

Mr. Clay (interposing)—Certainly, but not upon my private intercourse.

Mr. Clay said a few words in reply to Mr. Foster's remarks about the intercourse between him and Mr. Benton, and in the course of his observations suggested to him the impropriety of attempting to draw deductions from such private intercourse.

Free Press, BURLINGTON, VT. FRIDAY MORNING, MAR. 1, 1850.

(From the Albany Evening Journal) The Unreasonableness of the South.

Previous to the admission of Texas, the Union contained three Free and Northern States.

Previous to the admission of Texas, the Union contained three Free and Northern States. Although the "balance" was in favor of the South, they were not content.

We are not on that plea the South ask for a further extension of Slavery. God and Humanity both demand that no further concession shall be made to the barbarous "institution."

out Slavery, (so far as the National Legislature is concerned) then we think we can have no Freedom that a man can lay claim to without blessing! The American Union, and the American Republic, with its millions of human beings held in servile bondage, is no anomaly to the world.

Vermont has always exhibited her attachment and her fidelity to the Union. She has always, however, made known her abhorrence of the institution of Slavery—always protested against its extension.

Mr. Cass (interposing) said, that if Mr. Clay should be to be elected, that in the country, he must take exception. (Laughter.)

Mr. Clay further defended his resolutions. He had honestly, in the sight of God, endeavored to bring forward a scheme of compromise for the purpose of keeping the Union together in one family, with harmony and concord.

Mr. Stephens, of Pa., alluded to the speech of Mr. Clay, and said, he was selected to open the debate on human bondage, and it was his duty to do so.

CALIFORNIA AND SLAVERY.

The indications from Washington are that the State of California will be admitted into this Union by the vote of a very decisive majority of both branches of the National Legislature.

We can exercise neither charity nor patience towards the outcry of the Slave-propagandists of the South connected with the question of admitting California.

We should be sorry to find we have a reader so poor that he cannot afford to buy this edition. It is to be completed in six volumes, and Mr. Smith will have them, seriatim, as they are issued from the press.

Mr. Smith, who has received from the Publishers, Messrs D. Appleton & Co of New York, Nos. 1 and 2 of one of his most valuable and instructive serial works that have ever been projected.

The North, therefore, says to the South: "You have chosen to foster and encourage Slavery, and while we look upon you as abusing God and yourselves by the course, we admit that you have nothing to do with it."

The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured almost every work on the subject, whether published in England, France, or Germany, the most essential parts of which being condensed in this Dictionary, render the work as comprehensive as possible.

Washington, Feb. 18. Mr. Calhoun appeared in the Senate, to-day, after an absence of several weeks, being detained by his seat by illness.

The Locofoco notion of Slaves and Factory Girls.

The Boston Times, a Cass and Butler locofoco paper, sustains Senator Clemens of Alabama, in his attempt to make it appear that the Factory Girls of New England are worse off than the Slaves of the South!

Washington, Feb. 19. Will California be admitted? is the question now asked by the people.

Will California be admitted? is the question now asked by the people. Judging from the course of the Southern members, both in House and Senate, it might be supposed that every effort will be made to prevent, if possible, her coming in at least with her present Constitution.
