

MORE WORK FOR CONGRESS

A Strong Demand for Action on Conservation

BILLS OF UTMOST IMPORTANCE

More Necessary Than the Anti-Trust Program

Washington, May 29.—A straight appeal to President Wilson to urge upon House leaders the necessity for a special rule for the conservation programme will be made next week, so that it may be completed by the House before the adjournment. Members of the committee on public lands of the House, which has been framing the bill, will call at the White House for this purpose. Several important conservation measures have been drawn after months of full hearings and the hardest kind of work. The committee is anxious to see its bills sent over to the Senate for passage by that body at the winter session.

Although the House caucus which adopted the rules under which the trust bills are now being considered refused to take up conservation, nevertheless it was made clear by Leader Underwood at the time that he would not object to the taking up of other legislation as soon as the trust programme should be out of the way. By the middle of June, at the latest, the boards should be clear in the House, and if the president will sanction the rule to be asked of him next week, it is certain that the conservation programme can be put through one branch of Congress.

"We regard the conservation programme as far and away the most important thing before the House to-day," said a member of the public lands committee. "Personally, the trust programme seems to me practically useless. I shall vote for it, but I shall hold my nose while I am doing so. These conservation bills, however, are necessary if we are to develop the natural resources of the country without waste and without the wicked kind of exploitation that has prevailed in the past. We have a set of good bills already, and if the president will let us have this rule, we can get them through the House now, slip them over to the Senate, and then next December begin to bring pressure on the Senate to pass them."

Secretary of Interior Lane and Secretary of Agriculture Houston are both deeply interested in the success of the conservation programme, and they will undoubtedly advise the president to recommend the special rule.

WOULD INVESTIGATE N. Y. C.

Resolution Introduced by Senator Norris Goes Over on Objection.

A resolution calling upon the attorney

WHEN TONGUE IS COATED

your liver is torpid and is affecting your stomach and bowels. To rouse your liver, take the little, purely vegetable and in-all-ways satisfactory Hood's Pills. They relieve biliousness, constipation, all liver ills. Do not irritate nor gripe. Price 25c., of druggists or C. I. Hood Co., Lowell, Mass.

general to inform the Senate if the combination of railroad lines comprising the New York Central system is in violation of the Sherman anti-trust law was introduced yesterday by Senator Norris, Republican, of Nebraska. On objection by Senator Reed it went over until today.

The Norris resolution also asks the attorney general if his department contemplates any action for the dissolution of such a combination. It alleges that the New York Central by control of the Lake Shore and other railroads and steamship lines controls "four competing lines of transportation between Chicago and Buffalo and two competing lines between New York and Buffalo."

UNCLE SAM'S BEAUTY HINTS FOR HOT DAYS

He Says That Women Should Show More Sense About the Manner of Dress.

Washington, May 29.—"Helpful hints to keep cool" during the hot wave were given yesterday by Assistant Surgeon-General Rucker of the public health service.

"First of all, don't overeat," said Dr. Rucker. "A furnace is not stoked in summer the way it is in winter. Far-take sparingly of meats.

"Eat largely of fresh vegetables and fruits.

"Avoid alcoholic drinks. Alcohol never made anyone cooler.

"Be sparing in the use of ice water. Drink plenty of water, but not too cold, and have no ice in it."

In the matter of wearing apparel, Dr. Rucker advocated loose clothes of a light color and weight.

"It is a significant fact," he said, "that women are much more sensible about clothes than men."

"Keep in the air as much as possible and in the shade," he continued.

"In the matter of sleeping, stay out of doors. Screen off the porch if possible and sleep in the open."

Cold baths are to be avoided, according to the public health service physician. It is far better to bathe in lukewarm water in the summer than in cold water. Sponge baths are excellent for keeping cool, although too many should not be taken.

MUNSEY AT SAGAMORE HILL.

He and George W. Perkins Call on Colonel Roosevelt.

Oyster Bay, N. Y., May 29.—Frank A. Munsey, one of the leaders of the Progressive campaign in 1912, came to Oyster Bay yesterday to see Colonel Roosevelt. It was Mr. Munsey who, after the campaign, launched a movement for amalgamation of the Progressive and Republican parties, which Colonel Roosevelt rejected. Mr. Munsey motored from New York with George W. Perkins.

