with their home people.

The robbers are about again, they broke in the store of Eddie Wright (colored) Sunday night, and Mr. Allen thinks they tried to go in his, but it was in vain.

**From Bagby.**

Nov. 15th.—A little son of Mr. J. D. Jenkins was very painfully hurt at school one day last week. Another boy threw him down in play and broke his collar bone. Dr. Terry was called in and treated him, but they fear he will have to be taken to the hospital as the break is so close to the shoulder.

**Girl Offers Herself as Lottery Prize.**  
Miss Lavone Livingston, twenty years of age, lately from Petroskev, Mich., born in Virginia, offered herself as a capital prize in a lottery which she requests one of the Tacoma, Wash., newspapers or some society to conduct. She says the law doesn't prevent lottery prizes offering themselves.

Getting her ideas from the play of "The Lottery Man," Miss Livingston proposes to sell her 10,000 tickets at \$1 each. The man getting the lucky number will be entitled to her and half of the money. If the winner be unwilling to marry her he forfeits his half; if she be unwilling to marry him she forfeits her half. If both are unwilling they divide the money. She wants foreigners and certain kinds of men barred. Should a married man win she will be released from marrying the winner. The girl declares she is in earnest, her motive being "I need the money."

**To Whom It May Benefit:**

Hampden-Sidney, Va., Oct. 21, 1910.

Long has the glare from the large windows of College church been a source of inconvenience and discomfort to its congregation. As a remedy for such an annoyance and at the same time to produce a very artistic effect, Mr. R. C. Bristow recommended the use of the new preparation, Windowphaine. The committee charged with effecting improvements on the church acted upon the suggestion with the result that we unhesitatingly recommended the use of this preparation by all who wish to secure an effect that is both rich, pleasing to the eye and gives evidence of durability at a cost indeed moderate.
