## Important Happenings and Local Notes from the County Seat.

### Unusual Social.

The unusual social given by the Ladies' Aid society in the assembly room of the Methodist church was attended Wednesday evening by over 200. The claim of the advertising of an unusual good time with several unusual features was thoroughly carried out by the committee.

To describe briefly. Entrance was made by the church door, then descending to the rooms below, where the sum of 23 cents for adults and 11 cents for children was exacted. A large number of the attendants carried out the plan of wearing unusual costumes, such as those sometimes worn at masquerades, old-fashioned silk dresses, ladies dressed as school girls, with their hair hanging in braids, while boys represented old men. Following games and a splendid program, lunch was served in the cafeteria style, each person secured a mug, fork and spoon, next a plate with a piece of apple pie, whipped cream and a doughnut and further on reached a table where coffee was served from a garden water can and cream from a teakettle. The social enriched the treasury of the society about \$35 and the participants with the feeling of a very enjoyable occasion.

The following is copied from the Claremont Eagle of recent date: "A quiet but pretty home wedding took place Wednesday evening at the home of Mr. and Mrs. George Farrar at North Charleston, N. H., when their son, Sergt. C. Clinton Farrar and Miss Isabelle Broome of West Charleston, Vt., were united in marriage. Only the immediate family and a few friends were present and the bridal couple were unattended. They stood beneath an arch of evergreen, and flags and the national colors were used profusely in decorations. The ceremony was performed by Rev. Francis P. Thayer, the single ring service being used. The bride wore gray silk and the groom was in his uniform of the United States army. The couple have the best wishes and congratulations of their many friends. They received many beautiful gifts of cut glass, silver, etc. Sergt. Farrar is attached to the Utility Department at Camp Devens and is on a ten days' furlough."

Believing that while our friends are alive is the best time to show our appreciation of them we would say a word for our neighbor, Mrs. Ade-

line Church. Since coming to our village over 16 years ago she has won and kept many friends. Always pleasant and helpful, never idle a minute and strictly honest in all her dealings, she will be much missed by all, and especially by her near neighbors. Mrs. Church has been a tireless worker in the W. R. C. society and for the Red Cross. She is a great lover of children, and their love for her shows her to possess characteristics which many do not have, for children look upon her with the same surprise to older people many times. Mrs. Church has always kept the most beautiful flower garden and her generosity with her flowers to the sick and sorrowing will not soon be forgotten. Mrs. Church is at present visiting relatives and will soon go to Worcester, Mass., to make her home with her sons, Henry and Harry Bailey. May her declining years be made pleasant as she has so faithfully tried to do that for others.

**Valuable Cement.**  
A cement for making repairs on switchboards when iron or other metal has to be fastened to marble may be made from 30 parts plaster of paris, 10 parts iron filings and half a part saltramonic. These are mixed with acetic acid to form a thin paste. It is imperative that this cement be used immediately after it has been mixed.

**Wild Duck Consumes Much Rice.**  
On his way down from Canada or Alaska to the Gulf, the wild duck makes a stop-over of 90 days in the California rice fields, and during his stay consumes a large part of the rice crop, a cupful of rice at a meal. This, considering that the wild duck appears in numbers of perhaps a million or so, makes the situation much more serious than it sounds.