Colonel Roosevelt yesterday had recovered from the fatigue of his trip to Washington and apparently was as vigorous as ever. He said he expected several other political visitors later in the day.

WILSON DEAF TO TRADE APPEAL

Firm in Resolve to Push the Anti-Trust Laws

URNS DOWN MANUFACTURERS' PETITION

Middle West Business Men Asked for a Rest

Washington, May 29.—Officers of the National Implement and Vehicle association, the Ohio Manufacturers' association, and the Illinois Manufacturers' association called on President Wilson yesterday and petitioned in the name of their associations that all legislation affecting the business world, except the trade commission bill, be withheld until a trade commission could look thoroughly into the business situation and make a report on which Congress might enact laws satisfactory to manufacturers and employees.

Senator Pomerene accompanied the delegation. The president listened to their petition with much interest, but gave no assurance that he could change the present plan, which contemplates passage of the Clayton anti-trust act.

The petition presented to the president stated that "business is hesitating," that "the unemployed are numbered in the hundreds of thousands," and abundant capital awaits investment."

WILSON ON STUMP IN FALL CAMPAIGN

The President Will Defend His Policies Against Colonel Roosevelt's Onslaughts.

Washington, May 29.—Plans for President Wilson's participation in the coming fall congressional campaigns were under consideration yesterday. Representative A. Mitchell Palmer, the Democratic senatorial candidate in Pennsylvania, and Senator Thomas, who is again a candidate in Colorado, both saw the president yesterday. While no definite arrangement was made, it is believed certain that the president will make speeches in behalf of each of them.

The Pennsylvania campaign is to take on national characteristics. Colonel Roosevelt will stump the state for his friend, Gifford Pinchot, the Washington party's senatorial candidate, and will assail the Wilson policies. Senator Penrose, the Republican candidate for reelection, will make his fight on the tariff issue, and the president will take the field and answer both assaults in person.

It is understood to be the present intention of the Democratic leaders to use the president for only half a dozen set speeches during the campaign.

Why these liberal terms at rock bottom cash prices—you say

Our new club plan of selling makes them possible.

By getting several people to combine their purchases we are able to sell several watches at no greater cost than it ordinarily takes to sell one watch.

