PREPARE NEW ATTACK ON STANDARD OIL COMPANY.

Bonaparte, Kellogg and Morrison in an Important Conference.

Washington, D. C., Aug. 23.—An important conference here yesterday between Attorney General Bonaparte, Judge Frank B. Kellogg of St. Paul, and Charles B. Morrison of Chicago, the latter being special attorneys for the government in suits for the dissolution of the Standard Oil company were considered, has caused considerable comment, and aroused the belief that the department of justice will proceed at once in the effort to break up the oil monopoly by terminating the franchise of the organization.

What strengthens the belief is the fact that Attorney-General Bonaparte had a lengthy conference some days ago with Morrison, in which the subject was considered in all its phases.

WALLOPED THE CRESCENTS

Go Down Before Pick of the City

WITHOUT MAKING A SCORE

Up to the Fourth Inning the Game Was Interesting, With Neither Side Scoring—Pick-ups Made Five Runs in the Fourth.

At the trotting park yesterday the Pick of the City defeated the Crescents by a score of 9 to 0. Gabeloni was in the box for the Pick-ups and pitched fine ball, allowing only one hit and striking out six men, while Fisher allowed two hits and struck out seven.

Up to the fourth inning the game was interesting, no scores being made by either side. But then with three men on bases, Reaside knocked the ball by Duncan and it lodged in the grass about two feet behind him, where it could not be found until four men had crossed the plate. This started the scoring for the Pick-ups, which lasted until they had netted nine runs in the sixth.

TAFT TO STICK BY HIS CHIEF

Has No Desire to Divorce Himself From Rooseveltism

SPEAKS IN LEXINGTON, KY.

The Secretary of War Fulfills His Engagement for His Kentucky Address—Declares That He Is Not Going to Resign.

Lexington, Ky., Aug. 23.—Secretary Taft said yesterday regarding the report that he would resign from the cabinet upon his return from the Orient: "I have no desire to divorce myself from either Rooseveltism or from the president's administration. I realize that, no matter what amount of prestige it may have been my good fortune to attain in the middle west, my prestige which may have fallen to me is due to my identification with the Roosevelt administration and on my efforts to carry out its policies."

A reception to the secretary was held in the parlors at the Phoenix Hotel from 10 until 11 o'clock.

Among those in the reception room was James A. Garfield, secretary of the interior.

The matters were entirely relative to my department and since this was my only chance to see Mr. Taft before his departure for the Orient, I took this opportunity.

Mr. Garfield was the recipient of much admiration from Kentucky Republicans.

President Has Authority to Permit the Creation of Deficiency.

Washington, D. C., Aug. 23.—A careful examination of the law governing the construction of the Panama canal has satisfied Acting Secretary of War Oliver that the president is authorized to grant the request of the Isthmian Canal Commission for permission to create a deficiency of \$8,000,000 during the current fiscal year to meet the requirements of the engineer department for an enlarged scale of operations.

The president has been so advised, and on his approval permission will be granted to the commission.

Let us say you are a farmer. You live near this town. You own land.

Let us say that you own more than you need and would like to sell a hundred acres.

How much could you get per acre? Land values have risen lately.

Your land is good land. You think it is worth considerably more than anybody has offered you.

A man buying farm land naturally prefers to locate near a thriving up to date town.

Let us say your town is three miles from town.

If you were going to buy a farm for your own occupancy, wouldn't you pay a whole lot more for land near the town that is twice as large and twice as lively?

Of course you would. It would be good business.

Now, what makes a town big and bustling? Money. Money in circulation.

How much money have you sent to the big Mail Order houses in the city the past ten years?

It is probably beyond calculation. If all that money had been spent in your own home town, isn't it reasonable to assume that the town would have grown more than it has grown?

Wouldn't this town be a bigger and better town?

Wouldn't it have more stores to buy your produce?

Wouldn't it have more public improvements to make it more attractive to outsiders who might come here to live, to go into business, or buy your surplus land at a good figure?

TO TRADE AT HOME MEANS TO HELP THE TOWN AND THE NEIGHBORHOOD. TO HELP THE TOWN AND THE NEIGHBORHOOD MEANS TO HELP YOURSELF.

BANKER-SCHIFF TALKS ON THE MONEY CRISIS

Declares that the Federal Administration Is Not to Blame for the Situation—Pace Must Be Lessened.

Bar Harbor, Me., Aug. 23.—Jacob H. Schiff of the International banking house of Kuhn, Loeb and company, who is in Bar Harbor, on being asked by a correspondent to express his views upon the existing financial situation, made this statement:

"To blame the federal administration for the difficulties in which we find ourselves is both thoughtless and unjust.

"In the first instance it is a result of tremendous railway, industrial and commercial development of the last ten years, and which has brought about capital requirements largely in excess of the ability of the country to supply.

"Moreover, it has been to a great extent overlooked that the Russian-Japanese war and the San Francisco earthquake have destroyed an enormous amount of wealth, which sooner or later had to make itself felt.

"Nor has the fact that both Japan and China have now entered into competition for the surplus capital of the world been given sufficient attention.

"No other remedy for this state of affairs appears to be possible than at least a temporary reduction in our activities until the country's capital and credit facilities again have reached a point sufficient for its volume of business.

"I believe railroad managers in general have already recognized the necessity for curtailment; but manufacturers and merchants appear to be behind in this.

"The sooner these two recognize the imprudence of continuing in the present pace, the more certain will they be to save themselves from loss and the nearer we shall come to the end of the present unsatisfactory state of affairs."