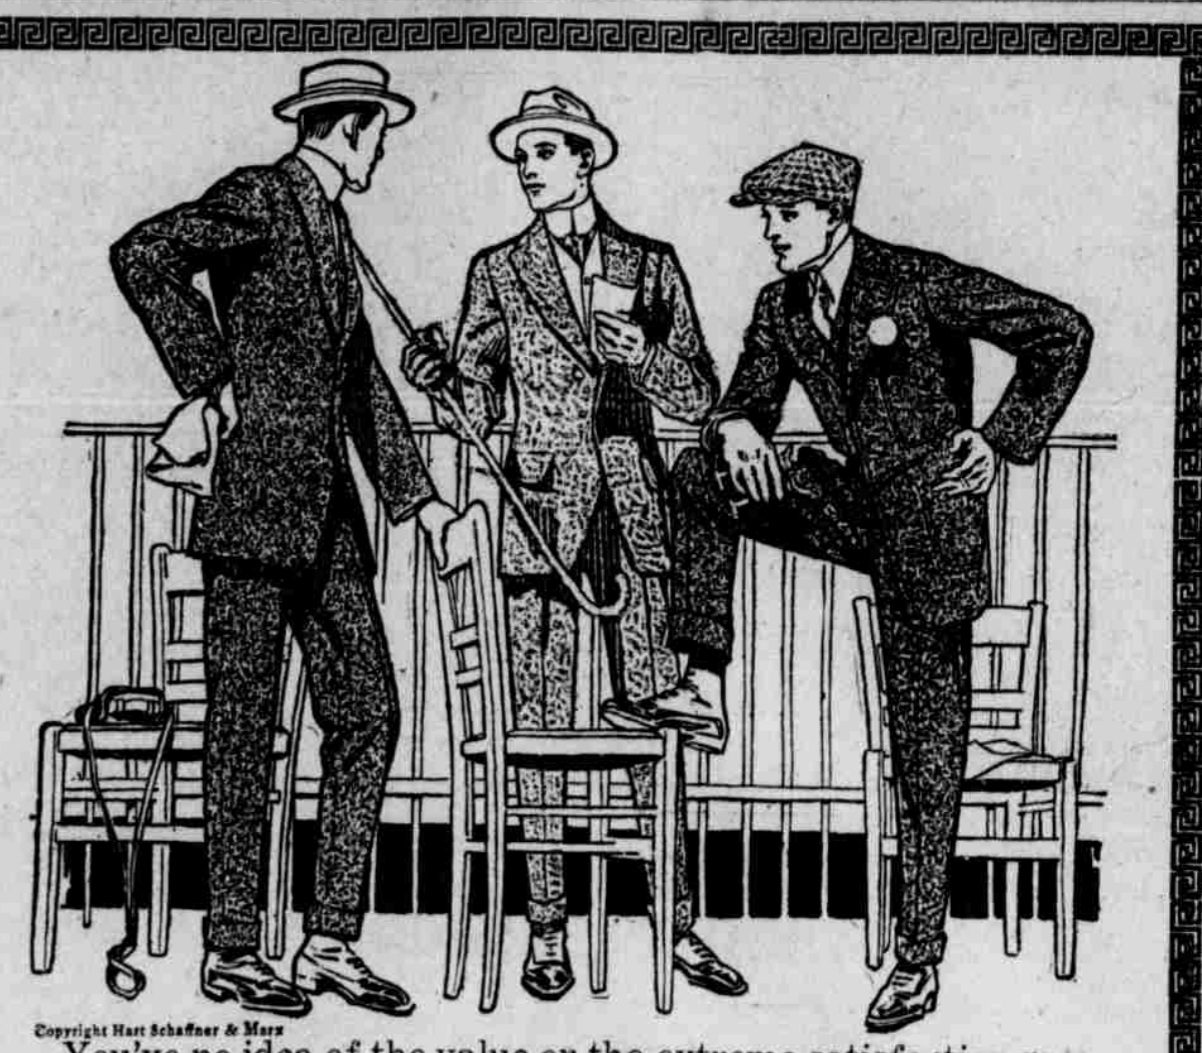

And so we give you the benefit of this saving.

You can't buy a better watch than the South Bend which we are offering on this club plan.

Come in and let us show you one.

We can make this club offer for a limited time only so take advantage of it immediately.

"Tuxedo is mild, cool and soothing—just the sort of tobacco I need. Tuxedo goes with me wherever I go."

V. Stefansson.

There is a Great Difference in Tobaccos

Tuxedo is the Mildest, Sweetest, Most Pleasant Smoke in the World, Because—

First—No one but the makers of Tuxedo is willing to spend the money necessary to buy the mildest, choicest, most thoroughly aged, selected Burley tobacco.

Second—No one but the makers of Tuxedo knows how to treat this Burley tobacco so that every bit of pleasantness and goodness remains in the tobacco and every bit of unpleasantness and harshness is taken out.

GEO. RANDOLPH CHESTER
famous author

"Why shouldn't a man be willing to recommend a tobacco which gives as cool, sweet and satisfying a smoke as Tuxedo?"

Geo. Randolph Chester

J. N. MARCHAND
famous illustrator

"Fill my pipe with Tuxedo and I'm content. You can't beat Tuxedo for mildness and purity."

J. N. Marchand

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo was born in 1904. Its first imitator appeared two years later. Since then a host of imitations have been born, and are clamoring for your patronage.

No imitation is ever as good as the original. No amount of advertising, no amount of bluster and bluff, can ever make an imitation tobacco as good as Tuxedo.

If you are not a pipe smoker, you are denying yourself the greatest smoking pleasure known to man. One week of Tuxedo will give you more enjoyment than you have ever had—and at the end of the week your nerves will be better and your general health will have improved. Try Tuxedo this week!

PUPIL FLOORS MASTER WITH BLOWS

Latter Tried to Prevent Former Leaving Class Room After Refusing Permission.

Portsmouth, N. H., May 29.—Because he tried to stop Arthur Davis, a pupil and a member of the baseball team, from going to the school toilet after he had refused the boy permission, Charles Cheatham, master of mathematics in the Portsmouth high school, was knocked down and suffered a broken nose and two black eyes. Davis was sent home and superintendent of Schools James R. Pringle has the matter under investigation.

Davis had requested permission to go to the school toilet. Master Cheatham refused permission. Davis thereupon rose from his seat and started toward the door of the class room. Cheatham grasped Davis by the arm.

With a right-hand blow straight from the shoulder Davis struck Cheatham just between the eyes. The teacher was sent sprawling to the floor.

Several of the pupils in the room attempted to interfere, but Davis walked out and went to his home. No complaint was lodged against him with the police.

FLIES IN LANGLEY "AEROPLANE."

Glenn Curtiss Justifies Inventor Ridiculed During Life.

Beth, N. Y., May 29.—Aviator Glenn Curtiss demonstrated that the late S. P. Langley, secretary of the Smithsonian institution, whose aviation experiments were laughed at 15 years ago, was on the right track, when Curtiss yesterday made a successful flight in the queer Langley "aerodrome."

The model was brought here from the Smithsonian institution in Washington. Langley died of a broken heart from the ridicule which followed his attempts to fly on the lower Potomac river near Washington.

FAITHFUL MANY YEARS

But "Apple Mary" Now Decides That Sweetheart Is Lost.

New York, May 29.—After 67 years of waiting for the return of her sailor sweetheart, who sailed as the third officer of an American merchantman on a voyage to China with her promise to marry him on his return, "Apple Mary" Walsh, 84 years old, has decided to desert her station at the Battery for more comfortable quarters on Blackwell's island.

The heat Wednesday led "Apple Mary" to reach her decision. She asked a policeman to arrest her, that she might spend the summer in the workhouse. She was taken before a police magistrate, who after hearing her story committed her as requested.

"Apple Mary" explained that she received a letter from her sailor boy a year after he sailed. After that no trace of his ship was ever recorded, but she always expected to meet him some day at the Battery, where they parted in 1847.

THAW OFF TO SUMMER HOME.

Takes Nine Trunks and Plenty of Fishing Tackle.

Concord, N. H., May 29.—Harry K. Thaw left here yesterday for Gorham, where he will spend the summer at the Mount Madison house.

He was accompanied by Sheriff Holman A. Drew and others, with nine trunks, 10 traveling bags and a lot of fishing tackle.

Mass. to Have Blue Sky Law.

Boston, May 29.—A bill known as the "Blue Sky law" giving the state powers to regulate foreign corporations, was passed to a third reading in the House yesterday by a vote of 74 to 57. The measure was adversely reported by the committee on ways and means.

MELLEN ON STAND IN MISS MORSE'S SUIT

Testifies for Defence at Hearing in New Haven—He Was First Witness for the Defence.

New Haven, May 29.—Charles S. Mellen, ex-president of the New Haven railroad, was the first witness for the defence here yesterday in proceedings through which Miss Jennie Morse seeks the appointment of receiver for the Metropolitan Steamship company.

When examined before the special master taking testimony, Mr. Mellen denied that the New Haven was ever interested in a dollar's worth either the Metropolitan Steamship company of Maine or New Jersey. He said so far as he knew neither the New Haven of its subsidiaries owned stock in either.

His declaration offset the claim of Miss Morse, who is a sister of Charles W. Morse, that \$3,000,000 of New Haven money was used to eliminate Morse from steamship business on the east coast.

Representatives of the National City bank and of the Farmers' Loan & Trust company of New York are to be called next week.

The Gianinni Verdict.

Heckler, N. Y., May 29.—Jean Gianinni, the 16-year-old boy charged with the murder of his school teacher, Lida Beecher, was acquitted here yesterday on the ground of criminal imbecility.

Victim of Heat.

Lowell, Mass., May 29.—The first victim of the extreme heat in this city was recorded yesterday when Martin Kneebly, a Bay State street railway employee, collapsed and died in a few minutes. He was about 60 years old.
